INFIGEN ENERGY 2011 ANNUAL REPORT AND AGM NOTICE OF MEETING

Infigen Energy (ASX: IFN) advises that the attached 2011 Annual Report and the Notice of Meeting relating to the Annual General Meetings of Infigen Energy to be held on Friday, 11 November 2011, are being despatched to securityholders today.

The 2011 Annual Report and AGM Notice of Meeting are also available at Infigen's website (www.infigenenergy.com).

About Infigen Energy

Infigen Energy is a specialist renewable energy business. We have interests in 24 wind farms across Australia and the United States. With a total installed capacity in excess of 1,600MW (on an equity interest basis), we currently generate enough renewable energy per year to power over half a million households.

As a fully integrated renewable energy business in Australia, we develop, build, own and operate energy generation assets and directly manage the sale of the electricity that we produce to a range of customers in the wholesale market.

Infigen Energy trades on the Australian Securities Exchange under the code IFN.

CHAIRMAN'S & MANAGING DIRECTOR'S REPORT

“Our priorities for the year include further improvement in the availability and performance of our assets and the achievement of operational cost containment strategies”

CHAIRMAN'S REPORT

Dear Securityholders,

On behalf of the Boards it is my pleasure to present your 2011 annual report. This is my first annual report as Chairman.

Board and Management Changes

During the year there were a number of changes to the Board. These included the resignation of my predecessor Graham Kelly and the retirement of Tony Battle. Graham had served as an independent non-executive director from October 2008 and as Chairman from November 2008. Tony had served as an independent non-executive director since September 2005.

Doug Clemson, also an independent non-executive director since September 2005, and chair of the Board Audit, Risk and Compliance Committee, has decided to retire at the forthcoming Annual General Meeting.

The Group owes much to these three men. Under Graham's leadership they comprised the core that initiated and steered the process of internalisation of the Group's management from its former external manager. Mr Battle and Mr Clemson carried heavy responsibilities as the independent directors under the former external management structure since the IPO in 2005.

I add my personal appreciation of their guidance, support and counsel since my joining the Board in 2009.

In November 2010, the Children's Investment Fund (TCI), a substantial and long time securityholder of Infigen Energy, nominated one of their partners, Philip Green, as a director. Philip was duly appointed to the Board as a non-executive director of Infigen Energy.

During 2011 the Board was further diversified and strengthened with the appointment of Fiona Harris and Ross Rolfe AO as independent non-executive directors. Ms Harris will succeed Mr Clemson as chair of the Board Audit, Risk and Compliance Committee. There are no plans for further board membership changes in the coming year.

A number of changes were made in management. Chris Baveystock was appointed as the Group's Chief Financial Officer. Craig Carson was appointed as Chief Executive Officer of the Group's US business, based in Dallas, Texas. Scott Taylor returned from the US and commenced as Group General Manager of the Group's Australian business, based in Sydney, New South Wales.

I am confident that these changes will benefit Infigen as we address the challenges and opportunities that lie ahead.

Business Highlights

The Group has faced continued difficult business conditions during the year.

The Group's global debt facility entered into cash sweep, whereby all surplus cash from relevant assets is used to repay debt. Notwithstanding depressed wholesale electricity and renewable energy certificate prices, and some market scepticism, the Group

comfortably met the facility's leverage ratio covenant during the year. The Board is confident that under reasonable operating and market assumptions Infigen will continue to meet its leverage ratio covenant for the duration of the facility term, such that the debt facility's favourable terms remain available to the Group.

During the year we also used operating experience to downgrade the wind energy assessment and to update the outlook for operating costs for much of the portfolio of wind farms. We believe this has redressed some of the assumptions that were advanced in connection with the acquisition or commissioning of these wind farms under the former external management. These parameters remain under continued monitoring and, in the case of operating costs, active management.

Despite favourable facility terms, Group net debt of \$949 million at 30 June 2011 remains higher than might now be thought desirable. We were therefore pleased to be able to sell the Group's German wind farms late in the financial year, on terms much more favourable than had been offered in 2010. This has enabled prudent debt reduction.

During the year the Board took the view that it was inappropriate, while the cash sweep was in effect and the Group remained unprofitable, to continue to pay distributions. This position will be reviewed during FY14 in the light of then-prevailing conditions.

Our new 48.3 MW Woodlawn Wind Farm, located near our 140.7 MW Capital Wind Farm, outside Bungendore in New South Wales, has progressed well during the year – safely, on time and within budget. Currently all 23 turbines are exporting power and final commissioning testing is nearing completion. Its \$115 million construction cost is supported by a \$55 million project finance facility.

Despite the challenging environment and history, the Group's financial performance

for the year saw revenue from continuing operations increase by 1 percent to \$267.6 million. Earnings from continuing operations before interest, taxes, depreciation and amortisation (EBITDA) decreased marginally to \$145.6 million as the business incurred higher post-warranty operating costs – although active management saw these increases contained below expectations.

The statutory net loss of \$61.0 million compared with a statutory loss of \$74.4 million in the prior year. Both years included one off items that contributed to the losses. The sale of the German wind farms resulted in a book loss of \$31.1 million this year.

Infigen moves into FY12 with \$149 million of cash, of which \$105 million was held by the group of companies excluded from Infigen's global debt facility.

Outlook

In Australia, Infigen looks to a gradual return to long-term average wind conditions and to some uplift in prices for wholesale electricity and renewable energy certificates, to support a modest strengthening of the position of its continuing businesses in the coming year.

We also look forward to the introduction of a price on carbon alongside the continuation of the Renewable Energy Target obligations on electricity retailers and large electricity consumers. These measures, together with improving economic conditions across Australia, should restore the returns for past investments in renewable energy assets and create conditions for the further investments needed to meet Australia's targets and needs.

Infigen will continue to sustain the value in its 1,500 MW development pipeline, but does not presently expect to commence further wind farm construction in the coming year. We will continue to work closely with property owners and communities to ensure that our development plans

address bona fide community issues. We will continue to monitor reputable research into community issues relevant to renewable energy.

To sustain value in our US business we have increased our efforts towards improving operating practices, and containing operating cost increases. We expect recovery in the broader US market to continue to be slow, such that improved returns from existing assets and any new investment opportunities may be some time off. In the meantime, our 86 percent contracted offtake revenue provides some insulation against the continuing electricity market weakness.

The Woodlawn Wind Farm is on schedule to reach practical completion before the end of 2011. This will contribute to FY12 earnings and its net cash flow will supplement cash balances held outside the global debt facility group.

I would like to thank the Managing Director, Miles George, his senior management team and all Infigen staff for their contributions to the business during the year. I also thank Holger Marg and our European business team for their efforts during the year and through the German asset sale process, and I wish them well for the future as we now part company.

Finally, I would like to thank securityholders for your continued support.

Your Directors look forward to welcoming you to our Annual General Meeting to be held at 11am on 11 November 2011 at the InterContinental Hotel, 117 Macquarie St, Sydney.

Yours sincerely

Michael Hutchinson
Chairman

CHAIRMAN'S & MANAGING DIRECTOR'S REPORT

MANAGING DIRECTOR'S REPORT

Dear Securityholders,

The 2011 financial year was a turbulent one for Infigen Energy and you as securityholders, as reflected in the substantial decline in our security price during the period. Despite the turbulence, Infigen's management team remained focused on the key controllable objectives of improving operational performance and addressing strategic challenges. Pleasingly, our full year financial and operational outcome was in line with market guidance. This reflected the capacity of Infigen's business to withstand difficult electricity and renewable energy market conditions during the year. I am also happy to say that we are now operating more safely with a significant improvement in our lost time injury frequency rate. We continue to strive for our goal of zero harm.

We made good progress developing and improving our commercial, technical and engineering capabilities. The revenue and cost outcomes were achieved in challenging market conditions, and nascent post-warranty operating environments in the US and in Australia. Achieving FY11 operational performance at the upper end of our guidance and comfortably satisfying our debt facility leverage ratio covenant has demonstrated the robustness of our business.

We continue to be the largest owner-operator of wind farm capacity in Australia. We also maintain a strong position in the US, controlling the largest wind energy business that operates independently of an integrated utility in that country.

Key Milestones

In July 2010 Infigen commissioned stage 3 of its Lake Bonney Wind Farm in South Australia. This added 39 MW to our operating capacity in Australia to reach a total of 508 MW.

Construction began at our 48.3 MW Woodlawn Wind Farm located near our 140.7 MW Capital Wind Farm, outside Bungendore in New South Wales. The Woodlawn Wind Farm comprises 23 Suzlon S88 2.1 MW turbines and is being constructed by Suzlon under an engineering, procurement and construction contract.

By the end of the financial year Woodlawn Wind Farm was exporting electricity generated from the first turbines connected to the grid. The project is progressing within budget and on time to achieve practical completion in the December quarter of 2011. Woodlawn Wind Farm will provide enough renewable energy to power approximately 23,000 homes and assist in meeting New South Wales' growing electricity demand.

In the US, we had a welcome return to long term mean (P50) wind conditions in FY11. Craig Carson, our new US CEO, has settled into the role and is improving operating practices throughout the US business. This included further development of commercial, technical and engineering capability. The restructuring and rebranding of Infigen's US asset management business was completed in March 2011. Operations were rationalised whilst investments in people and technical capability are continuing.

During the year, the Australian development team continued to advance selected projects in the wind and solar development pipeline towards a construction-ready status. While new investment signals remained weak, further necessary work was carried out to preserve the option value of the pipeline. Solar farm sites developed for the Infigen and Suntech Power proposal under the Commonwealth Government's Solar Flagships Program received development approvals from the NSW Department of Planning. These sites remain prospective and we will continue to explore

alternative commercial opportunities to progress their development.

Late in the year we sold our portfolio of German wind farm assets for an enterprise value of €154.6 million. This resulted in considerable deleveraging and is a further step towards simplifying Infigen's business. The majority of the sale proceeds were applied to debt repayment in early July 2011, resulting in Infigen amortising \$154 million under the global debt facility.

On 15 June this year we celebrated Global Wind Day in Australia by opening our Capital Wind Farm for public tours. We had over 300 visitors pass through the site, and Infigen employees and senior management took the opportunity to explain the workings of a modern wind farm. The day was very successful and many visitors contacted us after the event to express their thanks. We hope to provide more visitors with similar opportunities in the future as part of our commitment to fostering a positive relationship with the communities in which we operate.

FY11 Operational and Financial Review

Infigen's FY11 production results reflected a return to long term mean (P50) wind conditions in the US and new capacity additions as well as availability improvements in Australia. Production in the US increased 13 percent to 3,332 GWh while in Australia production increased 17 percent to 1,335 GWh. Total production was at the upper end of the guidance range provided at the beginning of the year, although Australian wind energy conditions remained below long term mean expectations.

Revenue from continuing operations increased 1 percent to \$267.6 million. The US and Australian businesses reported revenue increases of 7 percent and 12 percent respectively in local currency terms to reach the upper ends of the guidance ranges provided.

A significant appreciation of the Australian dollar against the US dollar resulted in a 5 percent decrease in Australian currency revenue for the US.

Average prices achieved in the US and Australia were 3 percent and 5 percent lower respectively, despite greater reductions in wholesale spot electricity and renewable energy certificate (REC) prices in both countries. This outcome reflects Infigen's highly contracted position in the US, stronger average PPA prices in Australia, and improved revenue management for RECs created in Australia.

Operating costs increased 9 percent to \$100.5 million. There were new costs associated with the Lake Bonney 3 Wind Farm commissioned at the beginning of the year. There were also increased costs related to the Capital Wind Farm, which operated for a full year in FY11 compared with eight months in FY10. In addition, as wind farms progressively transition off warranty, there are increased costs associated with replacing component parts and undertaking turbine service and maintenance activities. In the US and Australia 46 percent and 25 percent of the wind farm capacity were out of warranty respectively in FY11. We are continuing to implement improved operating practices including predictive and preventative maintenance and supply chain initiatives to contain these costs. Our objective is to lead best industry practice in post-warranty operating cost management.

Operating earnings before interest, taxes, depreciation and amortisation (EBITDA) decreased marginally to \$167.1 million. We reduced corporate costs by \$3.1 million to \$18.7 million.

FY11 statutory net loss was \$61.0 million compared with a statutory net loss of \$74.4 million in the prior year. Both years included one off items that contributed to the losses, with the sale of our German wind farms this year resulting in a book loss of \$31.1 million.

CHAIRMAN'S & MANAGING DIRECTOR'S REPORT

Infigen's balance sheet remains sound. Our global debt facility is in cash sweep, whereby all surplus cash from existing operating assets is used to repay debt. The inflexibility of the cash sweep is offset by the benefit of the facility's low margin, long tenor, and no scheduled repayments or refinancing requirement. In the current market environment it is considered desirable to retain the benefits of the facility. During the year we generated \$49.6 million surplus operating cash flow and received \$170 million proceeds from the sale of the German wind farms. Most of these funds were used to repay debt under the global debt facility.

On 10 June 2011 we drew down \$33 million of a \$55 million project finance facility for our Woodlawn Wind Farm. By the end of the year there were sufficient funds available for draw down under that facility to meet the project's outstanding capital expenditure commitments.

Infigen moves into FY12 with \$149 million of cash, of which \$105 million was held by the group of companies excluded from Infigen's global debt facility. This capital provides a material liquidity buffer and a source of some cash to fund opportunities that meet our stringent investment criteria.

Outlook

We expect the wholesale electricity and REC markets in Australia and the US to remain subdued throughout FY12. Management remains focused on improving operational and financial performance through improved operating practices.

In Australia wholesale electricity market prices have improved gradually from the lows of the first half of FY11. A number of fundamental factors are still expected to result in subdued wholesale pricing for FY12 and into the medium term. These include lower electricity demand from milder weather, lower economic activity and fuel switching, and increased supply of gas and hydro generation. In Queensland the gas industry is

ramping up production ahead of the commencement of processing for LNG exports. This has led to more gas fired generation. Hydro generation has also increased as a result of recent weather patterns. These supply and demand factors contribute to lower wholesale electricity prices. The introduction of carbon pricing will be a positive factor for Infigen, increasing the electricity component of Infigen's future merchant revenues.

Australia's expanded Renewable Energy Target (RET) scheme was enacted in August 2009 and has received continuing expressions of support from all major political parties since that time. Australia's three largest utilities account in aggregate for approximately three quarters of all obligations to purchase RECs under the scheme. Over the past two years these three utilities have taken full advantage of the opportunity to acquire and reserve significant portions of the REC surplus to meet their future obligations under the scheme, until around 2014. A REC supply-demand imbalance is currently expected beyond 2014. At that time the current REC surplus will be exhausted, obligations under the scheme will begin to increase more rapidly, and the current paucity of renewable energy capacity investment is expected to flow through to supply shortages.

Stability in RET policy remains critical to underpin investment and contracting decision making for the medium and long term. We were pleased to hear Prime Minister Julia Gillard reiterate the Government's commitment to the RET when she visited the Capital Wind Farm earlier this year.

Infigen remains well placed to benefit from opportunities to meet the mandated demand for annual increments in the uptake of renewable energy. Increases in bundled electricity and REC prices are required to achieve return hurdles for the new investments needed to meet the RET targets to 2030. Infigen's existing

merchant assets are expected to benefit from these price increases. We have a number of key competitive advantages, including an established operating base with efficient scale, no fuel price exposure, and an ability to enter into long term contracts with firm pricing. We also have an advanced pipeline of development assets providing scope to capture early mover advantages.

In the US Infigen's wind farms are largely contacted for an average remaining term of approximately 14 years. Our business there has limited exposure to recent fluctuations in wholesale electricity prices caused by the expansion of the shale gas industry and weakened economic conditions. While we expect wholesale price weakness to continue in the short to medium term, there are a number of factors that are expected to lead to upward price pressure in the medium to long term. These include reduced investment in new electricity generation capacity and continuing retirement of aging coal fired power stations. Prospects for LNG export opportunities can also lift US domestic gas prices towards higher export parity prices.

Infigen remains on track to repay \$250 million of global debt facility borrowings across FY11 and FY12. We expect to continue to meet the associated leverage ratio test based on reasonable assumptions.

Our priorities for the year include further improvements in the availability and performance of our assets and the achievement of operational cost containment strategies. We are targeting the completion of Woodlawn Wind Farm on time and within budget. Our development pipeline remains a key strategic asset for preservation, and we are progressing selected projects in anticipation of improved market conditions beyond FY12. We will look to maximise revenue through new and enhanced channels to market.

I would like to thank all Infigen staff for their contributions to the business during the year and say farewell and best wishes to our former European colleagues.

I would also like to thank all the members of the communities in which we operate for their continuing strong support. We aim to share the economic benefits of our industry with local communities by sourcing products and services locally and providing direct employment locally, where possible.

Finally, I would like to thank securityholders for your ongoing support. I look forward to meeting with you at the Annual General Meeting and reporting further on the performance of the business at that time.

Yours sincerely

Miles George
Managing Director

3,332

OVERVIEW OF THE US BUSINESS

Infigen Energy is the 8th largest owner and operator of wind farms in the United States, with an equity interest of 1,089 MW of net generating capacity. The portfolio of assets is geographically diverse, with wind farms located in the Northeast, Midwest, Texas, the Southwest, California and the Pacific-Northwest.

Approximately 86 percent of Infigen's production is sold through long term power purchase agreements, with the balance sold into the merchant electricity markets.

Headquartered in Dallas, Texas, Infigen employs more than 100 people in the US. Safety, financial, technical and management resources are maintained in Dallas, while operations, maintenance and technical staff are located at each of the wind farms.

BUSINESS PERFORMANCE

During FY11 the US wind farms experienced a general improvement in wind conditions consistent with our long term mean energy production estimate (P50), and improved site availability. This resulted in an improved capacity factor outcome of 35 percent (up from 30 percent) and a 13 percent increase in production to 3,332 GWh compared with FY10.

Infigen's US wind farms also reported 10 percent higher revenue to US\$145.3 million resulting largely from the increase in production.

The operating EBITDA margin decreased from 59.5 percent to 55.5 percent reflecting lower average wholesale electricity prices in the markets where Infigen sells its generation on a merchant basis, and higher costs as wind farms continue to transition off warranty into a higher operating cost environment. Post-warranty operating costs were managed below our original expectations through improved operating and maintenance practices and more efficient supply chain management. Further investment in Infigen's commercial, engineering and technical capabilities are expected to improve the life cycle operating performance of the assets.

Infigen has a higher proportion of assets operating in a post-warranty environment relative to our peers. During FY11, 46 percent of the operating capacity of wind farms in Infigen's US business had completed the original warranty arrangement and are now under direct operational control and management by Infigen employees. Service and maintenance for post-warranty wind farms is undertaken by the original equipment manufacturers (OEMs) and third parties for 19 percent of those assets and by Infigen directly for 81 percent. The remaining assets will progressively come under Infigen's direct control until FY15, when all will have exited warranty coverage. In some cases, Infigen has negotiated an extension of the OEM warranties where it makes commercial and operational sense for the asset.

UNITED STATES

In the US, tax-based incentive schemes are the primary form of incentive to promote renewable energy investment. Under these schemes Infigen participates in partnerships to gain access to third party capital and to derive the benefits from the incentives available. It is through such partnerships that Infigen holds interests in 18 wind farm projects in the US.

RENEWABLE ENERGY IN THE US: INDUSTRY OVERVIEW

Despite significant economic challenges, the US wind industry capacity grew by 5.1 GW during calendar year 2010, increasing the overall installed capacity base to more than 40 GW. After an historic 2009, when more than 10 GW was added, the dual impacts of the global financial crisis and the lack of direction on US long term energy policy materially slowed the growth rate of wind capacity. The timing of economic recovery and resolution of political debate over renewable subsidies will have a significant impact on a nascent domestic wind turbine manufacturing industry and resumption of the level of wind farm development activity seen in recent years.

As seen in other industrialised regions of the world, the global financial crisis reduced demand for most goods and services and by association, demand for electricity. In the US, this demand reduction was most evident in industrial loads that disappeared from certain regions such as the Midwest when auto manufacturers closed or scaled down operations in the face of bankruptcy threats. Demand is also affected by energy efficiency and peak demand response technologies embraced by large customers who are paid to curtail during peak demand periods.

Natural gas prices have decreased significantly over recent years following dramatic advances in technology associated with the fracking of shale gas formations in Texas, Louisiana and Pennsylvania. Shale gas development has substantially increased domestic gas supply in the US contributing to downward pressure on gas prices and on electricity prices.

FEDERAL AND STATE GOVERNMENT SUPPORT OF CLEAN ENERGY

The primary support mechanism for renewable energy in the US has been the Production Tax Credit (PTC) program, whereby companies that generate electricity from renewable energy, are eligible for tax credits which provide a unit generation benefit (currently US\$22 per MWh) for the first ten years of a each renewable energy facility's operation. All of Infigen's US wind farms benefit from this incentive.

In addition, Renewable Portfolio Standards (RPS) programs apply for 37 states, and are based on a fixed quantity system, whereby a renewable energy generator such as a wind farm is issued with RECs, which can be sold to energy retailers who are required to surrender them to a state based regulator. Infigen's wind farms typically produce and sell RECs bundled with the sale of electricity.

In February 2009, the US Congress passed the American Recovery and Reinvestment Act (ARRA), an economic stimulus bill, which included several provisions to spur development of wind energy in the slow economic climate. Measures included a three-year extension of the PTC program through to 2012, and the option to elect a 30 percent Investment Tax Credit (ITC) in place of the PTC program. The current PTC program is approved through to the end of 2012 at which time, Congress must authorise an extension for this program to continue. Infigen's existing wind farms will continue to benefit from the PTC regardless of the extension outcome that will apply only to new assets.

The US Treasury's grant program is an alternative to the PTC and ITC programs and provides upfront cash incentives for projects that commence construction before the end of 31 December 2011. This subsidy and the ITC were specifically designed to encourage development and protect jobs in the wake of the global financial crisis. Businesses that formerly generated US taxable income saw profits diminish, and as a result interest in the use of the PTC program declined dramatically. The ITC and grant programs have been successful in maintaining some momentum in new development activity, especially in areas where RPS provided mandated demand for the renewable projects.

Ways to appropriately encourage investment in clean energy are currently being debated in the US, and the outlook is positive that the country will continue to support further investment at both the federal and state levels.

