About Infigen Energy

Infigen Energy is Australia's leading specialist renewable energy business. We have interests in 36 wind farms across Australia, the United States and Germany. With a total installed capacity in excess of 1,700MW (on an equity interest basis), we currently generate over 4,200GWh of renewable energy per year, sufficient to power over half a million households.

As a fully integrated renewable energy business, we own and operate energy generation assets and directly manage the sale of the electricity that we produce in Australia to an expanding range of customers in the Australian wholesale market. With a track record of successfully developing new greenfield opportunities, we seek continually to expand our Australian production capacity by selectively progressing our deep pipeline of prospective wind and solar projects.

Regulatory frameworks in Australia and around the world are enforcing a progressive increase in the use of energy from renewable sources. Infigen is well positioned to participate in this mandated growth in demand over coming years.