ASSET MANAGEMENT

EXCELLENCE IN ASSET MANAGEMENT & OPERATION

The wind energy industry in the US is facing the challenge of a rapid transition to a post-warranty environment. After the warranty expires the costs of service and maintenance, the risks of component failure and unscheduled maintenance are borne by wind farm owners rather than the turbine manufacturers. Infigen's assets are at the forefront of this transition, with 46 percent of assets out of warranty compared to approximately 25 percent for the rest of the US wind industry.

To meet this challenge, Infigen is focused on developing world class asset management capabilities in the US. The team's primary focus is on further developing preventive and predictive maintenance programs to improve turbine reliability and reduce component failures and unscheduled maintenance.

Infigen is further developing its supply chain management expertise and capabilities, including:

- sourcing of materials, parts and services from alternative suppliers to the turbine manufacturers
- competitive tendering for service and maintenance in an increasingly competitive market
- optimising spare parts inventory
- upgrading Infigen's computerised maintenance management system

Infigen is also building its commercial capabilities in the key areas of asset management, financial control, regulatory affairs and risk management.

INVESTMENT IN PEOPLE & OPERATIONS CONTROL CENTRE

Infigen is investing in the training and development of its people based on the belief that talented and motivated people ultimately drive the performance of our business. That is particularly evident in the US Operations Control Centre (OCC).

The OCC oversees the operation of 1,178 wind turbines, balance of plant equipment, electrical interconnection facilities and electricity market activities across the US, 24 hours a day, 365 days a year. Staffed with 10 real-time operators utilising four SCADA systems, the OCC monitors and controls plant performance in every weather condition, troubleshoots operating issues, and calls out maintenance crews to return turbines to service.

To improve the capabilities of the OCC, Infigen has implemented a rigorous operator training and development plan. The training covers generation fundamentals, electricity system operations, problem recognition and troubleshooting. All operators are also being trained for certification to the requirements of the Government's North American Electric Reliability Corporation (NERC) by the end of calendar year 2011.

The results of this development program have been very promising. The OCC has contributed to significantly improving turbine reliability as well as operator and maintenance response times.

1,335

OVERVIEW OF THE AUSTRALIAN BUSINESS

In Australia, Infigen owns, operates and develops renewable energy assets, with wind farms currently being at the core of its business. Infigen is the largest owner-operator of wind farms with over 28 percent of the country's operating capacity at the end of FY11. The generating assets comprise five wind farms located in South Australia (SA), New South Wales (NSW) and Western Australia (WA). In addition, Infigen has the Woodlawn Wind Farm (48.3 MW) under construction in New South Wales and a well developed pipeline of wind and solar development projects in targeted growth areas throughout Australia.

Infigen generates revenue from selling electricity and environmental products such as Large-scale Generation Certificates (LGCs), also known as renewable energy certificates (RECs) produced by its wind farms. Approximately 58 percent of Infigen's production is sold under long term contracts with the remainder sold into the wholesale electricity pool and REC spot markets.

BUSINESS GROWTH & PERFORMANCE

During FY11 the Australian business increased its operating capacity to 508 MW with the commissioning of the Lake Bonney 3 Wind Farm (39 MW) in early July 2010. Increased capacity together with a full twelve months production from the Capital Wind Farm (140.7 MW) and improved site availability (97.3 percent up from 94.2 percent) resulted in a 17 percent increase in production to 1,335 GWh. The aggregate capacity factor of 30.1 percent for the year was below the long term mean estimate of 34 percent primarily due to lower than average wind conditions during the financial year.

Infigen's Australian business reported 12 percent higher revenue at \$117.2 million resulting largely from the increase in production, offset by lower average prices. The revenue outcome was reasonable given the challenging market conditions which included a period of record low wholesale electricity prices and low REC prices. The yearly average spot price for SA in FY11 was \$32.49 compared to the 10 year average of \$43.44. Infigen effectively managed its REC sales program by retaining RECs on balance sheet through periods of low prices and selling them as market prices improved.

The operating EBITDA margin decreased from 80.8 percent to 73.4 percent reflecting the lower average prices, and higher operating costs as wind farms began to transition into a higher cost post-warranty environment. Post-warranty operating costs are being managed through improved operating and maintenance practices. Costs were also incurred to build the necessary capability to effectively manage risks and opportunities associated with operating in Australia's dynamic electricity market.

At the beginning of the year Infigen commenced construction of its sixth Australian wind farm, Woodlawn. By the end of the financial year it had commenced exporting electricity into the grid during the pre-commission testing phase.

AUSTRALIA

WHAT IS THE RET SCHEME?

In August 2009 the Commonwealth Government implemented an enhanced Renewable Energy Target (RET) scheme. The scheme is designed to encourage investment in, and switching to renewable energy sources through mandated annual increments in the renewable proportion of Australia's electricity supply, rising to achieve a level of 20 percent by 2020. The expanded RET scheme is supported by all major political parties.

Electricity retailers and large users of electricity (liable entities) are required to purchase Renewable Energy Certificates (RECs) and surrender them each year to evidence compliance with the annual targets. Australia's three major electricity retailers account for around three quarters of the market for RECs. Failure to surrender sufficient RECs results in a penalty, currently set at \$65/MWh of shortfall. The penalty is not tax deductible.

The target and penalty mechanism is intended to provide a financial incentive for investment in renewable energy technologies to meet the targets. RECs created by renewable energy generators are sold under contract or in environmental product markets to meet the current and future compliance requirements of the liable entities.

During FY11 Infigen invested in the development of its people and system capabilities, including a 24 x 7 Operations Control Centre (OCC), its energy markets function, and asset management and maintenance systems.

Infigen also advanced the most prospective projects in its development pipeline while our investment in a proposal to the Federal Government's Solar Flagships Program created broader opportunities in solar photovoltaic (PV) asset development.

RENEWABLE ENERGY IN AUSTRALIA: INDUSTRY OVERVIEW

Investment in renewable energy in Australia is underpinned by the Commonwealth Government's Renewable Energy Target (RET) legislation. This mandates increasing annual increments for the uptake of renewable energy to reach 20 percent of all electricity generation by 2020.

Since 2001, the RET scheme has stimulated major regional investments in renewable energy generation. At the end of 2010, the aggregate investment in large-scale renewable energy generation stood at around \$9 billion¹. Wind energy is currently the most cost effective and fastest growing large-scale renewable energy generation source in Australia.

In June 2010 the Government made enhancements to the RET scheme to create a separate Large-scale Renewable Energy Target (LRET) scheme, whereby satisfaction of 90 percent of the RET is quarantined for large scale renewable electricity production.

Prior to the LRET adjustment coming into effect a large oversupply of RECs generated from less efficient small scale renewable systems resulted in weak REC prices during the first half of FY11. The large electricity retailers (liable entities) companies took advantage of the opportunity to acquire and reserve significant portions of the REC surplus for their future obligations. Developers of large scale renewable energy projects put their developments on hold as the combination of electricity and REC prices was insufficient to justify investment in new projects.

The LRET target has been increased for calendar years 2012 and 2013 to help absorb the oversupply, and REC prices have recovered somewhat. Infigen expects REC prices to remain around current levels during FY12 and then improve steadily in the medium term as the surplus is exhausted around 2014 and annual increments in the mandated target increase. The current supply-demand imbalance may still lead to some short term price volatility.

Following a long period of uncertainty, the future stability of RET policy is critical to underpin investment and contracting decision making for the medium and long term.

Wholesale electricity market prices have improved gradually from the lows of the first half of FY11. A number of fundamental factors are still expected to result in subdued wholesale pricing for FY12 and in the medium term. In Queensland, gas fired generation output has increased significantly over the last 12 to 18 months due to an excess supply of fuel as coal seam gas producers ramp up production in preparation for an LNG export market from 2014. Water inflow into reservoirs after the recent floods, together with weather patterns returning to mild La Nina conditions have resulted in increased availability of hydro generation. Fuel switching from electricity to gas and a significant uptake of heavily subsidised residential scale renewable energy technologies have contributed to lower energy consumption. Customers have responded to rising retail electricity prices (predominantly attributable to increasing network costs) by reducing consumption. The mild La Nina weather pattern is also contributing to lower demand during peak periods limiting high price events in the market.

WHERE DO WE SELL?

The generation from our Australian wind farms is sold:

1. to electricity retailers at contracted prices;
2. to sophisticated industrial and commercial customers at contracted prices; or
3. to the wholesale market at spot prices.

AUSTRALIAN GOVERNMENT'S PROPOSED CLIMATE CHANGE PLAN¹

In July 2011, the Commonwealth Government released its climate change plan. The scientific view that the world's climate is changing is widely accepted and the two major political parties in Australia have stated policies that seek to reduce Australia's carbon emissions to 5 percent below 2000 levels by 2020. The recent trend of rising temperatures and more extreme weather events is expected to have a detrimental economic effect globally, and particularly in Australia.

The Commonwealth Government's climate change plan promotes a reduction in carbon pollution by putting a price on carbon. This is expected to drive further investment in lower emission and cleaner energy technologies, while the primary driver for renewable energy generation remains the RET scheme.

The plan also includes transitional assistance to facilitate the retirement of 2,000 MW of the most polluting coal fired generation, further encouraging investment in renewable and other sources of cleaner energy generation.

Under the Government's plan around 500 of the biggest polluters in Australia will need to buy and surrender to the Government a permit for every tonne of carbon pollution they produce. For the first three years, the carbon price will be fixed, before moving to an emissions trading scheme in 2015. In the fixed price stage, starting on 1 July 2012, the carbon price will start at \$23 a tonne, rising at 2.5 percent a year in real terms. From 1 July 2015, the carbon price will be set by the market, with a price floor of \$15.

The Government expects that the RET, together with the carbon price, will result in approximately \$20 billion² of investment in renewable energy by 2020.

IMPLICATIONS FOR INFIGEN

The Government has stated that it has secured sufficient support for the draft plan legislation to pass in both houses of parliament, so there appears to be a strong likelihood of the legislation being enacted.

It is expected that wholesale electricity prices will rise under the plan, starting in July 2012. This should provide an improved price signal for new investment in renewable energy generation as well as providing a benefit for Infigen's existing market exposed (merchant) generation. A positive overall outcome is expected for Infigen in the medium term.

AUSTRALIA

WOODLAWN WIND FARM

Constructing New Capacity in NSW

- Capacity: 48.3 MW
- Capacity Factor: 39%
- Generation: approximately 160 GWh
- Turbines: 23 x 2.1 MW Suzlon S88
- Tonnes of CO2 avoided: approximately 150,000 tonnes p.a.
- Construction jobs created: >150

Infigen first successfully exported electricity to the grid from the Woodlawn Wind Farm in June 2011. The construction of Woodlawn Wind Farm has created more than 150 direct jobs and many more indirect jobs in Australia, including the fabrication of towers, operations and maintenance buildings, switch rooms and electrical equipment. Infigen has provided on-site apprentices with valuable work experience and the development has also benefited the local community through increased economic activity. The wind farm is scheduled to be completed in the December quarter of 2011.

DEVELOPMENT PIPELINE

DEVELOPMENT PIPELINE Developing Wind Farms and Solar Farms

The Australian development team has been involved in the development of Infigen's six Australian wind farms. During the year the development team continued to advance the most prospective projects in the wind and solar development pipeline towards a construction ready status and carried out work necessary to sustain the option value of the rest of the pipeline.

Progress continued on the solar PV development pipeline, which includes six solar farms of which four have been granted planning approvals.

The development team and development pipeline provide a platform for growth and optionality to Infigen. This positions Infigen to secure a share of the estimated 7,000 MW of new renewable energy generation required to be built in Australia in order to meet the Government's 20 percent by 2020 renewable energy target.

AUSTRALIA

TECHNOLOGY AND COSTS

At the end of FY11, 1,779 MW¹ of wind capacity was installed in Australia, of which over 28 percent was owned by Infigen. The amount of wind generation capacity in Australia has increased by an average of 30 percent a year over the past decade.

Solar PV generation capacity was added in more than 100 countries during 2010 confirming its status as the world's fastest growing power-generation technology. The market was driven by falling costs, new applications, strong investor interest, and continued strong policy support.

Suntech (NYSE:STP), a partner of Infigen in the Solar Flagships bid, moved into first place among all solar PV manufacturers, up from second place in 2009². It became the first Chinese firm to establish a US manufacturing presence opening a facility in Arizona in October 2010. The Infigen Suntech consortium is seeking to advance its Australian solar PV projects during FY12 and beyond.

Renewable energy continued to grow strongly worldwide and supplied an estimated 19.4 percent of global electricity production in 2010³. Among all renewables, global wind power capacity increased the most in calendar year 2010, up by 38 GW³ from 2009 to 197 GW. Global installed capacity of solar PV increased by 16.6 GW to 39.5 GW⁴ by the end of the 2010 calendar year.

OPERATIONS CONTROL CENTRE Building Our Core Competencies

The ability to monitor and plan the operation of all assets as well as to react and respond appropriately to pricing events in the National Electricity Market (NEM) is critical to maximising sustainable returns. Since it became functional on a 24 x 7 basis in March 2011, Infigen's Australian Operations Control Centre (OCC) has monitored and analysed data⁵ from our wind farms and the Australian Energy Market Operator (AEMO), and controlled our maintenance scheduling and bidding and dispatch systems to maximise revenue performance.

The OCC monitors asset performance 24 hours a day and works closely with the asset management team to guarantee centralised business communication and effective response to faults and emergencies. This assisted in improving site availability to 97.3 percent in FY11.

⁵ Data analytics capability has been designed within Infigen in co-operation with its external customers. It uses Supervisory Control and Data Acquisition (SCADA) systems to link with AEMO and Bidding Systems

SUSTAINABILITY

OUR PURPOSE, VISION AND VALUES

As a specialist renewable energy business Infigen exists to deliver attractive and sustainable returns to our investors.

Our vision is to be the leading specialist renewable energy business in the markets in which we operate.

In delivering on our vision we are inspired and motivated by a core value relating to **sustainability**.

Sustainability is fundamental to Infigen's purpose and encompasses environmental, social and economic responsibility.

- **Environmental:** we will pursue the efficient deployment of renewable energy technology and adopt practices that minimise harm to the environment, which may be directly or indirectly affected by Infigen's operations
- **Social:** we take actions (or refrain from actions) to protect the quality of life and wellbeing of individuals and communities touched by Infigen's activities
- **Economic:** we aim to deliver performance that maximises risk adjusted returns for our investors over the long term

COMMUNITY

It is important for Infigen to engage with and support the communities in which it operates. Infigen is involved with local communities during the planning and development stages of new projects, and then through the life of each wind farm. Construction of Woodlawn Wind Farm directly created more than 150 jobs, and the facility will continue to stimulate additional trade for local businesses throughout its life-cycle.

Infigen is committed to ongoing community consultation through regular engagement and a clear flow of information. This ensures that any concerns can easily be raised and then addressed. Infigen firmly believes that energy from wind turbines is safe, reliable and cost-effective. This view is supported by industry research, peer reviewed medical research and academic expert studies. Australia has some of the most stringent wind farm noise guidelines in the world and Infigen continues to comply with these.

Infigen continues to fund projects to enhance local community infrastructure and landscape including road upgrades and tree planting as noted below. Infigen also has a proud tradition of actively supporting local communities, charities, festivals, schools and sporting organisations through sponsorship, and through employee participation at community events.

COMMUNITY PARTICIPATION IN OUR ACTIVITIES

For the first time in 2011, Australia and Infigen took part in the celebration of the Global Wind Day organised by the European and Global wind energy bodies.

The local community was invited to visit the Capital Wind Farm, enter a wind turbine and chat to the Infigen team about how the wind farm is managed. Visitors also learned about the composition of turbines and how wind power is turned into electricity. Over 300 visitors joined in the celebrations.

SUSTAINABILITY

SAFETY

The Infigen team consists of approximately 170 people managing 24 wind farms in Australia and the US. Safety is Infigen's first priority and is reflected in the goal of zero lost time from incidents and injuries, or 'zero harm'. Infigen's Safety and Sustainability Committee monitors monthly progress on the safety performance of all assets in Australia and the US with all employees held accountable for safety performance in their respective area of responsibility.

From 1 July 2010 to 30 June 2011, the rolling 12 month Total Reportable Incident Rate (TRIR) and Lost Time Injury Frequency Rate (LTIFR) for the Group (direct employees and contractors' employees) are shown in the table below.

Infigen Energy Group	TRIR ¹	LTIFR ¹
FY10	26.5	12
FY11	25.9	3.4

¹ per 1,000,000 working hours

The material improvement in the LTIFR reflects efforts to improve the performance of our service providers in particular, with progress made towards our target of zero harm. The steady TRIR reflects ongoing diligence in the recording of all incidents and a need to maintain focus on reducing the frequency of all incidents.

ENSURING ECONOMIC SUSTAINABILITY

Supporting education is recognised as one of the key elements to economic sustainability.

Infigen provides trainee and apprenticeship opportunities during construction and the ongoing operation of our wind farms and solar projects.

Infigen also continues to sponsor schools, youth programs and activities, and is a proud sponsor of the University of NSW Co-Op Scholarship Program. This Program provides engineering students with the opportunity to apply and complement the knowledge and skills they have gained through their studies with hands-on experience in the workplace.

In the US Infigen supports a local college "extern program" providing 4 to 6 students who have completed the college wind energy curriculum with some practical experience. Students are mentored by the Infigen team and learn day-to-day work activities, putting their classroom knowledge to practical use. During the 4 to 6 month externships they learn how to operate, maintain and repair wind turbines.

PROTECTION AND REHABILITATION OF THE ENVIRONMENT

Actively pursuing protection and improvement of the environment is fundamental to long term community support. During the construction of Woodlawn Wind Farm, Infigen worked with the principal contractor to minimise the removal of trees and disturbance of habitat, and planted more than 1,000 new trees and shrubs.

Infigen supports local fire and police services. In the US, Infigen continues to support the fantastic work of Portage Volunteer Fire Company, Maryneal, Roscoe Volunteer and Lake Sweetwater Fire Departments, as well as the Illinois Police Association. In Australia, Infigen funded the purchase of a fire truck for Taylors Creek Rural Fire Service and pays for the mains power to the fire shed, while continuing to support local fire services in Walkaway, Western Australia.

ENVIRONMENT

Recognising the need for sustainability including security of energy supply, Australia is following the lead of the EU, US and China to reduce our reliance on fossil fuels, and to reduce the emissions intensity of our economy. As a renewable energy specialist, Infigen is well-positioned in Australia and the US to contribute to the transition from fossil fuel based electricity generation to renewable energy.

Infigen is particularly conscious of the carbon emissions generated by its business activities.

For the third consecutive year, Infigen has collected data on its emissions in Australia, and fulfilled our reporting requirements under the National Greenhouse & Energy Reporting Act (NGER) for the 12 months ended 30 June 2010. Due to timing constraints on the collection and verification of data we report this information one year behind our financial results.

We also participated for the fourth time in the Carbon Disclosure Project – the only independent global system through which thousands of companies report their greenhouse gas emissions and assessment of climate change risk and opportunity.

Infigen's reported production of greenhouse gases, energy used and energy produced in Australia in FY10 is shown in the table below.

Infigen's level of emissions in Australia is quite small and is far outweighed by the positive contribution of our renewable energy generation to avoid over one million tonnes of greenhouse gas emissions annually (based on average National Electricity Market intensity).

All of our wind and solar farm developments undergo comprehensive environmental assessments before being granted development approval.

The development process involves committing to obligations under environmental management programs. These cover areas such as control of soil erosion and sedimentation, management of bushfire-related risks, directions on waste handling and disposal, and the minimisation of any potential impacts our actions may have on flora and fauna habitat.

Infigen takes environmental protection very seriously. The approach to the Woodlawn Wind Farm development is an example. During the construction phase, Infigen worked with the principal contractor to minimise the removal of trees and disturbance of habitat. In consideration of the requirement to remove some trees, Infigen planted more than 1,000 new trees and shrubs with the help of a local organic nursery. Each type of plant was picked to contribute to native biodiversity creating a wildlife corridor giving shelter and food for animals for years to come.

Infigen is in the process of planning and implementing the Bird and Bat Management Program for Woodlawn Wind Farm as part of the overall program of managing the interface with the existing habitat. The program incorporates comprehensive monitoring of habitat, minimising identified risks and reporting to appropriate environment protection authorities.

NATIONAL GREENHOUSE & ENERGY REPORTING ACT

The primary driver for the NGER is to underpin the introduction of an emissions trading scheme in the future.

NGER requires organisations that produce or consume energy above a threshold, or emit carbon dioxide above a threshold, to report to the Department of Climate Change and Energy Efficiency on their activities.

Infigen's obligation to report is driven by its high level of electricity generation.

GHG Emissions			Energy	
Scope 1 (tCO ₂ -e)	Scope 2 (tCO ₂ -e)	Total of Scope 1 & 2 (tCO ₂ -e)	Energy Consumed (GJ)	Energy Produced (GJ)
13	2,671	2,684	12,023	3,904,233

INFIGEN BOARD

MICHAEL HUTCHINSON
Non-Executive Chairman

Mike was appointed an independent non-executive director of Infigen Energy in June 2009 and subsequently elected Chairman on 12 November 2010. He is a member of the Audit, Risk & Compliance Committee and the Nomination & Remuneration Committee.

Mike was formerly an international transport engineering consultant and has extensive experience in the transport and communications sectors, including as a senior official with the Australian Government.

Mike is currently an independent non-executive director of the Australian Infrastructure Fund Ltd and EPIC Energy Holdings Ltd.

MILES GEORGE
Managing Director

Miles is the Managing Director of Infigen Energy, having previously been the Chief Executive Officer since 2007. Miles was appointed Managing Director in January 2009.

Miles has over 20 years experience in the infrastructure and energy sectors, and in particular renewable energy development and investment.

Since 2000, Miles has been involved in development and investment in wind energy projects in Australia, including playing a key role in the development of Infigen's first wind farm at Lake Bonney in South Australia. Miles jointly led the team which established the business now known as Infigen Energy in 2003. Subsequently he jointly led the team which structured and implemented the Initial Public Offer and listing of Infigen's business on the ASX in 2005.

DOUGLAS CLEMSON
Non-Executive Director

Doug was appointed an independent non-executive director of Infigen Energy in September 2005. He is Chairman of the Audit, Risk & Compliance Committee and a member of the Nomination & Remuneration Committee.

Doug is the former Finance Director and CFO of Asea Brown Boveri (ABB) where he was responsible for the corporate and project finance needs of the ABB group in Australia and New Zealand. He was instrumental in the establishment of the activities of ABB Financial Services and its participation in the co-development, construction and operation of important power generation, transportation and infrastructure projects in this region.

Doug's previous directorships include General and Cologne Reinsurance, Electric Power Transmission Group, ABB Australia and New Zealand, and Smiths Industries.

PHILIP GREEN
Non-Executive Director

Philip Green is a Partner of The Children's Investment Fund Management (UK) LLP (TCI), a substantial securityholder of Infigen Energy.

Infigen Energy announced the appointment of Philip Green as a non-executive Director of Infigen Energy Limited, Infigen Energy (Bermuda) Limited and Infigen Energy RE Limited on 19 November 2010.

Philip joined TCI in 2007 and his responsibilities include TCI's global utility, renewable energy and infrastructure investments. Prior to joining TCI, Philip led European Utilities equity research at Goldman Sachs, Merrill Lynch and Lehman Brothers over a 12 year period.

FIONA HARRIS
Non-Executive Director

Fiona was appointed an independent non-executive director of Infigen Energy in June 2011. Fiona is a member of the Audit, Risk & Compliance Committee and since the end of the period has also been appointed a member of the Nomination & Remuneration Committee.

Fiona is Chairman of Barrington Consulting Group and National Director of the Australian Institute of Company Directors. For the past sixteen years she has been a professional non-executive director.

Fiona is currently a Director of Altona Mining Limited, Aurora Oil & Gas Limited and Sundance Resources Limited.

INFIGEN MANAGEMENT

MILES GEORGE

Managing Director

Miles is the Managing Director of Infigen Energy, having previously been the Chief Executive Officer since 2007. Miles was appointed Managing Director in January 2009. Miles has over 20 years experience in the infrastructure and energy sectors, and in particular renewable energy development and investment. Since 2000, Miles has been involved in development and investment in wind energy projects in Australia, including playing a key role in the development of Infigen's first wind farm at Lake Bonney in South Australia. Miles jointly led the team which established the business now known as Infigen Energy in 2003. Subsequently he jointly led the team which structured and implemented the Initial Public Offer and listing of Infigen's business on the ASX in 2005.

GEOFF DUTAILLIS

Chief Operating Officer

Geoff is the Chief Operating Officer of Infigen Energy, with responsibility for the business and operational activities of Infigen Energy in Australia and the US. Geoff joined Infigen Energy in 2005 following playing an instrumental role in the process of preparing Infigen for its Initial Public Offer in 2005. Geoff has extensive

experience in the development and project management of major projects, having had leadership roles on a number of landmark developments while working at Lend Lease for almost 19 years in Australia and Europe. Geoff holds a Bachelor of Engineering (Civil) (Hons) from the University of NSW with post-graduate qualifications from the Australian Graduate School of Management, Cambridge International Land Institute (UK) and the Australian Institute of Company Directors.

CHRIS BAVEYSTOCK

Chief Financial Officer

Chris is the Chief Financial Officer of Infigen Energy, with responsibility for managing of the financial risks of the business while being responsible for financial control and compliance. Chris acted as Infigen Energy's interim Chief Financial Officer from December 2010 until his appointment as Chief Financial Officer in March 2011. Chris has over 20 years of experience as a finance executive in mergers and acquisitions, acquisition integration, financing, project evaluation and review, bids and tenders, and all facets of reporting. His most recent roles were as Chief Financial Officer to the Tenix Group, and subsequently a number of senior finance roles at Transfield Services, including Group Financial Controller. Chris holds

a Bachelor of Arts in History from the University of Cambridge with additional certificate as Chartered Accountant from the Institute of Chartered Accountants England & Wales (ICAEW).

BRAD HOPWOOD

General Manager – Corporate Finance

Brad is the General Manager – Corporate Finance for Infigen Energy, with responsibility for managing the sources and uses of capital for the business, corporate activity and projects, and the group's tax function. Brad has worked with Infigen Energy since 2006 and been responsible for tax, corporate finance and corporate structure matters, as well as the group's activities in Europe. Brad previously worked with KPMG in Sydney and London. Brad holds Bachelor degrees in Economics and Law and a Graduate Diploma of Legal Practice. Brad is also admitted in New South Wales as a (non-practising) Solicitor.

Opposite page:
Chris Baveystock, Miles George, Geoff Dutailis, Brad Hopwood

SCOTT TAYLOR

Group General Manager – Australia

Scott is the Group General Manager of Infigen Energy's Australian business.

Scott is accountable for the operational performance of the assets, commercial performance of the business and continued growth in the Australian energy market. Scott previously managed Infigen Energy's US wind energy business and was also involved in a number of line management, business transition, and strategy development roles both in Australia and the US since late 2006. Prior to joining Infigen Energy Scott has held a number of senior management roles at Queensland Rail, Tarong Energy, Energex, and Comalco Smelting. Scott is a Graduate and facilitator with the Australian Institute of Company Directors, Fellow of the Risk Management Institute of Australia and Industry Fellow of the University of Queensland (UQ) Business School. Scott holds a Bachelor Degree of Science (UNSW), and post graduate degrees in Information Systems (UC) and Business Administration (UQ).

CRAIG CARSON

Chief Executive Officer – US

Craig joined Infigen Energy in 2010 and has responsibility for all of Infigen's activities in the US.

Craig has more than 25 years of leadership and senior management experience in the energy industry. Prior to joining Infigen Energy, Craig was Vice President, US Cogeneration at BP Alternative Energy, where he had full profit and loss responsibility for BP's US Cogeneration business unit. Craig previously was responsible for the engineering, construction, operations and asset management for BP Wind Energy. Prior to joining BP, Craig held senior positions with ConocoPhillips and SkyGen Energy, and served in the US Navy. Craig holds a BS in Mechanical Engineering from the University of Illinois at Chicago and an MBA from Northwestern University's Kellogg School of Management.

CORPORATE STRUCTURE

The Infigen Energy group (**Infigen**) consists of the following entities:

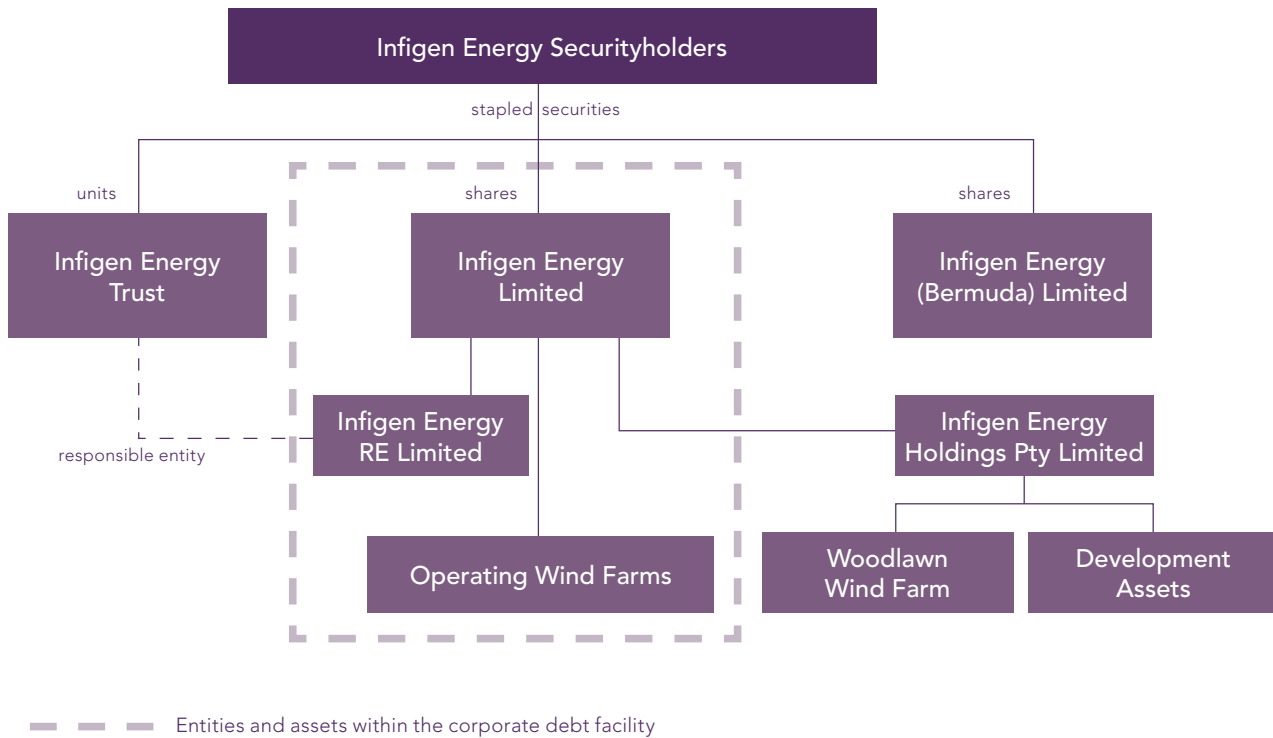

- Infigen Energy Limited (**IEL**), a public company incorporated in Australia;
- Infigen Energy Trust (**IET**), a managed investment scheme registered in Australia;
- Infigen Energy (Bermuda) Limited (**IEBL**), a company incorporated in Bermuda; and
- the subsidiary entities of IEL and IET.

One share in each of IEL and IEBL and one unit in IET have been stapled together to form a single stapled security, tradable on the Australian Securities Exchange under the 'IFN' code.

Infigen Energy RE Limited (**IERL**) is the Responsible Entity of IET.

The current stapled structure of the Infigen group was established immediately prior to listing on the Australian Securities Exchange in 2005 and currently cannot be materially simplified due to Infigen's corporate debt facility.

The following diagram represents the structure of the Infigen Energy group, including the entities and assets within the corporate debt facility.

CORPORATE GOVERNANCE STATEMENT

- 32 Introduction – Structure of the Infigen Energy group
- 32 ASX Principles and Recommendations
- 33 ASX Principle 1:
Lay solid foundations for management and oversight
- 34 ASX Principle 2:
Structure the Board to add value
- 36 ASX Principle 3:
Promote ethical and responsible decision-making
- 37 ASX Principle 4:
Safeguard integrity in financial reporting
- 39 ASX Principle 5:
Make timely and balanced disclosure
- 39 ASX Principle 6:
Respect the rights of shareholders
- 40 ASX Principle 7:
Recognise and manage risk
- 41 ASX Principle 8:
Remunerate fairly and responsibly

CORPORATE GOVERNANCE STATEMENT

INTRODUCTION – STRUCTURE OF THE INFIGEN ENERGY GROUP

This statement outlines Infigen Energy group's corporate governance framework as at 30 September 2011. A copy of this statement and other relevant documents and summaries can also be accessed from the Corporate Governance section on Infigen's website at www.infigenenergy.com.

The Infigen Energy group (**Infigen**) comprises:

- Infigen Energy Limited (**IEL**), ACN 105 051 616, a public company incorporated in Australia;
- Infigen Energy (Bermuda) Limited (**IEBL**), ARBN 116 360 715, a company incorporated in Bermuda;
- Infigen Energy Trust (**IET**), ARSN 116 244 118, a managed investment scheme registered in Australia, of which Infigen Energy RE Limited (**IERL**), ACN 113 813 997, AFSL 290710, is the responsible entity; and
- the subsidiary entities of IEL and IET.

Any reference contained in this statement to IERL is a reference to IERL in its capacity as responsible entity of IET. IEBL was established and included in the group's stapled structure in 2005 to provide flexibility regarding potential investment ownership structures. IEBL has not been utilised for that purpose since it was established and Infigen aims to wind-up this entity when it is feasible to do so.

Shares issued by IEL and IEBL, as well as units issued by IET, are stapled together to form IFN stapled securities (**IFN securities**). These IFN securities are quoted on the ASX under the market code 'IFN'.

Interaction between the roles of IEL, IEBL and IERL

The Boards of IEL, IEBL and IERL (the **IFN Boards**) are responsible for the governance and management of Infigen.

The IEL Board, in consultation and agreement with the IEBL and IERL Boards, formulates and approves the strategic direction, investment objectives and goals of Infigen in accordance with the terms of the stapling deed of 16 September 2005 (**Stapling Deed**). In practice, IEL was responsible for conducting the day-to-day operations of Infigen during the year. IEL will continue to consult and exchange information with and seek the agreement of IEBL and IERL when making relevant decisions in relation to Infigen.

The Stapling Deed sets out the details of the relationship between IEL, IEBL and IERL in respect of Infigen. The Stapling Deed provides, to the extent permitted by law, for cooperation and alignment between these entities. It is by operation of the Stapling Deed that the Boards of IEL, IEBL and IERL are together responsible for overseeing the rights and interests of securityholders in Infigen, as well as being accountable to securityholders for the overall corporate governance and management of Infigen.

ASX PRINCIPLES AND RECOMMENDATIONS

The ASX Corporate Governance Council (**ASX CGC**) has issued a guideline setting out corporate governance Principles and Recommendations. The ASX Listing Rules require listed entities to include a statement in their annual report disclosing the extent to which they have followed the Principles and Recommendations within the ASX CGC guideline during the reporting period. This Corporate Governance Statement is structured with reference to the second edition of the ASX CGC guideline released on 30 June 2010. Relevant information required to be included in this Statement by the ASX CGC guideline has been included unless specifically indicated otherwise.

ASX PRINCIPLE 1: LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

Companies should establish and disclose the respective roles and responsibilities of Board and management.

Recommendation 1.1: Companies should establish the functions reserved to the Board and those delegated to senior executives and disclose those functions

The IFN Boards have each adopted a formal Board Charter which details the functions and responsibilities of the relevant Board and distinguishes such functions and responsibilities from those which have been delegated to management. Such delegation is non-exclusive. The Board Charters are reviewed by the IFN Boards annually. A summary of the Board Charters is available in the Corporate Governance section on Infigen's website at www.infigenenergy.com.

In acquitting their responsibilities, the Boards, amongst other things:

- contribute to and approve Infigen's corporate strategy;
- evaluate and approve material capital expenditure, acquisitions, divestitures and other material corporate transactions of Infigen;
- approve material Infigen policies, including Infigen's Code of Conduct, Health and Safety Policy, Conflicts of Interest Policy, Securities Trading Policy, Continuous Disclosure Policy and Risk Management Policy;
- approve the annual Infigen budget and all accounting policies, financial reports and material reporting by Infigen;
- approve the appointment or removal of the Chief Executive Officer (**CEO**);
- develop a succession plan for the CEO, and approve succession plans for other senior managers;
- monitor the performance of the business and management team, in particular, the CEO and other key management personnel;
- consider recommendations of Board Committees, such as the Audit, Risk & Compliance Committee and Nomination & Remuneration Committee;
- determine Infigen's distribution policy;
- approve the appointment and terms of appointment of the external auditor;
- consider, approve and monitor the effectiveness of Infigen's overall risk management and control framework, including through regular reporting to the Board from the Audit, Risk & Compliance Committee and regular updates (as required) from management on significant risk issues;
- review the performance and effectiveness of Infigen's corporate governance policies and procedures and consider any amendments to those policies and procedures;
- monitor Infigen's compliance with ASX continuous disclosure requirements;
- subject to the constituent document of the relevant Infigen entity, approve the appointment of Directors to the relevant Board and members to Committees established by the Board; and
- at least annually, review and evaluate the performance and effectiveness of the Boards, each Board Committee and each individual Director against the relevant charters, corporate governance policies and agreed goals and objectives of Infigen.

The Boards have delegated detailed review and consideration of some of these responsibilities to their respective Committees (refer Principle 2). The Board Charters also set out the specific powers and responsibilities of the Chair and the CEO (refer Principle 2).

Each IFN Board acts independently in exercising its separable responsibilities for each entity. Where there are joint responsibilities the Boards co-operate as provided for in the Stapling Deed. Where appropriate, this is given effect by concurrent Board and Committee meetings to address relevant matters.

The Board Charters also include an outline of the responsibilities of each Director. To assist Directors understand Infigen's expectations of them, all Non-Executive Directors have entered into formal letters of appointment and been provided with copies of relevant Board Charters and policies. Similarly, senior executives, including the CEO and Chief Financial Officer (**CFO**), have formal letters of employment governing their rights and responsibilities as executives within the Infigen group.

Recommendation 1.2: Companies should disclose the process for evaluating the performance of senior executives

The Nomination & Remuneration Committee of the IEL Board has the primary responsibility for setting the key performance indicators against which the performance of the CEO and other senior managers are evaluated.

At the commencement of the 2011 financial year (and at other relevant times for new senior managers), individual key performance indicators were set for senior managers against which their performance would be evaluated. The key performance indicators included a mix of business performance measures and personal performance measures for each senior manager. At the conclusion of the financial year, the review of the performance of senior managers is initially undertaken by the CEO and recommendations made to the Nomination & Remuneration Committee. The Nomination & Remuneration Committee undertakes a review of the performance of the CEO and considers the recommendations from the CEO regarding the performance of senior managers. The outcome of the Committee's review is then considered by the IEL Board.

The Remuneration Report within the Directors' Report sets out Infigen's remuneration framework, including the key performance conditions that are assessed in determining the remuneration of the CEO and other senior managers.

CORPORATE GOVERNANCE STATEMENT

ASX PRINCIPLE 2: STRUCTURE THE BOARD TO ADD VALUE

Companies should have a Board of an effective composition, size and commitment to adequately discharge its responsibilities and duties.

Structure of the Board

Recommendation 2.1: A majority of the board should be Independent Directors

The size and composition of each of the IFN Boards is determined in accordance with the Constitution of the relevant entity, the size and operations of the group and relevant corporate governance standards. It is intended that each of the IFN Boards will comprise Directors with a diverse range of skills, expertise and experience.

With reference to the criteria set out in Recommendation 2.1, the IFN Boards have assessed the independent status of each Director. The IFN Boards comprised a majority of Independent Directors throughout the 2011 financial year. There are four Independent Directors and two Non-Independent Directors currently on each of the IFN Boards.

When reviewing the independence of a Director who may have a separate contractual relationship with Infigen and/or is an affiliate of a business that has a contractual relationship with IEL, the materiality threshold to be applied to the cost or fees for the good or service being provided is 5% of the revenue of IEL for the prior financial year.

During the financial year and up to the date of this report, the changes to the IFN Boards are set out in the table below.

Current Directors	Position	Appointment Dates		
		IEL Board	IEBL Board	IERL Board
M Hutchinson	Independent Chair	18/6/09	18/6/09	18/6/09
D Clemson	Independent Non-Executive Director	9/9/05	14/9/05	9/9/05
P Green	Non-Executive Director ¹	18/11/10	18/11/10	18/11/10
F Harris	Independent Non-Executive Director	21/6/11	21/6/11	21/6/11
R Rolfe	Independent Non-Executive Director	9/9/11	9/9/11	9/9/11
M George	Executive Director ²	1/1/09	1/1/09	1/1/09

Former Directors	Position	Resignation/Retirement Dates		
		IEL Board	IEBL Board	IERL Board
G Kelly ³	Independent Non-Executive Director	12/11/10	12/11/10	12/11/10
A Battle ⁴	Independent Non-Executive Director	18/11/10	18/11/10	18/11/10

¹ Mr Green is a Partner of The Children's Investment Fund Management (UK) LLP which has a substantial shareholding of IFN securities.

² Mr George is Managing Director and Chief Executive Officer of Infigen.

³ Mr Kelly resigned as a Director.

⁴ Mr Battle retired as a Director at the close of the 2010 Annual General Meeting.

Throughout the financial year, the Independent Directors or Non-Executive Directors have met to consider relevant matters, as appropriate, in the absence of Non-Independent Directors or the Executive Director, respectively.

Directors are entitled to seek independent professional advice, collectively or on an individual basis (including, but not limited to, legal, accounting and financial advice), at Infigen's expense on any matter connected with the discharge of their responsibilities, in accordance with the procedures set out in the Board Charters.

Each individual Director is subject to re-election from time to time in accordance with the ASX Listing Rules and the respective Constitutions and Bye-Laws of IEL, IERL and IEBL.

Recommendation 2.2: The chair should be an independent Director

The Chair of each of the IFN Boards throughout the financial year was an Independent Director.

Recommendation 2.3: The roles of chair and chief executive officer should not be exercised by the same individual.

Throughout the financial year, the roles of Chair and CEO were exercised by different people for Infigen. At no stage was the Chair a former CEO of Infigen or any related party of Infigen.

Nomination Committee

Recommendation 2.4: The Board should establish a nomination committee

The IEL Board established a Nomination & Remuneration Committee in February 2007. In addition to its remuneration and general human resource responsibilities, that Committee is responsible for advising the IFN Boards on the composition of the Boards and their Committees, as well as reviewing the performance of the Boards, their Committees and individual Directors. The Committee met nine times throughout the 2011 financial year and the attendance of the Committee members at Committee meetings is outlined in the Directors' Report. The Committee was composed solely of Independent Directors. The Committee sought advice from independent advisers, as necessary.

The Nomination & Remuneration Committee Charter sets out the Committee's roles and responsibilities, composition, membership requirements and operational procedures. A summary of the Charter is available on Infigen's website. The Charter is reviewed annually by the Committee and the Board.

The IEL Nomination & Remuneration Committee will from time to time carry out, on behalf of IEBL and IERL, similar activities as the Committee is authorised by its Charter to carry out for IEL. Accordingly, the IEL Nomination & Remuneration Committee will provide advice and recommendations regarding relevant nomination and remuneration matters to the Boards of IEBL and IERL. It is intended that the Boards of IEBL and IERL may rely on those activities, advice and recommendations as if the IEL Nomination & Remuneration Committee was a committee of the IEBL and IERL Boards.

The ASX Principles indicate that the Committee should have at least three members. Up until 18 November 2010, the Committee had at least three members. For the remainder of the 2011 financial year and up to 4 August 2011, the Committee only had two members, being the only two Independent Directors during that period. On 4 August 2011, a further Independent Director was appointed to the Committee following appointment of that Director to the Boards.

The search for additional IFN Board Directors involved the identification of the skills and experience of the remaining Directors on the IFN Boards and those skill and experience areas that required strengthening and/or complementing. An external recruitment adviser undertook a search on behalf of the IFN Boards, including focusing on candidates with energy industry and financial expertise. Candidates were short-listed by the external recruitment adviser in conjunction with the IFN Boards, interviewed initially by the external recruitment adviser and subsequently by the then current IFN Board Directors, followed by further referee and background reviews undertaken by the external recruitment adviser. The Boards took advantage of the availability of a highly qualified female candidate to start the process of introducing gender diversity to their membership.

The skills, experience and areas of expertise of the current IFN Board Directors are set out in the table below. The IFN Boards are aiming to achieve a mix of skills and experience relating to the energy industry and associated areas of infrastructure, financing and government and regulatory affairs.

Directors	Skills, experience, areas of expertise
Mike Hutchinson	Engineering, communications, transportation, government, regulation, infrastructure, energy networks, wind energy
Doug Clemson	Accounting, corporate and project financing, power development, construction and generation, transportation, infrastructure projects
Philip Green	Engineering, accounting, global utilities, renewable energy and infrastructure
Fiona Harris	Commerce, accounting, governance, energy utilities, resources, mining exploration and development
Ross Rolfe	Energy generation (including renewable generation), development and financing, government, energy retail, infrastructure, resources, manufacturing
Miles George	Engineering, renewable energy development, financing, infrastructure

Recommendation 2.5: Companies should disclose the process for evaluating the performance of the Board, its Committees and individual Directors.

The Nomination & Remuneration Committee undertook its annual review of the membership and performance of the IFN Boards, their respective Committees and individual Directors. Recommendations were subsequently made to the IFN Boards. Individuals do not participate in the review of their own performance, nor participate in any vote regarding their election, re-election or Committee membership. In view of the recent changes to the Boards' composition, the next review will be undertaken in late-2012.

In relation to Directors who are due for re-election at the Annual General Meeting, the Nomination & Remuneration Committee provides a recommendation to the IEL and IEBL Boards.

For new Directors, induction arrangements make available to the new Director sufficient information and advice to allow them to participate fully and actively in Board decision-making at the earliest opportunity.

CORPORATE GOVERNANCE STATEMENT

ASX PRINCIPLE 3: PROMOTE ETHICAL AND RESPONSIBLE DECISION-MAKING

Companies should actively promote ethical and responsible decision-making

Code of Conduct

Recommendation 3.1: Companies should establish a code of conduct and disclose the code or a summary of the code as to:

- the practices necessary to maintain confidence in the company's integrity
- the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders
- the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.

The IFN Boards have adopted a formal Code of Conduct which is designed to ensure that:

- high standards of corporate and individual behaviour are observed by all Directors and employees in relation to Infigen's activities; and
- employees are aware of their responsibilities to Infigen under their contract of employment and act in the interests of Infigen, including in an ethical and professional manner.

The Code of Conduct requires Directors and employees, among other things, to:

- avoid conflicts of interest between their personal interests and those of Infigen and its securityholders;
- not take advantage of opportunities arising from their position for personal gain or in competition with Infigen; and
- comply with the Securities Trading Policy and other corporate policies.

The Code of Conduct requires Directors and employees to report any actual or potential breach of legal requirements, the Code of Conduct or other Infigen policies. Infigen promotes and encourages ethical behaviour and provides protection for those who report violations. A summary of the Code of Conduct is available on Infigen's website.

Infigen recognises that it has a number of legal and other obligations to non-securityholder stakeholders, including employees, financiers, suppliers and the broader community. The objectives of the Code include assuring all stakeholders that Infigen will conduct its affairs in accordance with ethical values and practices. The Code of Conduct specifically requires all employees to act lawfully, diligently, fairly and with honesty, integrity and respect.

Infigen aims to provide a work environment in which all employees may excel regardless of race, religion, age, disability, gender, sexual preference or marital status. In this regard, Infigen maintains policies relating to workplace practices, including occupational health and safety.

Securities Trading Policy

The IFN Boards have adopted a Securities Trading Policy which regulates the manner in which Directors and employees may buy or sell IFN securities, and requires that they conduct their personal investment activities in a manner that is lawful and avoids conflicts between their own interests and those of Infigen.

The policy specifies trading windows as the periods during which trading in IFN securities can occur. Trading is prohibited despite a window being open if the relevant person is in possession of non-public price-sensitive information regarding Infigen. The CEO and other key management personnel are required to pre-notify the Company Secretary (who in turn notifies the Chair) of any proposed trading by them in IFN securities, as well as the details of any subsequently completed trades. All trading by Directors in IFN securities is advised to the market in accordance with the Listing Rules.

A summary of Infigen's Securities Trading Policy is available on Infigen's website.

Diversity Policy

Recommendation 3.2: Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the board to establish measurable objectives for achieving gender diversity and for the board to assess annually both the objectives and progress in achieving them.

The IFN Boards have adopted a Diversity Policy which includes requirements for Infigen to establish measurable objectives for achieving gender diversity and to assess annually both the objectives and progress in achieving them. During preparation of the policy, the Board and management actively sought input from all employees to help define the meaning and value of diversity as it related to Infigen.

At Infigen, we respect those differences that people bring to the organisation that have an influence on individual identities and perspectives, including gender, ethnicity, religious beliefs, age, sexuality, disability and family responsibilities. We aim to promote a culture that encourages diversity, where our employees benefit from exchanging ideas and learning from each other in order to capture the benefits of diverse backgrounds, experiences and perspectives.

Infigen is developing strategies and programs to monitor and promote diversity within the workplace. Processes will also be implemented to monitor, review and report to the Nomination & Remuneration Committee and the IFN Boards regarding diversity within Infigen.

A summary of the Diversity Policy is available on Infigen's website.

Recommendation 3.3: Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the board in accordance with the diversity policy and progress towards achieving them.

The IFN Diversity Policy includes requirements for Infigen to establish measurable objectives for achieving gender diversity. Infigen will report the measurable objectives for achieving gender diversity and the progress towards achieving those objectives in its 2012 Annual Report.

Recommendation 3.4: Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.

The relevant information for Infigen as at the date of this report is as follows:

	Proportion
Women employees within Infigen	24%
Women in senior executive positions	10%
Women on the IFN Boards	17%

Recommendation 3.5: Companies should provide the information indicated in the Guide to reporting on Principle 3.

The information indicated in the Guide to reporting on Principle 3 has been included in this Corporate Governance Statement other than in relation to the measurable objectives for achieving gender diversity and the progress towards achieving those objectives. This information will be reported in Infigen's 2012 Annual Report.

ASX PRINCIPLE 4: SAFEGUARD INTEGRITY IN FINANCIAL REPORTING

Companies should have a structure to independently verify and safeguard the integrity of their financial reporting Audit, Risk & Compliance Committee

Recommendation 4.1: The board should establish an audit committee

The IFN Boards have each established an Audit, Risk & Compliance Committee. These are responsible for advising their respective Board on internal controls and appropriate standards for the financial management of Infigen. In practice the Committees generally hold concurrent meetings. The IFN Boards have delegated the responsibility for overseeing the establishment and maintenance of Infigen's system of internal control to the Audit, Risk & Compliance Committees.

The Committees oversee the financial reporting process, the systems of internal control and risk management, the audit process and Infigen's processes for monitoring compliance with laws and regulations.

The Audit, Risk & Compliance Committees undertake reviews of business risks to Infigen through its risk management processes aimed at ensuring risks are identified, assessed and properly managed. The Committees also monitor compliance by Infigen with its various licensing and other obligations, including specific obligations associated with managed investment scheme requirements.

On behalf of the IFN Boards, the Committees review the competence of the external auditor and any non-audit services proposed to be provided to Infigen by the external auditor to ensure external audit independence is maintained.

Recommendation 4.2: The audit committee should be structured so that it:

- consists only of non-executive directors
- consists of a majority of independent directors
- is chaired by an independent chair, who is not the chair of the board
- has at least three members.

Throughout the 2011 financial year, each Audit, Risk & Compliance Committee of the IFN Boards comprised only Non-Executive Directors, with a majority being Independent Directors. The Chair of the Committees, Mr Clemson, was not the Chair of the IFN Boards.

Up until 18 November 2010, the Committee had at least three members. Following the retirement of a Committee member, from 18 November 2010 to 23 February 2011, the Committee only had two members. A review was subsequently undertaken by the IFN Boards and on 23 February 2011 an additional Non-Executive Director was appointed to each Audit, Risk & Compliance Committee. On 21 June 2011, a further Independent Director was appointed to each Committee. Each Committee currently comprises four Non-Executive Directors, with three being Independent Directors.

There were nine formal Audit, Risk & Compliance Committee meetings held during the 2011 financial year. All Committee members attended each meeting whilst they were members of the Committee.

All Committee members possessed the requisite financial expertise and experience necessary to undertake the responsibilities of the Audit, Risk & Compliance Committees. All members have an understanding of the energy industry. Three members possess accounting qualifications. Further details of the experience and qualifications of each Committee member are set out in the Directors' Report.

CORPORATE GOVERNANCE STATEMENT

Recommendation 4.3: The audit committee should have a formal charter

The IFN Boards have adopted a Charter for each of the Audit, Risk & Compliance Committees that sets out the role and responsibilities, composition, structure, membership requirements and other relevant procedures for the Committees. A summary of the Charter is available in the Corporate Governance section on Infigen's website.

The Committees meet periodically and report to the IFN Boards following each Committee meeting, including in respect of recommendations of the Committees that require IFN Board consideration.

Audit Governance

Infigen's external auditor is PricewaterhouseCoopers, appointed by securityholders at the 2006 Annual General Meeting. The IFN Boards have a policy whereby the responsibilities of each of the lead audit engagement partner and review audit partner cannot be performed by the same people for a period in excess of five consecutive years. The present PricewaterhouseCoopers lead audit engagement partner for the 2011 financial year was Darren Ross and the current audit review partner is Michael O'Donnell.

The external auditor routinely attends Audit, Risk & Compliance Committee meetings. Periodically, the Committees meet with the external auditor without management being present, and the Committees also meet with management without the external auditor being present. The Committees' Chair liaises with the auditor outside formal meetings. Committee members are able to contact the external auditor directly at any time.

Certification and discussions with the external auditor on independence

The Audit, Risk & Compliance Committees require that the external auditor confirm each half year that it has maintained its independence and has complied with applicable independence standards. The Committees annually review the independence of the external auditor and have confirmed this assessment with the IFN Boards. A copy of the external auditor's annual certification of independence is set out in the Annual Report.

Restrictions on non-audit services by the external auditor

The external auditor is not permitted to carry out certain types of non-audit services for Infigen, including:

- bookkeeping or other services relating to the accounting records or financial statements;
- appraisal or valuation services;
- secondments to management positions;
- internal audit of financial controls;
- internal control design or implementation;
- implementation or design of financial information systems or other information technology systems;
- legal or litigation support services; and
- strategic or structural tax planning.

For all other non-audit services, any use of the external audit firm must be pre-approved by the Audit, Risk & Compliance Committees, or by delegated authority to a sub-committee consisting of one or more members of the Committee, where appropriate.

The breakdown of the aggregate fees invoiced by the external auditor in respect of each of the two most recent financial years for audit and other services is provided in Note 9 accompanying the Financial Statements in the Annual Report.

ASX PRINCIPLE 5: MAKE TIMELY AND BALANCED DISCLOSURE

Companies should promote timely and balanced disclosure of all material matters concerning the company.

Continuous Disclosure Policy

Recommendation 5.1: Companies should establish written policies designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies.

Infigen has adopted a Continuous Disclosure Policy which is periodically reviewed. That policy aims to ensure that all securityholders and potential investors have equal and timely access to material information concerning Infigen unless it falls within the scope of the exemptions contained in Listing Rule 3.1A.

A Disclosure Committee comprised of the CEO and other senior managers operates pursuant to the Continuous Disclosure Policy. In addition, the IFN Boards are actively and frequently involved in discussing disclosure obligations and reviewing disclosure material in respect of significant Infigen matters. Each Board meeting includes explicit consideration of any potentially disclosable information.

The Company Secretary is primarily responsible for communications with the ASX and for overseeing and maintaining the Continuous Disclosure Policy. The policy sets out the respective responsibilities for reviewing information that is or may be material, making disclosures to the ASX and issuing media releases and other written public statements on behalf of Infigen.

From time to time Infigen conducts analyst and investor briefings and in these situations the following protocols apply:

- no price sensitive information will be disclosed at those briefings unless it has been previously, or is simultaneously, released to the market;
- questions at these briefings that relate to price sensitive information not previously disclosed will not be answered other than through an appropriate ASX/market announcement; and
- if any price sensitive information is inadvertently disclosed, it will be immediately released to the ASX/market and placed on Infigen's website.

A summary of the Continuous Disclosure Policy is available in the Corporate Governance section on Infigen's website.

ASX PRINCIPLE 6: RESPECT THE RIGHTS OF SHAREHOLDERS

Companies should respect the rights of shareholders and facilitate the effective exercise of those rights.

Communications with Shareholders

Recommendation 6.1: Companies should design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose their policy or a summary of that policy.

Infigen does not currently have a formal communications policy, however an extensive program of information is made available to securityholders and potential investors throughout the year, including via ASX/market releases, direct mailing, electronic alerts, briefings, presentations and via Infigen's website. A summary of a policy will be available on Infigen's website when completed.

Notwithstanding, consistent with Infigen's Continuous Disclosure Policy, Infigen is committed to communicating with its securityholders effectively and promptly to provide ready access to information relating to Infigen. Infigen's website (www.infigenenergy.com) provides access to information for securityholders and other potential investors, including:

- the Board, management and corporate governance framework and policies;
- the portfolio of operating assets and development pipeline;
- copies of all market announcements and media releases from Infigen;
- Annual Reports, other half and full year financial reporting, and relevant investor information regarding distributions and taxation;
- information regarding sustainability and renewable energy, including our commitment to safety, the environment and the communities in which we participate;
- a link to the website of Infigen's security registry, Link Market Services Limited; and
- a subscriber facility where participants receive updated information alerts regarding Infigen.

Infigen encourages securityholders to utilise its website as their primary tool to access securityholder information and disclosures. In addition, the Annual Report facilitates the provision to securityholders of detailed information in respect of the major achievements, financial results and strategic direction of Infigen.

Advance notice of significant group briefings and details regarding the various methods to access and participate in these briefings are circulated broadly. Records are kept in relation to investor and analyst briefings.

Securityholders are encouraged to attend and participate in general meetings of Infigen, particularly the Annual General Meeting. Infigen provides securityholders with details of proposed meetings and meeting materials well in advance of the relevant dates.

Infigen's external auditor attends the Annual General Meeting and is available to answer securityholder questions regarding the conduct of the external audit and the preparation and content of the auditor's report. This allows securityholders an opportunity to ask questions of the auditor and reinforces the auditor's accountability to securityholders.

CORPORATE GOVERNANCE STATEMENT

ASX PRINCIPLE 7: RECOGNISE AND MANAGE RISK

Companies should establish a sound system of risk oversight and management and internal control.

Recommendation 7.1: Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies.

Infigen has adopted a Risk Management Policy consistent with International Standard ISO 31000. Infigen is committed to ensuring that its system of risk oversight, management and internal control is consistent with its business strategy and sound commercial practice. Infigen aims to ensure its culture and processes facilitate realisation of Infigen's business objectives in tandem with appropriate identification and management of business risks.

In relation to occupational health and safety risks, Infigen has established regional safety and sustainability committees to ensure implementation of appropriate safety procedures and a system of ongoing environmental and safety improvement programs.

The IFN Boards are ultimately responsible for overseeing and managing the material risks of Infigen. The Audit, Risk & Compliance Committees assist the Boards in this role. In accordance with their Charters, the role of the Audit, Risk & Compliance Committees includes reviewing the system for identifying, managing and monitoring the key risks of Infigen and obtaining reports from the Risk Manager and other senior managers regarding the status of any key risk exposures or incidents. This enables the Committees to ensure the IFN Boards are informed of all material business risks. The Audit, Risk & Compliance Committees have also implemented a robust internal audit program.

A summary of Infigen's Risk Management Policy is available on Infigen's website.

Recommendation 7.2: The board should require management to design and implement the risk management and internal control system to manage the company's material business risks and report to it on whether those risks are being managed effectively. The board should disclose that management has reported to it as to the effectiveness of the company's management of its material business risks.

Infigen's Risk Manager is responsible for the development and maintenance of an Enterprise Risk Management (ERM) framework consistent with International Standard ISO 31000. The Audit, Risk & Compliance Committees receive routine and exception reports on material business risks. The Risk Management Policy and ERM framework define the processes and responsibilities for managing business risks. As part of the ERM framework, all senior managers prepare and maintain functional risk registers. A principal aim of the ERM framework is to engage management to accept direct accountability for the identification and management of the business risks and the corresponding internal controls within their areas of responsibility. Senior managers regularly monitor the effectiveness of the controls implemented to manage the business risks identified.

The material risks for Infigen's business, including operational, financial and strategic risks, are listed within an over-arching Top Risks register for the group. This Top Risks register is populated by an assessment of the business risks identified within the functional risk registers, project specific registers (eg. construction projects) and site specific risk registers for operating assets. These material business risks are actively monitored and managed. The Top Risks register is reviewed and updated by the Risk Manager and a senior management committee. The updated risk register is subsequently reported to and reviewed by the Audit, Risk & Compliance Committees. This process involves confirmation of the effectiveness of Infigen's management of its material business risks.

Internal Audit

The IFN Boards have overall responsibility for Infigen's systems of internal control, supported by the Audit, Risk & Compliance Committees and management. The IFN Boards and Committees are assisted by Infigen's Internal Audit function in assessing the adequacy of the internal control system. The Audit, Risk & Compliance Committees have adopted a Charter for the Internal Audit function.

On an annual basis, and following a risk-based assessment of the group, the Internal Audit Manager prepares and presents an Internal Audit Plan to the Audit, Risk & Compliance Committees. The annual Internal Audit Plan aims to review the adequacy and effectiveness of the relevant internal control systems identified in the plan. Following completion of each Internal Audit review undertaken throughout the year, the Internal Audit Manager presents a report of the findings and recommendations at the subsequent meeting of the Audit, Risk & Compliance Committees. The Internal Audit Manager regularly liaises with the external auditor and also provides copies of Internal Audit reports to the external auditor.

Recommendation 7.3: The board should disclose whether it has received assurance from the chief executive officer (or equivalent) and the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

The CEO and CFO have provided written assurance to the IFN Boards that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks during the 2011 financial year. The written assurance is based on senior management reviews and sign-off, as well as enquiry by the CEO and CFO as appropriate.

ASX PRINCIPLE 8: REMUNERATE FAIRLY AND RESPONSIBLY

Companies should ensure that the level and composition of remuneration is sufficient and reasonable and that its relationship to performance is clear.

Information regarding the policies and principles which are applied to determine the nature and amount of remuneration paid to the Directors and management of Infigen are set out in detail in the Remuneration Report.

Remuneration Committee

Recommendation 8.1: The Board should establish a remuneration committee

The IEL Board has established a Nomination & Remuneration Committee. The Committee met nine times throughout the 2011 financial year.

The members of the Nomination & Remuneration Committee and their attendance at Committee meetings are listed in the Directors' Report.

The IEL Board has adopted a Charter for the Nomination & Remuneration Committee that sets out the Committee's roles and responsibilities, composition, membership requirements and operational procedures. A summary of the Charter is available on Infigen's website. Further information regarding the responsibilities of the Committee is outlined in the response to Recommendation 2.4.

Recommendation 8.2: The remuneration committee should be structured so that it:

- consists of a majority of independent directors
- is chaired by an independent chair
- has at least three members.

Throughout the 2011 financial year, the IEL Nomination & Remuneration Committee was composed solely of Independent Directors and was chaired by an Independent Director. During the 2011 financial year, the Committee held nine meetings.

Up until 18 November 2010, the Committee had at least three members. Following the retirement of the prior Chair of the Committee, from 18 November 2010 to 4 August 2011, the Committee only had two members. On 4 August 2011, a further Independent Director was appointed to the Committee. The Committee currently comprises three Independent Directors.

Recommendation 8.3: Companies should clearly distinguish the structure of Non-Executive Directors' remuneration from that of Executive Directors and senior executives

The remuneration structure and amounts paid to Non-Executive Directors, the Managing Director and senior executives for the 2011 financial year are set out in detail in the Remuneration Report.

Non-Executive Directors are not provided with retirement benefits, other than statutory superannuation, and do not receive options or other equity incentives or bonus payments.

DIRECTORS' REPORT

In respect of the year ended 30 June 2011, the Directors submit the following report for the Infigen Energy group (Infigen).

DIRECTORS

The following people were Directors of Infigen Energy Limited (IEL), Infigen Energy (Bermuda) Limited (IEBL) and Infigen Energy RE Limited (IERL) in its capacity as responsible entity of the Infigen Energy Trust (IET), during the whole of the financial year and up to the date of this report:

- Michael Hutchinson
- Douglas Clemson
- Miles George

The following people were appointed as Directors of IEL, IEBL and IERL during the financial year and continue in office at the date of this report:

- Philip Green (appointed 18 November 2010)
- Fiona Harris (appointed 21 June 2011)

The following people were Directors of IEL, IEBL and IERL from the beginning of the financial year until their resignation/retirement:

- Graham Kelly (resigned on 12 November 2010)
- Anthony Battle (retired on 18 November 2010)

FURTHER INFORMATION ON DIRECTORS

The particulars of the Directors of Infigen at or since the end of the financial year and up to the date of the Directors' Report are set out below.

Name	Particulars
<p>MICHAEL HUTCHINSON Non-Executive Chairman of IEL, IEBL and IERL Appointed to IEL, IEBL and IERL on 18 June 2009 Member of the Audit, Risk & Compliance Committee Chairman of the Nomination & Remuneration Committee</p>	<p>Mike was appointed an independent non-executive director of Infigen Energy in June 2009 and subsequently elected Chairman in November 2010. He is a member of the Audit, Risk & Compliance Committee and Chairman of the Nomination & Remuneration Committee.</p> <p>Mike was formerly an international transport engineering consultant and has extensive experience in the transport and communications sectors, including as a senior official with the Australian Government.</p> <p>Mike is currently an independent non-executive director of the Australian Infrastructure Fund Ltd. Mike has previously been an independent non-executive director of EPIC Energy Holdings Ltd, Hastings Funds Management Ltd, Westpac Funds Management Ltd, Pacific Hydro Ltd, OTC Ltd, HiTech Group Australia Ltd, the Australian Postal Corporation and the Australian Graduate School of Management Ltd.</p>
<p>DOUGLAS CLEMSON Non-Executive Director of IEL, IEBL and IERL Appointed to IEL and IERL on 9 September 2005 Appointed to IEBL on 14 September 2005 Chairman of the Audit, Risk & Compliance Committee Member of the Nomination & Remuneration Committee</p>	<p>Doug is the former Finance Director and CFO of Asea Brown Boveri (ABB) where he was responsible for the corporate and project finance needs of the ABB group in Australia and New Zealand. He was instrumental in the establishment of the activities of ABB Financial Services and its participation in the co-development, construction and operation of important power generation, transportation and infrastructure projects in this region.</p> <p>Prior to joining ABB, Doug held senior line management and finance executive positions with manufacturing groups, ACI and Smiths Industries. He is the recent chairman of Redbank Power and director of Powerco NZ. His previous directorships include General and Cologne Reinsurance, Electric Power Transmission Group, ABB Australia and New Zealand, and Smiths Industries.</p> <p>Doug is a qualified accountant and a Fellow of the Institute of Chartered Accountants in Australia and the Australian Institute of Company Directors.</p>

Name	Particulars
<p>PHILIP GREEN Non-Executive Director of IEL, IEBL and IERL Appointed to IEL, IEBL and IERL on 18 November 2010 Member of the Audit, Risk & Compliance Committee</p>	<p>Philip was appointed a non-executive director of Infigen Energy in November 2010. He is a member of the Audit, Risk & Compliance Committee.</p> <p>Philip is a Partner of The Children’s Investment Fund Management (UK) LLP (TCI), a substantial securityholder of Infigen Energy. Philip joined TCI in 2007 and his responsibilities include TCI’s global utility, renewable energy and infrastructure investments.</p> <p>Prior to joining TCI, Philip led European Utilities equity research at Goldman Sachs, Merrill Lynch and Lehman Brothers over a 12 year period. Philip is a UK Chartered Accountant (ACA) and has a Bachelor of Science (Hons) in Geotechnical Engineering.</p>
<p>FIONA HARRIS Non-Executive Director of IEL, IEBL and IERL Appointed to IEL, IEBL and IERL on 21 June 2011 Member of the Audit, Risk & Compliance Committee Member of the Nomination & Remuneration Committee</p>	<p>Fiona was appointed an independent non-executive director of Infigen Energy in June 2011. Fiona is a member of the Audit, Risk & Compliance Committee and since the end of the period has also been appointed a member of the Nomination & Remuneration Committee.</p> <p>Fiona is Chairman of Barrington Consulting Group and National Director of the Australian Institute of Company Directors. For the past sixteen years she has been a professional non-executive director.</p> <p>Fiona is currently a Director of Altona Mining Limited, Aurora Oil & Gas Limited and Sundance Resources Limited. Fiona has previously been a Director of listed companies Territory Resources Limited and Vulcan Resources Limited.</p> <p>Fiona holds a Bachelor of Commerce degree and is a Fellow of the Institute of Chartered Accountants in Australia and the Australian Institute of Company Directors.</p>
<p>MILES GEORGE Executive Director of IEL, IEBL and IERL Appointed to IEL, IEBL and IERL on 1 January 2009</p>	<p>Miles is the Managing Director of Infigen Energy, having previously been the Chief Executive Officer since 2007. Miles has over 20 years experience in the infrastructure and energy sectors, and in particular renewable energy development and investment.</p> <p>Since 2000 Miles has been involved in development and investment in wind energy projects in Australia, including a key role in the development of Infigen’s first wind farm at Lake Bonney in South Australia.</p> <p>Miles jointly led the team which established the business now known as Infigen Energy in 2003. Subsequently he jointly led the team which structured and implemented the Initial Public Offer and listing of Infigen’s business on the ASX in 2005.</p> <p>Following listing, Miles continued to work on the development and financing of Infigen’s wind farm investments in Australia, the US and Europe. He was subsequently appointed as Chief Executive in 2007 and Managing Director in 2009.</p> <p>Miles holds degrees of Bachelor of Engineering and Master of Business Administration (Distinction) from the University of Melbourne.</p>

DIRECTORS' REPORT

DIRECTORS' INTERESTS IN IFN STAPLED SECURITIES

One share in each of IEL and IEBL and one unit in IET have been stapled together to form a single stapled security, tradable on the Australian Securities Exchange under the 'IFN' code. IERL is the Responsible Entity of IET. The table below lists the current and former Directors of IEL, IEBL and IERL during the financial year as well as showing the relevant interests of those Directors in IFN stapled securities during the financial year.

Current Directors	Role	IFN Stapled Securities Held ¹			Balance 30 June 2011
		Balance 1 July 2010	Acquired during the year	Sold during the year	
M Hutchinson ²	Independent Chairman	0	0	0	0
D Clemson	Independent Non-Executive Director	140,000	0	0	140,000
P Green ³	Non-Executive Director	n/a	0	0	0
F Harris ⁴	Independent Non-Executive Director	n/a	0	0	0
M George	Executive Director	500,000	0	0	500,000
Former Directors	Role				
G Kelly ⁵	Independent Chairman	10,000	0	0	n/a
A Battle ⁶	Independent Non-Executive Director	42,634	0	0	n/a

¹ If the person was not a Director for the whole period, movements in securities held relates to the period whilst the person was a Director.

² M Hutchinson appointed as a Non-Executive Director of IEL, IEBL and IERL on 18 June 2009 and subsequently elected as Chairman of each entity on 12 November 2010.

³ P Green appointed as a Non-Executive Director of IEL, IEBL and IERL on 18 November 2010. Mr Green is a Partner of The Children's Investment Fund Management (UK) LLP which has a substantial shareholding of IFN securities. Mr Green has advised Infigen that he does not have a relevant interest in those IFN securities.

⁴ F Harris appointed as a Director of IEL, IEBL and IERL on 21 June 2011.

⁵ G Kelly resigned as Chairman and a Director of IEL, IEBL and IERL on 12 November 2010.

⁶ A Battle retired as a Director of IEL, IEBL and IERL on 18 November 2010.

DIRECTORS' MEETINGS

The number of Infigen Board meetings and meetings of standing Committees established by the Infigen Boards held during the year ended 30 June 2011, and the number of meetings attended by each Director, are set out below.

Current Directors	Board Meetings						Committee Meetings			
	IEL		IEBL		IERL		Audit, Risk & Compliance		IEL Nomination & Remuneration	
	A	B	A	B	A	B	A	B	A	B
M Hutchinson	17	17	17	17	17	17	9	9	9	9
D Clemson	17	17	17	17	17	17	9	9	9	9
P Green	12	12	12	12	11	12	2	2	n/a	n/a
F Harris	1	1	1	1	1	1	1	1	n/a	n/a
M George	17	17	17	17	17	17	n/a	n/a	n/a	n/a
Former Directors										
G Kelly	2	4	2	4	2	4	n/a	n/a	2	3
A Battle	3	5	3	5	3	5	4	4	3	3

A = Number of meetings attended.

B = Number of meetings held during the time the Director held office or was a member of the committee during the year.

Additional meetings of committees of Directors were held during the year, but these are not included in the above table, for example where the Boards delegated authority to a committee of Directors to approve specific matters or documentation on behalf of the Boards.

COMPANY SECRETARIES

The names and particulars of the Company Secretaries of Infigen at or since the end of the financial year are set out below.

Name	Particulars
DAVID RICHARDSON Company Secretary of IEL, IEBL and IERL Appointed 26 October 2005	<p>David is the Company Secretary of Infigen Energy and is responsible for the company secretarial, risk management, insurances, corporate compliance and internal audit functions, as well as corporate governance across the group.</p> <p>David joined Infigen Energy as Company Secretary in 2005. David was previously a Company Secretary within the AMP Group, including AMP Capital Investors, Financial Services and Insurance divisions, as well as prior financial services sector and regulator positions.</p> <p>David holds a Diploma of Law, Bachelor of Economics and a Graduate Diploma in Company Secretarial Practice. David is a Member of Chartered Secretaries Australia.</p>
CATHERINE GUNNING Alternate Company Secretary of IEL, IEBL and IERL Appointed 18 June 2009	<p>Catherine is the General Counsel of Infigen Energy. Prior to joining Infigen in December 2005, Catherine was a Senior Associate in the Corporate & Commercial Department at Allens Arthur Robinson.</p> <p>Catherine also worked in London for private equity house NatWest Equity Partners (now Bridgepoint Capital Limited).</p> <p>Catherine has a Bachelor of Economics and a Bachelor of Laws, a Graduate Diploma in Applied Finance and Investment and is admitted as a legal practitioner of the Supreme Court of New South Wales.</p> <p>Catherine is currently on maternity leave.</p>

PRINCIPAL ACTIVITIES

Infigen Energy is a specialist renewable energy business with interests in a pipeline of Australian renewable energy developments and 24 operating wind farms across Australia and the United States. With a total installed capacity in excess of 1,600 MW (on an equity interest basis), the business currently generates over 4,200 GWh of renewable energy per year.

Infigen has six wind farms in Australia with a total capacity of 550 MW and plans to expand its renewable energy business through the delivery of projects from its Australian development pipeline. As a fully integrated renewable energy business in Australia, Infigen develops, builds, owns and operates energy generation assets and directly manages the sale of the electricity that is produced to a range of customers in the wholesale market.

Infigen's US business comprises 18 wind farms with a total installed capacity of 1089 MW (on an equity interest basis) and includes an asset management business.

DISTRIBUTIONS

In respect of the half year period ended 31 December 2010, the Infigen Board declared an FY11 interim distribution of 1 cent per stapled security that was paid on 17 March 2011.

On 14 June 2011, Infigen advised that no FY11 final distribution would be paid and that distributions would be suspended for FY12 and FY13. This initiative will maximise the capital available to Infigen to fund future opportunities.

Further details regarding distributions paid by Infigen are set out in Note 24 to the Financial Statements.

REVIEW OF OPERATIONS

During the year ended 30 June 2011, based on Infigen's economic interest, Infigen recorded revenues from continuing operations of \$285.3 million compared to \$282.6 million in FY10, representing an increase of approximately 1%.

Infigen recorded a net loss for FY11 of \$61.0 million compared to a net loss for FY10 of \$74.4 million.

A further review of the operations of Infigen and the results of those operations for the year ended 30 June 2011 is included in the attached Financial Statements and accompanying Notes.

CHANGES IN STATE OF AFFAIRS

In the first quarter of FY11, construction commenced on Infigen's sixth wind farm in Australia, the 48 MW Woodlawn Wind Farm in New South Wales comprising 23 turbines. By 30 June 2011, all turbines had been erected and were undergoing the commissioning process. Practical Completion for the wind farm is planned for the second quarter of FY12.

On 21 March 2011, Infigen completed a transaction with its joint venture development partner, National Power Partners (NPP), in relation to the ownership of certain wind farm development projects in its Australian wind energy development pipeline. Under the terms of the transaction, Infigen acquired the remaining 50% interest in four development projects from NPP that it did not already own (Flyers Creek, Bodangora, Cherry Tree, Woakwine) and sold its 50% interest in the Glen Innes development project and approximately 100 MW of other development projects to NPP which were previously being jointly developed.

DIRECTORS' REPORT

In June 2011, all conditions precedent under a \$55 million project financing facility for the Woodlawn Wind Farm were satisfied and draw down under the facility commenced.

On 29 June 2011, Infigen disposed of its portfolio of 12 wind farms in Germany for a total enterprise value of €154.6 million.

Other changes in the state of affairs of the consolidated entity are referred to in the Financial Statements and accompanying Notes.

SUBSEQUENT EVENTS

On 6 July 2011, \$154,264,000 of Global Facility debt was repaid in relation to the disposal of Infigen's German assets.

FUTURE DEVELOPMENTS

Disclosure of information regarding likely developments in the operations of the consolidated entity in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the consolidated entity. Accordingly, this information has not been disclosed in this report.

ENVIRONMENTAL REGULATIONS

To the best of Directors' knowledge, Infigen has complied with all significant environmental regulations applicable to its operations.

INDEMNIFICATION AND INSURANCE OF OFFICERS

Infigen has agreed to indemnify all Directors and Officers against losses incurred in their role as Director, Alternate Director, Secretary, Executive or other employee of Infigen or its subsidiaries, subject to certain exclusions, including to the extent that such indemnity is prohibited by the *Corporations Act 2001* or any other applicable law. The agreement stipulates that Infigen will meet the full amount of any such liabilities costs and expenses (including legal fees). Infigen has not been advised of any claims under any of the above indemnities.

During the financial year Infigen paid insurance premiums for a Directors' and Officers' liability insurance contract which provides cover for the current and former Directors, Alternate Directors, Secretaries and Executive Officers of Infigen and its subsidiaries. The Directors have not included details of the nature of the liabilities covered in this contract or the amount of the premium paid, as disclosure is prohibited under the terms of the contract.

PROCEEDINGS ON BEHALF OF INFIGEN

No person has applied for leave of the Court to bring proceedings on behalf of Infigen, or to intervene in any proceedings to which Infigen is a party, for the purpose of taking responsibility on behalf of Infigen for all or part of those proceedings. Infigen was not a party to any such proceedings during the year.

FORMER PARTNERS OF THE AUDIT FIRM

No current Directors or Officers of Infigen have been Partners of PricewaterhouseCoopers at a time when that firm has been the auditor of Infigen.

NON-AUDIT SERVICES

The Directors are satisfied that the provision of non-audit services, during the year, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 9 to the Financial Statements.

AUDITOR'S INDEPENDENCE DECLARATION

Infigen's auditor has provided a written declaration under section 307C of the *Corporations Act 2001* that to the best of its knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- the applicable Australian code of professional conduct in relation to the audit.

The auditor's independence declaration is attached to this Directors' Report.

ROUNDING

IEL is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order, amounts in the Directors' Report and the Financial Report are rounded to the nearest thousand dollars, unless otherwise indicated.

REMUNERATION REPORT

Dear Securityholder,

We are pleased to present the 2011 Remuneration Report.

Since the internalisation of Infigen and its transition to a standalone operating business, your directors have continued to develop the alignment of executive and senior management pay with securityholder interests.

It continues to be appropriate to reward key executives and senior management with market-competitive packages of fixed remuneration plus at-risk components that reflect both short term achievements and long-term Group performance.

The alignment of executive and senior management remuneration with securityholder interests meant that there was again no vesting or payout during the year for any Long Term Incentives (LTI) granted under the Performance Rights and Options (PR&O) plan. Senior executive base salaries were not increased in FY11. Non-Executive Directors' fees have been held constant. Senior management numbers were reduced.

Further progress has been made towards embedding a performance-based culture. Six-monthly performance reviews link incentives to key financial, strategic and operational performance indicators.

Although the current security price does not adequately reflect the intrinsic value of the business, we believe that providing a material part of executive and senior management remuneration with the potential to acquire Infigen securities is appropriate. Securityholder and executive interests are better aligned. But we are also mindful of dilution. Fewer equity-related grants were made in FY11 than in prior years.

Equity-related grants made to executives and senior managers must be reported as part of executives' remuneration, and expensed. This is despite receipt being wholly at risk, deferred for 3-4 years and vesting remaining dependent on the performance of the Group. This statutory reporting means that an executive's reported remuneration will often significantly exceed what was actually received. This year we have provided supplementary commentary and tables to provide a clearer explanation of executives' "take-home pay" in addition to the statutory disclosures.

Your directors are currently further reviewing the remuneration structure, drawing advice from a recently appointed independent adviser. We are mindful of market trends in executive remuneration whilst also ensuring that remuneration structures serve the business as an effective incentive, reward and retention tool in an increasingly competitive employment market in the renewable energy sector.

Looking ahead, we have decided to change the variable pay components for FY12. There will be some rebalancing of long and short term incentive elements. Half of executive and senior managements' FY12 Short Term Incentive (STI) payments will be expressed in securities and deferred for 12 months (subject to necessary securityholder approval at the 2011 AGM). We will then settle deferred STI in securities under the terms of the PR&O plan. This deferral and settlement in securities will provide further alignment between executive remuneration and securityholder interests.

We have also decided to cap any future executive and senior management separation benefits to a limit of 12 months' base remuneration. We will, however, need to seek securityholder approval for potential rights in excess of this limit that have already accrued as a result of prior grants and contract arrangements.

We hope you find this year's Report to be useful. As always, we welcome feedback on ways to clarify and improve the information provided.

Yours faithfully

Michael Hutchinson

Chairman
Nomination & Remuneration Committee

DIRECTORS' REPORT

Remuneration Report – Executive Summary

The Nomination & Remuneration Committee has:

- monitored the implementation of a Human Resources Plan and alignment of the organisation structure;
- reviewed senior management achievement against FY10 Key Performance Indicators (KPIs);
- supervised the setting of FY11 KPIs for Key Management Personnel (KMP) and other senior management;
- monitored internal and external remuneration relativities;
- monitored the performance management program;
- approved short and long-term incentive opportunities for senior management;
- reviewed Board/Committee and Managing Director performance;
- evaluated workplace diversity and implemented a workplace Diversity Policy;
- retained Guerdon Associates as its adviser; and
- assessed legislative and other proposed regulatory changes to determine the effect on potential termination and retirement benefits payable to employees.

Significant matters to note for director, executive and senior management FY11 remuneration are:

- remuneration of KMP was not increased during the year;
- no increase in fees was paid to non executive directors;
- no LTI vested;
- deferred payments were put in place to retain selected senior management and KMP;
- FY11 LTI grants were awarded to fewer people than for FY09 and FY10; and
- senior management numbers were reduced.

Remuneration Framework

Infigen's remuneration framework aims to ensure remuneration:

- is commensurate with an individual's contribution, position and responsibilities;
- is fair and reasonable given market standards;
- is linked with Infigen's strategic goals and business performance;
- rewards those employees who deliver consistently high performance;
- attracts and retains high performing individuals; and
- is aligned with the interests of securityholders.

A. REMUNERATION OF NON-EXECUTIVE DIRECTORS

Non-Executive Director fees are determined by the Infigen Boards within the aggregate amount approved by securityholders. The approved aggregate fee pool for IEL and IEBL is \$1,000,000.

The fee paid to Directors varies with individual Board and committee responsibilities. Non-Executive Director fees are reviewed periodically. Fees were not adjusted during the year.

Non-Executive Directors receive a cash fee for service which is inclusive of statutory superannuation. Non-Executive Directors do not receive any performance-based remuneration or retirement benefits.

Board/Committee Fees

Aggregate annual fees payable to Non-Executive Directors during the year ended 30 June 2011 are set out below.

Board/Committee	Role	Fee (pa)
Infigen Boards	Chairman	\$210,000
	Non-Executive Director	\$125,000
Infigen Audit, Risk & Compliance Committees	Chairman	\$18,000
	Member	\$9,000
IEL Nomination & Remuneration Committee	Chairman	\$12,000
	Member	\$6,000

Remuneration of Non-Executive Directors for the years ended 30 June 2010 and 2011

The nature and amount of each element of fee payments to each Non-Executive Director of Infigen for the years ended 30 June 2010 and 2011 are set out in the table below.

Non-Executive Directors	Year	Short-term benefits Fees (\$)	Post-employment benefits Superannuation (\$)	Total (\$)
M Hutchinson	2011	179,969	13,865	193,834
	2010	128,440	11,560	140,000
D Clemson	2011	136,697	12,303	149,000
	2010	136,697	12,303	149,000
P Green ¹	2011	-	-	-
	2010	-	-	-
F Harris ²	2011	3,783	340	4,123
	2010	-	-	-
G Kelly ³	2011	73,574	5,903	79,477
	2010	201,539	14,461	216,000
A Battle ⁴	2011	51,630	4,667	56,297
	2010	133,945	12,055	146,000
Total Remuneration	2011	445,653	37,078	482,731
	2010	600,621	50,379	651,000

¹ P Green was appointed a Non-Executive Director of Infigen Energy on 18 November 2010. Mr Green is a partner of The Children's Investment Fund Management LLP which is a substantial shareholder of Infigen Energy. Throughout FY11 Mr Green elected to receive no Director fees.

² F Harris was appointed a Non-Executive Director of Infigen Energy on 21 June 2011.

³ G Kelly resigned as a Director on 12 November 2010.

⁴ A Battle retired as a Director on 18 November 2010.

DIRECTORS' REPORT

B. REMUNERATION OF SENIOR MANAGEMENT

The remuneration framework for the management team (including KMP) comprises three components:

- fixed pay;
- a Short Term Incentive, which is payment linked to achieving specified performance measured over a 12 month period; and
- a Long Term Incentive, which is payment linked to meeting specified performance hurdles over a 3 or 4 year period.

Fixed Pay

Fixed pay is cash salary and benefits, including superannuation, and, for some senior managers, a temporary and deferred payment of cash. Infigen does not presently offer remuneration packaging other than superannuation salary sacrifice.

The temporary deferred pay was introduced in FY11 to either attract or retain specific personnel during a period of instability. It applies to some Australian based KMP and senior managers. It does not apply to the Chief Executive Officer (CEO) or Chief Operating Officer (COO). The deferred cash payment vests in February 2012, with a further payment to one senior manager vesting in February 2013.

Fixed pay is benchmarked against industry peers. Market levels of remuneration are monitored on an annual basis, but there is no requirement or expectation that any adjustments will be made to fixed pay.

The only adjustments to fixed pay in FY11 were to recognise changed responsibilities and accountabilities for some senior managers.

STI and LTI opportunities were expressed as a percentage of fixed remuneration. (The Board has decided that in future the three components will be specified separately. That is, incentive payments will no longer be tied to the level of fixed pay. This will provide for increased flexibility in aligning future remuneration amendments with Group performance and challenges).

Short Term Incentives (STIs)

The STI is an at-risk performance related component of remuneration. STIs are subject to performance and to the achievement of key performance indicators (KPIs). KPIs are set annually and reviewed during the year. KPI objectives are set in alignment with overall strategy, budget, and individual accountabilities.

KPIs for the Managing Director are determined by the Board.

The Board determines the aggregate amount of STI payments, the amount of the Managing Director's STI payment, and reviews proposed payments for key senior managers.

Financial goals determine 30% of the maximum KPI assessment and typically relate to keeping within tight cost budgets. Strategic goals determine 20-30% of the KPI assessment. Operational goals determine 40-50% of the assessment.

An employee must meet a minimum performance standard before any STI is paid.

Much of the short term business performance of the Group depends heavily upon variable external conditions. These include wind conditions and commodity market prices for electricity and renewable energy certificates. Therefore some KPIs are linked to short-term organisational, process and systems improvements in order to reward success in creating the pre-conditions for long term value creation. They include, for example, measures to reduce revenue volatility, to enhance the value of the development pipeline and to optimise cash and debt management. These KPIs sit alongside others that measure safety, cost containment, budget achievement, project delivery, and risk management.

Incentive payments have been paid annually in cash. From FY12 and beyond the Board has decided that a portion of STI payments will be deferred for 12 months. The deferral will apply where individual amounts exceed a threshold (initially \$50,000) and will be 50% of the STI amount. The deferred STI will be paid in IFN securities. Payment of the deferred STI will be subject to continued employment and performance. The deferred payment will be forfeited if there is a materially adverse financial restatement.

The maximum STI opportunity for KMP, expressed as a percentage of base salary, is set out below.

KMP	Maximum STI
Chief Executive Officer (CEO)	64%
Chief Operating Officer (COO)	57%
Chief Financial Officer (CFO)	30%
General Manager Corporate Finance	30%

Long Term Incentives (LTIs)

KMP and senior managers in positions that directly affect the long term value of Infigen securities are eligible for LTIs. LTIs are awarded as future rights to acquire IFN securities. The rights vest after 3 or 4 years, subject to performance hurdles.

The Managing Director's grant is subject to securityholder approval on award.

The LTI rights granted to KMP in FY11 were based on the following proportions of base salary:

KMP	LTI
Chief Executive Officer (CEO)	105%
Chief Operating Officer (COO)	77%
Chief Financial Officer (CFO)	77%
General Manager Corporate Finance	30%

The number of rights granted is based on the LTI value, divided by a reference price for IFN securities. This is typically the volume weighted average ASX market closing price in the last five trading days of the prior financial year.

As in prior years, LTI grants comprise two equal tranches, each subject to a different performance test. Vesting of each tranche is contingent on achieving the relevant performance hurdle.

The two performance hurdles are Relative Total Shareholder Return (TSR) and a financial performance test. The financial performance test is a test of growth in the ratio of earnings before interest, taxes, depreciation and amortisation (EBITDA) to capital base.

	Performance Rights
Tranche 1	Relative TSR
Tranche 2	EBITDA/Capital

Both hurdles are measured over a 3 year period. The performance period of the FY11 grant is 1 July 2010 to 30 June 2013. Any rights that do not vest after 3 years may vest after 4 years, subject to a further re-test, after which unvested rights will lapse.

TSR performance condition: TSR measures the growth in the price of securities plus cash distributions notionally reinvested in securities. In order for the Tranche 1 performance rights to vest, the TSR of IFN must outperform that of the median company in the S&P/ASX 200 (excluding financial services and the materials/resources sector).

Tranche 1 performance rights will vest progressively as follows:

Infigen's TSR performance compared to the relevant peer group	Percentage of Tranche 1 performance rights and Tranche 1 options to vest
0 to 49th percentile	Nil
50th to 74th percentile	50% – 98% (ie. for every percentile increase between 50% and 74% an additional 2% of the TSR grant will vest)
75th to 100th percentile	100%

EBITDA/Capital Base performance condition: the annual target will be a specified percentage increase in the ratio over the year. The Capital Base will be measured as equity (net assets) plus net debt. Both the EBITDA and Capital Base will be measured on a proportionately consolidated basis to reflect IFN's economic interest in all investments.

The annual target for FY11 has been set to reflect the performance expectations of Infigen's business and prevailing market conditions. The annual target for each subsequent financial year will be established by the Board no later than the time of the release of Infigen's annual financial results for the preceding financial year.

The prospective targets remain confidential to Infigen. However each year's target, and the performance against that target, will be disclosed retrospectively.

The EBITDA/Capital Base performance condition rewards the management in sustaining and delivering capital efficiency performance over an extended period.

DIRECTORS' REPORT

Relevant metrics for the previous five financial year periods are provided in the table below.

	30 June 2007	30 June 2008	30 June 2009	30 June 2010	30 June 2011
Closing security price	\$1.95	\$1.645	\$1.15	\$0.715	\$0.35
Revenue ¹ (m)	\$171.9	\$254.3	\$303.8	\$263.8	\$267.6
EBITDA from operations ¹ (m)	\$126.5	\$193.0	\$215.2	\$171.9	\$167.1
EBITDA to capital base ² (actual)	n/a	n/a	0.31%	9.24%	(2.28%)
EBITDA to capital base ² (target)	n/a	n/a	6.59%	19.22%	11.29%

¹ Revenue and EBITDA from operations figures exclude the results of discontinued operations in the year of disposal and the year prior to disposal. The Portuguese and Spanish asset portfolios were sold by Infigen Energy on 21 November 2008 and 9 January 2009, respectively. These asset sales achieved a collective net gain on sale of \$267.7 million and a significant deleveraging of the business. On 6 April 2010, the French asset portfolio was sold for a net loss on sale, including interest rate swap settlements, foreign exchange losses realised and advisory costs, of \$12.9 million. On 29 June 2011, the German asset portfolio was sold for a net loss on sale of \$31.1 million resulting in a further deleveraging of the business.

² EBITDA to capital base measure used within the PR&O Plan established in FY09.

The Board has decided that from FY12 it will amend the Tranche 2 vesting hurdle to provide for progressive vesting of rights over a performance range.

PR&O Plan rules: Performance rights and options are governed by the rules of the PR&O Plan that was approved by securityholders in 2009. They provide that the Board may exercise discretion to accelerate the vesting of any performance rights or options awarded in the FY11 grant in the event of a change in control of Infigen. The Board has decided that any exercise of this discretion will have regard to performance and the nature of the relevant transaction.

Plan participants are prohibited from hedging their exposure to Infigen's security price associated with the plan.

If sufficient total rights were to be granted for their potential vesting to become material relative to the 15% annual limit on the Board's authority to place securities without securityholder approval, the Board would seek specific securityholder approval.

Separation benefits

The Board has decided to limit any future separation benefits to a maximum of 12 months fixed remuneration. The terms of some prior year LTI grants could lead to a contractual commitment to higher payments through accelerated vesting on retirement or redundancy. Infigen will seek limited securityholder approval to address these cases.

Infigen Energy – Executive remuneration details

In accordance with the Corporations Act 2001, the following persons were key management personnel and/or the five highest paid relevant group executives and/or company executives (Executives) of the Infigen Energy group during the financial year:

M George	Chief Executive Officer
G Dutailis	Chief Operating Officer
C Baveystock	Chief Financial Officer
B Hopwood	General Manager Corporate Finance
D Griffin	General Manager Development
D Richardson	Company Secretary
G Dover	Chief Financial Officer (resignation effective 31 December 2010)
A George	General Manager, Energy Markets Australia (employment ceased on 13 May 2011)

TABLE 1: Actual remuneration received by Executives

The following table summarises the actual remuneration Executives received in FY11. Because no LTI grants vested in FY11 the only remuneration actually received was in the form of cash payments, including salary, superannuation, STI and termination benefits. This information shows more clearly the actual remuneration received. This is considerably less than the payments shown in the statutory tables.

Executive	Year	Salary (\$)	STI paid in current period (\$)	Retention (\$)	Super-annuation (\$)	Equity vested during the year (\$)	Total actual remuneration received (\$)
M George	FY11	550,000	224,180	–	15,199	–	789,379
	FY10	550,000	–	220,000	14,461	–	784,461
G Dutailis	FY11	370,000	148,185	–	15,199	–	533,384
	FY10	370,000	–	160,000	14,461	–	544,461
D Richardson	FY11	255,000	58,725	–	15,199	–	328,924
	FY10	250,000	–	52,500	14,461	–	316,961

New to FY11 Report

B Hopwood	FY11	288,800	82,649	–	15,199	–	386,648
D Griffin	FY11	306,000	81,091	–	15,199	–	402,290
C Baveystock	FY11	186,154	–	–	13,733	–	199,887

TABLE 2: Statutory Remuneration Data of Executives for the years ended 30 June 2011 and 2010

The Statutory Remuneration Data table below shows accounting expensed amounts that reflect a portion of possible future remuneration arising from prior and current year LTI grants.

Executive	Year	Short-term employee benefits				Termination Payments	Total of		Super-annuation	Post employment benefits	Other long-term employee benefits	Share-based payments ^{2,3}	Cash Settled	Total

	FY10	1,713,654	0	592,500	0	0	2,306,154	65,075	28,595	1,442,938	0	3,842,763		

¹ Retention payments were the final retention payments made in accordance with the separation agreement with B&B.

² Share based payments includes Performance Rights and Options for FY09 Grant and Performance Rights only for FY10 and FY11 Grants.

³ When an employee ceases to participate in the PR&O Plan due to the termination of employment, a negative value for share based payments appears in FY11 due to the expense that was previously recognised in relation to these performance rights or options being reversed.

⁴ B Hopwood became a KMP on 1 February 2011.

⁵ D Griffin is a relevant group executive from 1 July 2010.

⁶ C Baveystock became a KMP on 14 March 2011.

⁷ A George was retrenched on 13 May 2011 following a restructure of the Australian Business Unit.

⁸ G Dover resigned effective 31 December 2010.

DIRECTORS' REPORT

TABLE 3: Remuneration Components as a Proportion of Total Remuneration

The proportions of fixed remuneration to performance-based remuneration for FY11 are set out below.

Executive	Fixed remuneration ¹	Performance-based remuneration		Termination Payments	Total
		Cash STI	Share-based payments ²		
M George	37%	14%	49%		100%
G Dutailis	42%	16%	42%		100%
B Hopwood	61%	16%	23%		100%
D Griffin	68%	17%	15%		100%
A George	69%	9%	-6%	28%	100%
D Richardson	64%	14%	22%		100%
C Baveystock	100%	0%	0%		100%
G Dover ³	98%	150%	-250%	102%	100%

¹ Fixed remuneration consists of salary, non-monetary benefits, superannuation and long service leave.

² Share-based payments refer to the value of performance rights and options relating to IFN securities.

³ The termination payment shown in this table represent the percentage of all payments made to G Dover in FY11 and is not a percentage of annual salary. G Dover's termination payment inclusive of statutory benefits was equal to 55% of his annual base salary at the date of termination.

TABLE 4: Value of Remuneration that Vests in Future Years

Remuneration amounts provided in the table below refer to the maximum value of performance rights and options relating to IFN securities. These amounts have been determined at grant date by using an appropriate pricing model and amortised in accordance with AASB 2 'Share Based Payments'. The minimum value of remuneration that may vest is nil.

This year we have provided additional information to illustrate the difference in value of these LTI grants when comparing the accounting value and the current market value. The accounting value relies upon the value of the security at the time the grant was made. The accounting standards are used for the purpose of providing for the LTI liability within the financial statements.

The current market value demonstrates the deterioration in the grant value aligned to the decreased security price and is further illustration of how Executive remuneration is aligned to the securityholder experience. It should also be observed that no securities will vest if the performance hurdles are not met. In the event that the performance hurdle is not achieved the right to these securities will lapse.

Executive	Grant	Maximum value of remuneration which is subject to vesting in accordance with AASB 2 'Share Based Payments'				Current market value of remuneration which is subject to vesting (VWAP 5 trading days prior to 30 June 2011)			
		FY10 (\$)	FY11 (\$)	FY12 (\$)	FY13 (\$)	FY10 (\$)	FY11 (\$)	FY12 (\$)	FY13 (\$)

	Total	95,819	95,819	20,551	0	30,304	30,304	6,938	0

Legacy Performance Rights

Performance rights granted in prior years (FY09 and FY10) were granted in the same 2-tranche structure with the same performance hurdles as those granted in FY11.

No performance rights in relation to IFN securities vested or became exercisable in FY11. All performance rights held as at 30 June 2011 are unvested and are not exercisable.

Any performance rights which do not vest following the measurement of performance against the relevant conditions will be subject to a single retest 4 years after the commencement of the relevant performance period. This will be 31 December 2012 for Tranche 1 and 30 June 2012 for Tranche 2 for the FY09 grant; 30 June 2013 for the FY10 grant (both tranches) and 30 June 2014 for the FY11 grants (both tranches). Any performance rights which do not vest after each single retest period will then lapse.

Infigen no longer employs six employees who participated in the FY09 Grant and one employee who participated in the FY10 Grant. Their performance rights under the FY09 and FY10 Grants have lapsed.

DIRECTORS' REPORT

TABLE 5: Outstanding Performance Rights

The table below provides details of outstanding performance rights relating to IFN securities that have been granted to Executives (FY09, FY10 and FY11 Grants). The performance rights are valued as at the deemed grant date.

Executive	Granted number	Grant date	Value per performance right (\$)	Total value of performance rights granted (\$)	Estimated vesting date	
					Tranche 1	Tranche 2
M George	1,112,925	27/03/2009	0.6255	696,135	31/12/2011	30/06/2012
	807,128	30/09/2010	0.5675	458,045	30/06/2013	30/06/2013

D Griffin	121,986	30/09/2010	0.5675	69,227	30/06/2012	30/06/2012
	256,604	30/09/2010	0.5675	145,623	30/06/2013	30/06/2013

Legacy Options

Options over IFN securities awarded to participants in the Performance Rights & Options Plan for the FY09 Grant. These were granted under the same 2-tranche/performance hurdle structure applying to the FY11 LTI grants.

No options relating to IFN securities vested or were exercised during the year. All options held at 30 June 2011 are unvested and are not exercisable.

Six employees who participated in the FY09 Grant are no longer employed by Infigen. Their options under the FY09 Grant have lapsed.

TABLE 6: Outstanding Options

The table below provides details of outstanding options relating to IFN securities which have been granted to executives. The options are valued as at the deemed grant date.

Executive	Granted number	Grant date	Value per option (\$)	Total value of options granted (\$)	Exercise price per option (\$)	Estimated vesting date		Expiry date of vested options
						Tranche 1	Tranche 2 ¹	
M George	5,053,908	27/03/2009	0.209	1,056,267	0.897	31/12/2011	30/06/2012	31/12/2013
G Dutailis	2,628,032	27/03/2009	0.209	549,259	0.897	31/12/2011	30/06/2012	31/12/2013

D Richardson	748,989	28/03/2009	0.209	156,539	0.897	31/12/2011	30/06/2012	31/12/2013

¹ Three year performance measurement period ended 30 June 2011. These Options are now in the 12 month retest period.

EXECUTIVE EMPLOYMENT CONTRACTS

The base salaries for Executives as at 30 June 2011, in accordance with their employment contract, are as follows:

M George	\$550,000
G Dutailis	\$370,000
C Baveystock	\$300,000
B Hopwood	\$300,000
D Griffin	\$306,000
D Richardson	\$255,000

Employment contracts relating to the Executives contain the following conditions:

Duration of contract	— Open-ended
Notice period to terminate the contract	— For M George and G Dutailis, their employment is able to be terminated by either party on 6 months' written notice. For B Hopwood, C Baveystock, D Griffin and D Richardson, their employment is able to be terminated by either party on 3 months' written notice. Infigen may elect to pay an amount in lieu of completing the notice period, calculated on the base salary as at the termination date.
Termination payments provided under the contract	— Upon termination, any accrued but untaken leave entitlements, in accordance with applicable legislation, are payable. If made redundant, a severance payment equivalent to 4 weeks base salary for each year of service (or part thereof), up to a maximum of 36 weeks.

This report is made in accordance with a resolution of the Directors pursuant to section 298(2) of the *Corporations Act 2001*.

AUDITOR'S INDEPENDENCE DECLARATION

Auditor's Independence Declaration

As lead auditor for the audit of Infigen Energy Limited for the year ended 30 June 2011, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Infigen Energy Limited and the entities it controlled during the year.

The above consolidated cash flow statements should be read in conjunction with the accompanying Notes to the Financial Statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the consolidated financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Stapled security

The shares of Infigen Energy Limited ('IEL') and Infigen Energy (Bermuda) Limited ('IEBL') and the units of Infigen Energy Trust, ('IET') are combined and issued as stapled securities in Infigen Energy Group ('Infigen' or the 'Group'). The shares of IEL and IEBL and the units of IET cannot be traded separately and can only be traded as stapled securities.

This financial report consists of the consolidated financial statements of IEL, which comprises IEL and its controlled entities, IET and its controlled entities and IEBL, together acting as Infigen.

Summarised financial information relating to the parent entity, Infigen Energy Limited, is presented in note 36.

(a) Basis of preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the *Corporations Act 2001*.

Compliance with IFRS

Australian Accounting Standards include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the consolidated and parent entity financial report of IEL complies with International Financial Reporting Standards (IFRS).

Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivative instruments) at fair value through profit or loss.

Restatement of comparative information

To align current and prior period presentation, some prior period balances have been reclassified to conform with current year presentation.

Discontinued Operations

The Group disposed of its assets in Germany in June 2011. In the prior year, the Group disposed of its assets in France in April 2010. As a consequence of these disposals, for the years ended 30 June 2011 and 2010, the Group's previously held interests in Germany and France are classified as discontinued operations respectively.

Furthermore, under AASB 5, Non-current Assets Held for Sale and Discontinued Operations, the comparative information has been restated in respect of the results of the operations relating to assets in Germany.

Voluntary change in accounting policy – Revenue Recognition

Renewable Energy Certificates ('RECs') are generated and held for sale in the ordinary course of business. RECs cost a nominal amount to register plus a share of production costs. RECs constitute a government grant as defined in AASB 120(3) as they are assistance from the Government in the form of transfers of resources. The Australian Accounting Standards provide a choice to recognise the grant either at cost (generally the nominal amount noted above) or at fair value. If the grant is recognised at fair value, the credit should be recognised immediately in the statement of comprehensive income.

Historically, the Group recognised RECs that had been generated at cost. Under this method the Group grossed up the balance sheet to recognise inventories at cost with an equal and opposite provision in deferred revenue until the time of sale. However, as a result of increasing REC generation, this policy would result in material period-on-period variations to revenue arising from movements in inventory levels rather than actual production and price movements.

Consequently, the Directors have elected to change the Group's accounting policy to recognise RECs at fair value with immediate recognition in the statement of comprehensive income in accordance with AASB120. By recognising the grants at fair value, income is recognised in the same period as the costs incurred, for which the grants are intended to compensate. The revised policy results in more relevant information of the economic outcome in relation to the generation of RECs in the period. As the change in accounting policy is voluntary, the effect of the change has been applied retrospectively.

Under the revised policy, RECs continue to be held on the balance sheet as inventory. AASB102 requires inventory to be held at the lower of cost and net realisable value at the end of each reporting period. Hence, where the market value of RECs falls, inventory is reduced and an expense is recorded through the statement of comprehensive income. Where the circumstances that caused the inventory to be written-down have changed, the write-down will be reversed. Upon sale, the difference between the sale price and the book value of the inventory is recorded through the statement of comprehensive income as a component of revenue.

The table below summarises the effect of the change in accounting policy and the exclusion of the discontinued operations on the prior corresponding year comparatives.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

Effect of Restatements: Income statement for the year ended 30 June 2010

	30 June 2010 \$'000	Discontinued operations \$'000	Change in accounting policy \$'000	30 June 2010 (Restated) \$'000

(b) Consolidated accounts

UIG 1013: Consolidated Financial Reports in relation to Pre-Date-of-Transition Stapling Arrangements require one of the stapled entities of an existing stapled structure to be identified as the parent entity for the purpose of preparing consolidated financial reports. In accordance with this requirement, IEL has been identified as the parent of the consolidated group comprising IEL and its controlled entities, IET and its controlled entities and IEEL.

In accordance with UIG 1013, consolidated financial statements have been prepared by IEL as the identified parent of Infigen. The financial statements of Infigen should be read in conjunction with the separate financial statements of IET for the period ended 30 June 2011.

AASB Interpretation 1002 Post-Date-of-Transition Stapling Arrangements applies to stapling arrangements occurring during annual reporting periods ending on or after 31 December 2005 where the identified parent does not obtain an ownership interest in the entity whose securities have been stapled. As a consequence of the stapling arrangement involving no acquisition consideration and no ownership interest being acquired by the combining entities, no goodwill is recognised in relation to the stapling arrangement and the interests of the equity holders in the stapled securities are treated as non-controlling interests.

While stapled arrangements occurring before the application of AASB Interpretation 1002 are grandfathered and can continue to be accounted for in accordance with the principles established in UIG 1013, for disclosure purposes and the fact that Infigen has entered into stapling arrangements both pre and post transition to AIFRS, the interests of the equity holders in all stapled securities (regardless of whether the stapling occurred pre or post transition to AIFRS) have been treated as minority interests under the principles established in AASB Interpretation 1002.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(c) Principles of consolidation

(i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of IEL as at 30 June 2011 and the results of all subsidiaries for the year then ended. IEL and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all those entities (including certain institutional equity partnerships and other special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group.

The Group applies a policy of treating transactions with non-controlling interests as transactions with a shareholder. Purchases from non-controlling interests result in an acquisition reserve being the difference between any consideration paid and the relevant share acquired of the carrying value of identifiable net assets of the subsidiary.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement and balance sheets respectively.

(ii) Jointly controlled entities

Jointly controlled entities, consolidated under the proportionate consolidation method, are entities over whose activities the Group has joint control, under a contractual agreement, together with the other owners of the entity. They include certain institutional equity partnerships. The consolidated financial statements include the Group's proportionate share of the joint venture's assets and liabilities, revenues and expenses, from the date the joint control begins until it ceases.

(iii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting, after initially being recognised at cost. The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognised in the income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends receivable from associates are recognised in the parent entity's income statement, while in the consolidated financial statements they reduce the carrying amount of the investment.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

(d) Trade and other payables

Trade payables and other accounts payable are recognised when the Group becomes obliged to make future payments resulting from the purchase of goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(e) Business combinations

The purchase method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given, shares issued or liabilities incurred or assumed at the date of exchange plus costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the fair value of the instruments is their published market price as at the date of exchange unless, in rare circumstances, it can be demonstrated that the published price at the date of exchange is an unreliable indicator of fair value and that other evidence and valuation methods provide a more reliable measure of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill (refer Note 1(o)). If the cost of acquisition is less than the Group's share of the fair value of the identifiable net assets of the subsidiary acquired, the difference is recognised directly in the income statement, but only after a reassessment of the identification and measurement of the net assets acquired.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

(f) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or other expenses.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

(g) Borrowing costs

Borrowing costs directly attributable to the construction of qualifying assets are capitalised as part of the cost of those assets. Other borrowing costs are expensed.

(h) Assets under construction

Costs incurred in relation to assets under construction are deferred to future periods. Deferred costs are transferred to plant and equipment from the time the asset is held ready for use on a commercial basis. Revenue generated in advance of the asset being ready for use on a commercial basis is capitalised as a component of property, plant and equipment.

(i) Property, plant and equipment

Wind turbines and associated plant, including equipment under finance lease, are stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the item. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is recognised. All other repairs and maintenance are charged to the income statement during the reporting period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The Group's policy is to provide for the future costs relating to the decommissioning of wind turbines and associated plant if the amounts, net of residual values or scrap values, are expected to result in an outflow of economic benefits. The net costs of decommissioning wind turbines and associated plant are reviewed at the end of each annual reporting period.

Depreciation is provided on wind turbines and associated plant. Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives.

Wind turbines and associated plant	25 years
Fixtures and fittings	10-20 years
Computer equipment	3-5 years

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(j) Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risk, including forward foreign exchange contracts and interest rate swaps and cross currency swaps.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at each reporting date. The resulting gain or loss is recognised in the income statement immediately unless the derivative is designated and effective as a hedging instrument; in which event the timing of the recognition in the income statement depends on the nature of the hedge relationship.

The Group designates certain derivatives as either hedges of the cashflows of highly probable forecast transactions (cash flow hedges) or hedges of net investments in foreign operations (net investment hedges).

At the inception of the hedging transaction the Group documents the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

(i) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in equity in the hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the income statement within other income or other expenses.

Amounts accumulated in equity are recycled in the income statement in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in the income statement within 'finance costs'. The gain or loss relating to the effective portion of forward foreign exchange contracts hedging overseas businesses is recognised in the income statement. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset (for example, fixed assets) the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset. The deferred amounts are ultimately recognised in profit or loss as depreciation in the case of fixed assets.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss deferred in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was deferred in equity is recognised immediately in the income statement.

(ii) Net investment hedge

Hedges of net investments in foreign operations are accounted for similarly to cash flow hedges. Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in the foreign currency translation reserve; the gain or loss relating to the ineffective portion is recognised immediately in the income statement.

Gains and losses deferred in the foreign currency translation reserve are recognised immediately in the income statement when the foreign operation is partially disposed of or sold.

(iii) Derivatives that do not qualify for hedge accounting

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting are recognised immediately in the income statement.

(k) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the balance sheet.

Cash flows are presented on a gross basis. The GST component of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

(l) Segment reporting

Operating segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of IEL.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(m) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is the Group's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when they are deferred in equity as qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- income and expenses for each income statement are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are taken to shareholders' equity. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences is recognised in the income statement, as part of the gain or loss on sale where applicable.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entities and translated at the closing rate.

(n) Income tax

Current tax

Current tax expense is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by the reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax expense is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to realise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the company/ Group intends to settle its current tax assets and liabilities on a net basis.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(n) Income tax continued

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the income statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

Under current Bermudian law, IEBL will not be subject to any income, withholding or capital gains taxes in Bermuda.

Current and deferred tax is determined in reference to the tax jurisdiction in which the relevant entity resides.

Tax consolidation

IEL and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation. The head entity, IEL, and the controlled entities in the tax-consolidated group continue to account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand alone taxpayer in its own right.

In addition to its own current and deferred amounts, IEL also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the group. Details about the tax funding agreement are disclosed in Note 7.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

(o) Intangible assets

(i) Project-related agreements and licences

Project-related agreements and licences include the following items:

- licences, permits and approvals to develop and operate a wind farm, including governmental authorisations, land rights and environmental consents;
- interconnection rights; and
- power purchase agreements.

Project-related agreements and licences are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method to allocate the cost of licences over their estimated useful lives, which are based on the lease term of the related wind farm.

(ii) Goodwill

Goodwill represents the excess of the cost of acquisition over the fair value of the Group's share of the net identifiable assets, liabilities and contingent liabilities acquired at the date of acquisition. Goodwill on acquisition is separately disclosed in the balance sheet. Goodwill acquired in business combinations is not amortised, but tested for impairment annually and whenever there is an indication that the goodwill may be impaired. Any impairment is amortised immediately in the income statement and is not subsequently reversed. Goodwill on acquisitions of subsidiaries is included in intangible assets.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each of those cash-generating units represents the Group's investment in each country of operation by each primary reporting segment.

(iii) Development assets

Development assets represent development costs incurred prior to commencement of construction for wind farms. Development assets are not amortised, but are transferred to plant and equipment and depreciated from the time the asset is held ready for use on a commercial basis.

(p) Leased assets

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(i) Group as lessee

Assets held under finance leases are initially recognised at their fair value; or, if lower, at amounts equal to the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to qualifying assets, in which case they are recognised in accordance with the Group's general policy on borrowing costs.

Finance leased assets are amortised on a straight line basis over the shorter of the lease term and estimated useful life of the asset.

Operating lease payments are recognised as an expense on a straight line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(p) Leased assets continued

(i) Group as lessee continued

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefits of incentives are recognised as a reduction of rental expense on a straight line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

(ii) Group as lessor

Refer to Note 1(u) for the accounting policy in respect of lease income from operating leases.

(q) Impairment of assets

At each reporting date, the consolidated group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss.

If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group has estimated the recoverable amount of the cash-generating unit to which the asset belongs.

Goodwill, intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually and whenever there is an indication that the asset may be impaired. An impairment of goodwill is not subsequently reversed.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

For assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating unit). If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in the income statement immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years.

A reversal of an impairment loss is recognised in the income statement immediately, unless the relevant asset is carried at fair value, in which case the reversal of the impairment loss is treated as a revaluation increase.

(r) Cash and cash equivalents

For cash flow statement presentation purposes, cash and cash equivalents comprise cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value, net of outstanding bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(s) Provisions

Provisions are recognised when the consolidated group has a present legal or constructive obligation as a result of past events, it is probable an outflow of resources will be required to settle the obligation, and the amount of the provision can be measured reliably. Provisions are not recognised for future operating losses.

The amount recognised as a provision is management's best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

(t) Distributions and dividends

Provision is made for the amount of any distribution or dividend declared being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year, but not distributed at balance date.

(u) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below.

The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(u) Revenue recognition continued

Revenue is recognised for the major business activities as follows:

(i) Electricity sales

Product sales are generated from the sale of electricity generated from the Group's wind farms. Revenues from product sales are recognised on an accruals basis. Product sales revenue is only recognised when the significant risks and rewards of ownership of the products have passed to the buyer and the Group attains the right to be compensated.

(ii) Lease income

In accordance with IAS 17 *Determining whether an Asset Contains a Lease*, revenue that is generated under certain power purchase agreements, where the Group sells substantially all of the related electricity to one customer, is classified as lease income.

Lease income from operating leases is recognised in income on an accruals basis. Lease income is only recognised when the significant risks and rewards of ownership of the products have passed to the buyer and the Group attains the right to be compensated.

(iii) Renewable Energy Certificates (RECs)

In accordance with IAS 120 revenue from the sale of RECs is recognised at fair value when they are generated. RECs held in inventory are valued at the lower of cost and net realisable value.

Change in accounting policy

Historically the Group recognised RECs using the cost option once the REC was generated and deferred the recognition of the fair value of the REC until the time of sale. From 1 July 2010 this policy was changed to recognise the RECs at fair value at the point of the REC being generated. This voluntary change in accounting policy results in more relevant information of the economic outcome in relation to the generation of RECs in the period. Note 1(a) provides more information regarding the change in accounting policy and the resulting retrospective adjustments.

(iv) Production Tax Credits (PTCs)

PTCs are recognised as revenue when generated by the underlying wind farm assets and used to settle the obligation to Class A institutional investors.

(v) Accelerated tax depreciation credits and operating tax gains/(losses)

The tax losses as a result of accelerated tax depreciation credits on wind farm assets are used to settle the obligation to Class A institutional investors when received. The associated income is recognised over the life of the wind farm to which they relate.

(vi) Government grants

Grants from government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the income statement over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to the income statement on a straight line basis over the expected lives of the related assets.

(vii) Other income

Interest income is recognised using the effective interest method.

Dividend income is recognised when the right to receive payment is established.

Revenue from rendering of services is recognised when services are provided.

(v) Loans and receivables

Trade receivables, loans and other receivables are recorded at amortised cost less impairment. Trade receivables are generally due for settlement within 30 days.

A provision for impairment of loans and receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of loans and receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the impairment loss is recognised in the income statement within other expenses. Subsequent recoveries of amounts previously written off are credited against other expenses in the income statement.

(w) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

If the entity reacquires its own equity instruments, for example, as the result of a share buy-back, those instruments are deducted from equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributable incremental costs (net of income taxes) is recognised directly in equity.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(x) Earnings per security/share

Basic earnings per security/share is calculated by dividing the profit attributable to equity holders of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per security/share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(y) Fair value estimation

The fair value of the financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward exchange contracts is determined using forward exchange market rates at the balance sheet date. These instruments are included in level 2 (refer to Note 34).

The carrying amounts of trade receivables and payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(z) Non-current assets (or disposal groups) held-for-sale and discontinued operations

Non-current assets (or disposal groups) are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and investment property that are carried at fair value and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised.

A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held-for-sale continue to be recognised.

Non-current assets classified as held-for-sale and the assets of a disposal group classified as held-for-sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held-for-sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held-for-sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately on the face of the income statement.

(aa) Employee benefits

(i) Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Share-based payments

Share-based compensation benefits are provided to the executives via the Performance Rights and Options Plan (PR&O Plan). Information relating to the PR&O Plan is set out in Note 25.

The fair value of performance rights and options granted under the PR&O Plan is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the executives become unconditionally entitled to the options.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(aa) Employee benefits continued

(iii) Share-based payments continued

The fair value at grant date is independently determined using market prices and a model that takes into account the exercise price, the term of the option, the effect of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option. The model incorporates the performance hurdles that must be met before the share-based payments vests in the holder.

The fair value of the options that have been granted is adjusted to reflect market vesting conditions, but excludes the effect of any non-market vesting conditions including the Total Shareholder Return and Operational Performance hurdles. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate. The effect of the revision to original estimates, if any, is recognised in the income statement with a corresponding adjustment to equity.

(iv) Profit-sharing and bonus plans

The Group recognises a liability and an expense for bonuses and profit-sharing based on a formula that takes into consideration the profit attributable to the company's shareholders after certain adjustments. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after reporting date are discounted to present value.

(ab) Institutional equity partnerships classified as liabilities

(i) Class A members

Initial contributions by Class A members into US partnerships are recognised at cost using the effective interest method. Class A carrying amounts are adjusted when actual cash flow differs from estimated cash flow. The adjustment is calculated by computing the present value of the actual difference using the original effective interest rate. The adjustment is recognised through income or expense in profit or loss. This difference represents the change in residual interest due to the Class A institutional investors.

(ii) Class B members

On consolidation of the US partnerships the Group's Class B membership interest and associated finance charge for the year is eliminated and any external Class B member balances remaining represents net assets of US partnerships attributable to non-controlling interests. Refer 1(c) for further details of the Group's accounting policy for consolidation.

(ac) Rounding of amounts

The Group is of a kind referred to in Class order 98/0100, issued by the Australian Securities and Investments Commission, relating to the 'rounding off' of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, the nearest dollar.

(ad) New accounting standards and UIG interpretations

Certain new accounting standards and UIG interpretations have been published that are not mandatory for 30 June 2011 reporting periods. The Group's assessment of the effect of these new standards and interpretations is set out below.

(i) AASB 9 Financial Instruments and AASB 2009-11 Amendments to Australian Accounting Standards arising from AASB 9 (effective from 1 January 2015)

AASB9 *Financial Instruments* addresses the classification and measurement of financial assets and is likely to affect the Group's accounting for its financial assets. The standard is not applicable until 1 January 2015 but is available for early adoption. AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading. Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in profit or loss. The Group has not yet decided when to adopt AASB 9 and has not assessed the effect.

(ii) Revised AASB 124 Related Party Disclosures and AASB 2009-12 Amendments to Australian Accounting Standards (effective from 1 January 2011)

In December 2009 the AASB issued a revised AASB 124 *Related Party Disclosures*. It is effective for accounting periods beginning on or after 1 January 2011 and must be applied retrospectively. The amendment removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities and clarifies and simplifies the definition of a related party. The Group has applied the amended standard from 1 July 2011. The changes to AASB 124 will not have any effect on the financial statements of the Group.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(ad) New accounting standards and UIG interpretations continued

(iii) AASB 2009 14 Amendments to Australian Interpretation – Prepayments of a Minimum Funding Requirement

(effective from 1 January 2011)

In December 2009, the AASB made an amendment to Interpretation 14 *The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction*. The amendment removes an unintended consequence of the interpretation related to voluntary prepayments when there is a minimum funding requirement in regard to the entity's defined benefit scheme. It permits entities to recognise an asset for a prepayment of contributions made to cover minimum funding requirements. The Group does not have any defined benefit arrangements therefore the amendment is not expected to have any effect on the Group's financial statements. The Group intends to apply the amendment from 1 July 2011.

(iv) AASB 1053 Application of Tiers of Australian Accounting Standards and AASB 2010-2 Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements (effective from 1 July 2013)

On 30 June 2010 the AASB officially introduced a revised differential reporting framework in Australia. Under this framework, a two-tier differential reporting regime applies to all entities that prepare general purpose financial statements. The Group is listed on the ASX and is not eligible to adopt the new Australian Accounting Standards – Reduced Disclosure Requirements. The two standards will therefore have no effect on the financial statements of the entity.

(v) AASB 2010-6 Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets

(effective for annual reporting periods beginning on or after 1 July 2011)

Amendments made to AASB 7 *Financial Instruments: Disclosures* in November 2010 introduce additional disclosures in respect of risk exposures arising from transferred financial assets. The amendments will affect particularly entities that sell, factor, securitise, lend or otherwise transfer financial assets to other parties. They are not expected to have any significant effect on the Group's disclosures. The Group intends to apply the amendment from 1 July 2011.

(vi) AASB 2010-8 Amendments to Australian Accounting Standards – Deferred Tax: Recovery of Underlying Assets

(effective from 1 January 2012)

In December 2010, the AASB amended AASB 112 *Income Taxes* to provide a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model. AASB 112 requires the measurement of deferred tax assets or liabilities to reflect the tax consequences that would follow from the way management expects to recover or settle the carrying amount of the relevant assets or liabilities, that is through use or through sale. The amendment introduces a rebuttable presumption that investment property which is measured at fair value is recovered entirely by sale. The Group has no investment property and therefore the amendment will have no effect on the financial statements of the entity.

(vii) IFRS 10, IFRS 11 and IFRS 12 and revised IAS 28 and IAS 27 – Consolidations, joint arrangements and associated disclosures

(effective for annual reporting periods commencing from 1 January 2013)

In May 2011, the IASB issued IFRS 10, IFRS 11 and IFRS 12 and revised IAS 28 and IAS 27 – Consolidations, joint arrangements and associated disclosures. IFRS 10 replaces all of the guidance on control and consolidation in IAS 27 Consolidated and separate financial statements, and SIC-12 Consolidation – special purpose entities. The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation.

IFRS 10 introduces a single definition of control that applies to all entities. It focuses on the need to have power, rights or exposure to variable returns and the ability to use its power to affect those returns before control is present. Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both.

IFRS 11 deals with joint arrangements. The accounting treatment for joint arrangements will depend on the contractual rights and obligations of participants rather than on the legal structure of the joint arrangement. The standard distinguishes between joint operations and joint ventures:

- A joint operation gives the parties that have joint control of the arrangement rights to the assets and obligations for the liabilities relating to the arrangement. This will be reflected in the accounting treatment, which is consistent with the current accounting for joint operations.
- A joint venture gives parties that have joint control of the arrangement rights to the net assets of the arrangement. Joint ventures must be accounted for using the equity method; proportionate consolidation of joint ventures will no longer be permitted.

IFRS 12 sets out the required disclosures for entities reporting under the two new standards, IFRS 10 and IFRS 11 and replaces the disclosure requirements currently found in IAS 27, IAS 28 and IAS 31. There are a number of new disclosures that are not currently required, for example information about each subsidiary that has a material non-controlling interest, details of risks associated with consolidated structured entities and information about interests in unconsolidated structured entities.

IAS 27 is renamed *Separate financial statements* and is now a standard dealing solely with separate financial statements. It does not introduce any significant changes. Amendments to IAS 28 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a "partial disposal" concept. At the time of writing, the AASB has not yet issued equivalent Australian standards.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(ad) New accounting standards and UIG interpretations continued

(vii) IFRS 10, IFRS 11 and IFRS 12 and revised IAS 28 and IAS 27 – Consolidations, joint arrangements and associated disclosures (effective for annual reporting periods commencing from 1 January 2013) continued

The changes arising from IFRS 10 are not expected to have any effect on the financial statements of the Group. The changes arising from IFRS 11 are expected to alter the way the Group consolidates its interest in joint ventures. The Group presently applies the method of proportional consolidation when accounting for its jointly controlled arrangements in the US. Under IFRS11, the Group's jointly controlled interests will need to be accounted for using the equity method. The changes will need to be applied in the financial statements for the year ending 30 June 2014, with adjustments made to comparative period figures. The Group is currently assessing the effect of the changes to IFRS 10, IFRS 11, IFRS12, IAS 27 and IAS 28.

(ae) Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial effect on the entity and that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Some of the estimates and assumptions that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are:

(i) Estimated useful economic life of wind turbines and associated plant

As disclosed in Note 1(i) the Group depreciates property, plant and equipment over 25 years. This period of depreciation is utilised for wind turbines and associated plant that have useful economic lives in excess of 25 years as no determination has been made to extend the life of the project beyond this period.

(ii) Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 1(q). The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions. Refer to Note 15 for details of these assumptions and the potential effect of changes to the assumptions.

(iii) Income taxes

The Group is subject to income taxes in Australia and jurisdictions where it has foreign operations. Significant judgment is required in determining the worldwide provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Group is required to make assessments in relation to the recoverability of future tax losses which have been recognised as deferred tax assets.

(af) Parent entity financial information

The financial information for the parent entity, Infigen Energy Limited, disclosed in note 36, has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) Investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial statements of Infigen Energy Limited. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

(ii) Tax consolidation legislation

Infigen Energy Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Infigen Energy Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand alone taxpayer in its own right. In addition to its own current and deferred tax amounts, Infigen Energy Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Infigen Energy Limited for any current tax payable assumed and are compensated by Infigen Energy Limited for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Infigen Energy Limited under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year.

The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as current amounts receivable from or payable to other entities in the Group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

1. SUMMARY OF ACCOUNTING POLICIES CONTINUED

(af) Parent entity financial information continued

(iii) Financial guarantees

Where the parent entity has provided financial guarantees in relation to loans and payables of subsidiaries for no compensation, the fair values of these guarantees are accounted for as contributions and recognised as part of the cost of the investment.

2. SEGMENT INFORMATION

(a) Segment information provided to the Board of Directors

Management has determined the operating segments based on the reports reviewed by the Board of Directors of IEL that are used to make strategic decisions.

The Board considers the business primarily from a geographic perspective and has identified two reportable segments. The reporting segments consist of the wind farm and generation business held within each geographical area.

The segment information provided to the Board of Directors for the operating segments for the year ended 30 June 2011 is as follows:

	Australia \$'000	US \$'000	Total \$'000
Year ended 30 June 2011			
Statutory revenue			285,319
Revenue – non-controlling interests			(17,740)
Segment revenue (economic interest basis)	117,170	150,409	267,579
Segment EBITDA from Operations (economic interest)	86,011	81,118	167,129
Other income			758
Corporate costs			(18,650)
Development costs			(3,671)
EBITDA (economic interest basis)			145,566
Year ended 30 June 2010			
Statutory revenue			282,567
Revenue – non-controlling interests			(18,719)
Segment revenue (economic interest basis)	104,926	158,922	263,848
Segment EBITDA from Operations (economic interest)	84,830	87,022	171,852
Corporate costs			(21,808)
Development costs			(959)
EBITDA (economic interest basis)			149,085

The Board of Directors assesses the performance of the operating segments based on a measure of EBITDA (Segment EBITDA). This measurement basis excludes the effects of non-recurring expenditure from the operating segments such as restructuring costs, legal expenses and goodwill impairments when the impairment is the result of an isolated, non-recurring event. Furthermore, the measure excludes the effects of equity-settled share-based payments and unrealised gains/losses on financial instruments.

Interest income and expenditure are not allocated to segments, as this type of activity is driven by the corporate treasury function, which manages the cash position of the Group. The Board of Directors reviews segment revenues on a proportional basis, reflective of the economic ownership held by the Group.

A reconciliation of Segment EBITDA to operating profit before income tax and discontinued operations is provided as follows:

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Segment EBITDA	145,566	149,085
Non-controlling interests proportionally consolidated for segment reporting	13,662	14,135
Income from institutional equity partnerships	61,638	63,579
Other income	20,425	29,055
Other income relating to discontinued operations	–	448
Expenses relating to potential sale of overseas assets	–	(11,140)
Depreciation and amortisation expense	(136,302)	(136,228)
Interest expense	(87,873)	(90,998)
Finance costs relating to institutional equity partnerships	(45,224)	(54,347)
Other finance costs	(6,918)	(8,112)
Significant non-recurring items	–	(9,658)
Net loss before income tax expense and discontinued operations	(35,026)	(54,181)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

2. SEGMENT INFORMATION CONTINUED

(a) Segment information provided to the Board of Directors continued

A summary of assets by operating segment is provided as follows:

	Australia \$'000	US \$'000	Germany (Discontinued) \$'000	Total \$'000
Year ended 30 June 2011				
Current assets	273,056	90,474	–	363,530
Non-current assets	1,231,817	1,653,373	–	2,885,190
Total	1,504,873	1,743,847	–	3,248,720
Year ended 30 June 2010				
Current assets	157,697	78,399	40,351	276,447
Non-current assets	1,184,227	2,178,431	255,810	3,618,468
Total	1,341,924	2,256,830	296,161	3,894,915

3. REVENUE

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
From continuing operations		
Sale of energy and environmental products ¹	45,645	49,076
Lease of plant and equipment ²	233,323	210,440
Compensation for revenues lost as a result of O&M providers not meeting contracted turbine availability targets	1,478	14,816
Asset management services	4,624	8,235
Grant revenue	249	–
	285,319	282,567
From discontinued operations (Note 6)		
Sale of energy and environmental products ¹	24,351	41,763
	24,351	41,763

¹ Includes revenue from the sale of electricity and from the generation of environmental certificates. The Group generates environmental certificates (including RECs) and sells them under contractual arrangements and on market. As described in note 1(a) there was a voluntary change in accounting for RECs during the year ended 30 June 2011. REC revenue is now recognised at fair value when generated. Accordingly the corresponding figures have been restated.

² In accordance with UIG 4 *Determining whether an Asset Contains a Lease*, revenue that is generated under certain power purchase agreements, where the Group sells substantially all of the related electricity and environmental certificates to one customer, is classified as lease income. Refer Note 1(u) for further information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

4. OTHER INCOME

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
From continuing operations:		
Income from institutional equity partnerships (note 19)		
Value of production tax credits offset against Class A liability	81,939	85,413
Value of tax losses offset against Class A liability	14,936	49,414
Benefits deferred during the period	(35,237)	(71,248)
	61,638	63,579
Other		
Interest income: Related parties (note 31(c))	7,936	8,314
Interest income: Institutions	5,927	7,007
Net foreign exchange gains	7,320	13,734
	21,183	29,055

5. EXPENSES

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
From continuing operations:		
Loss before income tax has been arrived at after charging the following expenses:		
Other expenses:		
Development costs	1,341	316
Loss on sale of investment	314	643
Expenses relating to non-viable projects	1,464	–
Expenses relating to potential sale of overseas assets – costs of hedging expected foreign currency proceeds	–	8,041
Expenses relating to potential sale of overseas assets – other costs	–	3,099
	3,119	12,099
Depreciation and amortisation expense:		
Depreciation of property, plant and equipment	121,271	120,387
Amortisation of intangible assets	15,031	15,841
	136,302	136,228
Finance costs relating to institutional equity partnerships:		
Allocation of return on outstanding Class A liability ¹	46,950	57,377
Movement in residual interest (Class A) ¹	(6,317)	(7,396)
Movement in non-controlling interest (Class B) ¹	4,591	4,366
	45,224	54,347
Other finance costs:		
Fair value losses on financial instruments ²	5,141	1,207
Bank fees and loan amortisation costs	1,777	6,905
	6,918	8,112
Significant non-recurring items:		
Transition-related expenses ³	–	9,658
	–	9,658

¹ Refer Note 19 for further details.

² Included within fair value losses on financial instruments is an expense of \$8,638,000 relating to the termination of an interest rate swap with an early termination option. The terminated interest rate swap had previously been hedge accounted with an unrealised loss taken to reserves. This was subsequently reversed upon termination.

³ As a consequence of terminating agreements associated with the former external manager in 2009, Infigen Energy has undertaken transition programs in Australia and the US. During the year ended 30 June 2011, the Group did not incur an expense (2010: \$9,658,000) in relation to the transition program in the US.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

6. DISCONTINUED OPERATIONS

(a) Details of disposed operations

Sale of German portfolio

During the year ended 30 June 2011, Infigen sold its portfolio of wind farms in Germany. The sale was agreed on 11 June 2011 and settlement occurred on 29 June 2011.

Sale of French portfolio

During the year ended 30 June 2010, Infigen sold its portfolio of wind farms in France. The sale and settlement occurred simultaneously in April 2010.

(b) Financial performance

The results of the discontinued operations for the years ended 30 June 2011 and 30 June 2010, respectively, through to disposal are presented below:

	30 June 2011		30 June 2010		
	Germany \$'000	Total \$'000	Germany \$'000	France \$'000	Total \$'000
Revenue (Note 3)	24,351	24,351	30,549	11,214	41,763
Other income	872	872	639	15	654
Expenses	(28,418)	(28,418)	(30,446)	(6,235)	(36,681)
(Loss)/profit before income tax	(3,195)	(3,195)	742	4,994	5,736
Income tax (expense)/benefit	(658)	(658)	520	(1,038)	(518)
(Loss)/profit after income tax of discontinued operations	(3,853)	(3,853)	1,262	3,956	5,218
Loss on sale of subsidiary after income tax	(31,132)	(31,132)	–	(12,925)	(12,925)
(Loss)/profit from discontinued operations	(34,985)	(34,985)	1,262	(8,969)	(7,707)

(c) Major classes of assets and liabilities of the German disposed entities

	As at 29 June 2011 \$'000
Cash	5,049
Receivables	8,348
Investment in associate	372
Property, plant and equipment	191,848
Intangibles	24,837
Other assets	1,445
Total assets	231,899
Payables	1,537
Deferred tax liabilities	527
Finance leases	35,167
Total liabilities	37,231
Net assets attributable to discontinued operations	194,668

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

6. DISCONTINUED OPERATIONS CONTINUED

(d) Cash flow information of the German disposed entities

	30 June 2011 \$'000	30 June 2010 \$'000
Net cash inflow from operating activities	14,440	11,564
Net cash outflow from investing activities	(7,053)	(49,058)
Net cash (outflow)/inflow from financing activities	(5,027)	25,969
Net cash inflow/(outflow)	2,360	(11,525)

(e) Details of the sale of the German entities

	As at 29 June 2011 \$'000
Consideration received:	
Cash received from sale	163,536
Infigen's share of net assets attributable to discontinued operations	(194,668)
Loss on sale before income tax	(31,132)
Income tax expense	–
Loss on sale after income tax	(31,132)¹
Net cash inflow on disposal:	
Cash and cash equivalents consideration	176,574
Less: Cash and cash equivalents balance disposed of	(5,049)
Less: Transaction costs	(1,818)
Proceeds on sale of subsidiary, net of cash disposed	169,707
Less: Estimated interest rate swap close out costs	(6,171)
Net cash to be received from sale	163,536

¹ Loss on sale after income tax comprises loss on disposal of investment in German entities of \$23,143,000, estimated financing costs of \$6,171,000 and transaction costs of \$1,818,000.

(f) Contingent liability relating to the German disposed entities

Under the terms of the sale the Group was required to place a cash sum of EUR 5.1m (or approx \$6.3m) in an escrow account as collateral for a potential reimbursement obligation. All or part of the escrowed funds may be retained by the Group upon the satisfaction of certain conditions. Refer to note 27 for further details.

(g) Major classes of assets and liabilities of the French disposed entities

	As at 6 April 2010 \$'000
Cash	2,296
Receivables	2,673
Property, plant and equipment	83,763
Intangibles	20,778
Other assets	4,598
Total assets	114,108
Trade creditors	1,473
Deferred tax liabilities	342
Derivative financial instruments	5,452
Total liabilities	7,267
Net assets attributable to discontinued operations	106,841

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

6. DISCONTINUED OPERATIONS CONTINUED

(h) Cash flow information of the French disposed entities

	30 Jun 2010 \$'000	30 Jun 2009 \$'000
Net cash inflow from operating activities	7,651	12,358
Net cash outflow from investing activities	(3,841)	(14,819)
Net cash (outflow)/inflow from financing activities	(6,609)	5,045
Net cash (outflow)/inflow	(2,799)	2,584

(i) Details of the sale of the French entity

	6 April 2010 \$'000
Consideration received:	
Cash received from sale	93,916
Infigen's share of net assets attributable to discontinued operations	(106,841)
Loss on sale before income tax	(12,925)
Income tax expense	–
Loss on sale after income tax	(12,925)¹
Net cash inflow on disposal:	
Cash and cash equivalents consideration	104,027
Less: Cash and cash equivalents balance disposed of	(2,296)
Less: Transaction costs	(2,363)
Less: Interest rate swap close out costs	(5,452)
Proceeds on sale of subsidiary, net of cash disposed	93,916

¹ Loss on sale after income tax comprises loss on disposal of investment in French entities of \$5,110,000, financing costs of \$5,452,000 and transaction costs of \$2,363,000.

7. INCOME TAXES AND DEFERRED TAXES

(a) Income tax expense

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Current tax	(10,741)	(4,143)
Deferred tax	2,382	17,134
	(8,359)	12,991
Income tax (benefit)/expense is attributable to:		
(Loss)/profit from continuing operations	(9,017)	12,473
Loss from discontinued operations (Note 6(a))	658	518
Aggregate income tax expense	(8,359)	12,991
Deferred income tax expense included in income tax (benefit)/expense comprises:		
Increase in deferred tax assets	(1,128)	(5,366)
Increase in deferred tax liabilities	3,510	22,500
	2,382	17,134

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

7. INCOME TAXES AND DEFERRED TAXES CONTINUED

(b) Numerical reconciliation of income tax (benefit)/expense to prima facie tax payable:

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Loss from continuing operations before income tax expense	(35,026)	(54,181)
Loss from discontinued operations before income tax expense (Note 6)	(34,327)	(7,189)
	(69,353)	(61,370)
Income tax benefit calculated at 30% (2010: 30%)	(20,806)	(18,411)
Increase/(decrease) in tax benefit due to:		
Tax losses not recognised as an asset	7,385	20,632
Non-deductible expenses resulting from sale of foreign assets	8,932	932
Amortisation of intangibles	–	432
Non-deductible interest expense	–	218
Unrealised foreign exchange movement	(3,312)	2,591
Sundry items	(45)	(195)
Difference in overseas tax rates	–	(109)
Assessable (income)/expense recognised on internal reorganisation	(513)	6,901
Income tax (benefit)/expense	(8,359)	12,991

(c) Amounts recognised directly in equity

The following deferred amounts were not recognised in net profit or loss but charged directly to equity during the period:

Deferred tax asset	2,783	(3,619)
Deferred tax liabilities	2,827	(3,288)
Net deferred tax	5,610	(6,907)

(d) Tax losses

Unused tax losses for which no deferred tax asset has been recognised	(299,837)	(272,174)
Potential tax benefit @ 30%	89,951	81,652

(e) Tax consolidation

IEL and its wholly-owned Australian resident entities have formed a tax-consolidated group with effect from 1 July 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidated group is IEL. The members of the tax-consolidated group are identified in Note 29.

Entities within the tax-consolidated group have entered into a tax funding arrangement and a tax sharing agreement with the head entity. Under the terms of the tax funding arrangement, IEL and each of the entities in the tax-consolidated group has agreed to pay a tax equivalent payment to or from the head entity, based on the current tax liability or current tax asset of the entity. Such amounts are reflected in amounts receivable from or payable to other entities in the tax-consolidated group.

The tax sharing agreement entered into between members of the tax-consolidated group provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

7. INCOME TAXES AND DEFERRED TAXES CONTINUED

(f) Current tax liabilities

	2011 \$'000	2010 \$'000
Income tax payable attributable to:		
Australian entities in the Group	–	1,585
Overseas entities in the Group	4,348	809
	4,348	2,394

	Opening balance \$'000	Charged to Income \$'000	Charged to Equity \$'000	Acquisitions/ disposals \$'000	Closing balance \$'000
Year ended 30 June 2011					
Gross deferred tax assets:					
Unused revenue tax losses	64,265	6,281	–	–	70,546
Effect of hedge movements	26,739	(2,577)	(11,909)	–	12,253
Unrealised foreign exchange loss	6,323	(2,576)	9,126	–	12,873
	97,327	1,128	(2,783)	–	95,672
Gross deferred tax liabilities:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

8. KEY MANAGEMENT PERSONNEL REMUNERATION

Details of key management personnel

The following Directors were Key Management Personnel (KMP) of Infigen during the 2011 financial year ending 30 June 2011:

- Michael Hutchinson (appointed Chairman 12 November 2010)
- Miles George
- Douglas Clemson
- Philip Green (appointed 18 November 2010)
- Fiona Harris (appointed 21 June 2011)
- Anthony Battle (retired 18 November 2010)
- Graham Kelly (resigned 12 November 2010)

Other KMP of Infigen were:

Name	Role	2011	2010
M George	Chief Executive Officer	✓	✓
G Dutailis	Chief Operating Officer	✓	✓
C Baveystock ²	Chief Financial Officer	✓	x
B Hopwood	General Manager – Corporate Finance	✓	x
G Dover ¹	Chief Financial Officer	✓	✓

¹ Resigned 31 December 2010

² Appointed 14 March 2011

Key management personnel remuneration

The aggregate remuneration of KMP of Infigen for the years ended 30 June 2011 and 2010 is set out below:

	2011 \$	2010 \$
Short-term employee benefits	2,987,792	2,430,622
Post-employment benefits (superannuation)	107,809	93,762
Other long-term benefits and share-based incentive expense allocation ³	816,599	1,341,845
Total	3,912,200	3,866,229

³ Other long-term benefits and share-based incentive expense allocations are subject to performance rights vesting in the future.

Rights, options and awards held over Infigen securities

Performance rights and options over Infigen securities were granted to certain KMP in year ended 30 June 2009 under the Performance Rights & Options (PR&O) Plan. During the year ended 30 June 2011 Performance Rights were granted to KMP under the PR&O Plan.

No performance rights or options over Infigen securities vested or became exercisable in the years ended 30 June 2011 and 2010. No Infigen securities were acquired by KMP as a result of the exercise of options during the year ended 30 June 2011 and 2010.

Performance rights and options held by KMP over Infigen securities over the period 1 July 2010 to 30 June 2011 are set out below. The expense recognised in relation to the performance rights and options under the PR&O Plan is recorded within corporate costs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

8. KEY MANAGEMENT PERSONNEL REMUNERATION CONTINUED

Set out below are summaries of the number of **performance rights** granted:

	Balance at 1 July 2009 and 1 July 2010	Granted	Vested	Other changes	Balance at 30 June 2011
M George	1,112,925	807,128	–	–	1,920,053
G Dutailis	578,721	398,182	–	–	976,903
B Hopwood	173,616	117,736	–	–	291,352
G Dover	578,721	–	–	(578,721)	–

Refer to the table titled 'Outstanding Performance Rights' in the Directors' report for further details of the balances held at 30 June 2011.

There has been no change in options granted during year ended 30 June 2011.

Set out below are summaries of **options** granted:

	Balance at 1 July 2009 and 1 July 2010	Granted	Vested	Other changes	Balance at 30 June 2011
M George	5,053,908	–	–	–	5,053,908
G Dutailis	2,628,032	–	–	–	2,628,032
B Hopwood	788,410	–	–	–	788,410
G Dover	2,628,032	–	–	(2,628,032)	–

All options held on 30 June 2011 were granted on 27 March 2009 and expire on 31 December 2013 if not vested previously in accordance with the performance conditions relating to the options. The exercise price is \$0.897.

Security holdings in Infigen

No Infigen securities were granted as remuneration to KMP during the years ended 30 June 2011 and 2010. Security holdings of KMPs, including their personally related parties, in Infigen securities over the period 1 July 2009 to 30 June 2011 are set out below. There was no movement in security holdings of KMP during the year ended 30 June 2011.

Set out below are summaries of **security holding** of KMP in Infigen:

	Balance at 1 July 2009 and 1 July 2010	Acquired during 2011	Sold during 2011	Balance at 30 June 2011
M Hutchinson	–	–	–	–
D Clemson	140,000	–	–	140,000
P Green ¹	–	–	–	–
F Harris	–	–	–	–
A Battle	42,634	–	–	N/A
G Kelly	10,000	–	–	N/A
M George	500,000	–	–	500,000
G Dutailis	641,820	–	–	641,820
C Baveystock	–	–	–	–
B Hopwood	10,000	–	–	10,000
G Dover	10,000	–	–	N/A

¹ Mr Green is a partner of The Children's Investment Fund Management (UK) LLP which has a substantial shareholding of Infigen securities. Mr Green has advised Infigen that he does not have a relevant interest in those Infigen securities.

Loans to key personnel and their personally related entities from Infigen

No loans have been made by Infigen to KMP or their personally related parties during the years ended 30 June 2011 and 2010. There are no other transactions with KMP.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

9. REMUNERATION OF AUDITORS

During the year the following fees were paid or payable for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

	2011 \$	2010 \$
PricewaterhouseCoopers Australia		
(i) Audit and other assurance services		
Audit and review of the financial statements	1,329,132	1,399,618
Total remuneration for audit and other assurance services	1,329,132	1,399,618
(ii) Taxation services		
Tax advice	38,000	–
Total remuneration for taxation services	38,000	–
(iii) Other services		
Other services	69,000	63,500
	69,000	63,500
Total remuneration PWC Australia	1,436,132	1,463,118
Non-PWC audit firms		
(i) Other assurance services		
Audit and review of subsidiaries' financial statements	310,190	337,778
Total remuneration for other assurance related services	310,190	337,778
Total auditors' remuneration	1,746,322	1,800,896

10. TRADE AND OTHER RECEIVABLES

	2011 \$'000	2010 \$'000
Current		
Trade receivables	33,906	32,425
Amounts due from related parties – associates (Note 31(c))	399	328
Prepayments (Note 10(f))	12,424	16,376
Other receivables	2,856	4,223
	49,585	53,352
Non-current		
Amounts due from related parties – associates (Note 31(c))	819	1,171
Prepayments (Note 10(f))	9,768	12,495
	10,587	13,666

(a) Past due but not impaired

As at 30 June 2011, trade receivables of \$2,812,400 (2010: \$2,033,000) were past due but not impaired. Refer to Note 34(b) for more information. These relate to a number of independent customers for whom there is no recent history of default.

The other classes within trade and other receivables do not contain impaired assets and are not past due. Based on the credit history of these other classes, it is expected that these amounts will be received when due. The Group does not hold any collateral in relation to these receivables.

(b) Impairment of trade receivables

There were no impaired trade receivables for the Group in 2011 or 2010.

(c) Other receivables

These amounts generally arise from transactions outside the usual operating activities of the Group.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

10. TRADE AND OTHER RECEIVABLES CONTINUED

(d) Foreign exchange and interest rate risk

Information about the Group's exposure to foreign currency risk and interest rate risk in relation to trade and other receivables is provided in Note 34.

(e) Fair value and credit risk

Due to the nature of these receivables, their carrying amount is assumed to approximate their fair value. The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. Refer to Note 34 for more information on the risk management policy of the Group and the credit quality of the Group's trade receivables.

(f) Prepayments

Included within current prepayments is \$11,551,000 (2010: \$15,149,000) of prepaid operational expenses. Included within non-current prepayments is \$9,768,000 (2010: \$12,296,000) of prepaid operational expenses.

11. INVENTORY

	2011 \$'000	2010 \$'000
Inventory – Environmental Certificates	9,070	3,204
	9,070	3,204

12. DERIVATIVE FINANCIAL INSTRUMENTS

	2011 \$'000	2010 \$'000
Non-current assets		
At fair value: Interest rate swaps – cash flow hedges	1,595	–
	1,595	–
Current liabilities		
At fair value: Interest rate swaps – cash flow hedges	34,976	59,573
	34,976	59,573
Non-current liabilities		
At fair value: Interest rate swaps – cash flow hedges	66,693	98,284
	66,693	98,284

Refer to Note 34 for further information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

13. INVESTMENTS IN ASSOCIATES

Year ended 30 June 2011

In March 2011, the Group completed a transaction with renewable energy project developer National Power Partners ('NPP') in relation to the ownership of certain wind farm development projects in its Australian wind energy development pipeline. Under the terms of the transaction, the Group acquired the remaining 50% interest in Bodangora (NSW), Flyers Creek (NSW), Cherry Tree (VIC) and Woakwine (SA) development projects which it did not already own. These 50% interests comprised ordinary shares in development entities. Those ordinary shares were acquired for nominal cash consideration (refer to Note 30).

As part of the transaction, NPP acquired the Group's interests in the 54MW Glen Innes development project in NSW and approximately 100MW of other development projects which were previously being jointly developed ('NPP Acquired Projects').

In connection with the above transactions, the Group acquired development rights of \$7,240,000 relating to Bodangora, Flyers Creek, Cherry Tree and Woakwine development projects, which were paid for by the assignment of receivables to NPP of \$450,000, offset of loans and payables by NPP to the Group of \$2,447,000, exchange of the Group's interests in the NPP Acquired Projects for \$1,389,000, disposal of development rights in the NPP Acquired Projects for \$1,851,000 and a cash payment of \$1,103,000.

The Group has a non-controlling 50% interest in Infigen Suntech Australia Pty Ltd. The Group incurred \$1,400,000 in connection with this development.

Year ended 30 June 2010

The Group acquired interests in a pipeline of development projects in Australia and New Zealand, which included interests in shares in various entities, development rights and land. These interests ranged from 32% to 50%, depending on the entity, each of which has been treated as an associate. The Group paid \$4,560,000 for the interests in the shares in these development entities and has equity accounted its interests.

(a) Movements in carrying amounts

	2011 \$'000	2010 \$'000
Carrying amount at the beginning of the financial year	3,543	–
Additions during the year	1,400	4,560
Share of loss after income tax	(552)	(85)
Transferred to intangible assets	(2,237)	–
Disposal of carrying value of investments	(1,389)	(932)
Carrying amount at the end of the financial year	765	3,543

(b) Summarised financial information of associates

The Group's share of the results of its associates and its aggregated assets (including goodwill) and liabilities are as follows:

Assets	1,290	408
Liabilities	738	572
Revenues	–	–
Loss	(552)	(85)

(c) Contingent liabilities of associates

There were no contingent liabilities relating to associates at the end of the financial year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

Net book value	359,780	3,036,433	3,396,213
Year ended 30 June 2010			
Opening net book value	359,780	3,036,433	3,396,213
Additions	91,765	10,454	102,219
Transfers	(415,858)	415,858	–
Disposals	–	(83,763)	(83,763)
Depreciation expense	–	(134,026)	(134,026)
Net foreign currency exchange differences	–	(169,749)	(169,749)
Closing net book value	35,687	3,075,207	3,110,894
At 30 June 2010			
Cost or fair value	35,687	3,442,706	3,478,393
Accumulated depreciation	–	(367,499)	(367,499)
Net book value	35,687	3,075,207	3,110,894
Year ended 30 June 2011			
Opening net book value	35,687	3,075,207	3,110,894
Additions	58,232	10,287	68,519
Transfers	2,413	–	2,413
Disposals	–	(191,848)	(191,848)
Depreciation expense	–	(130,325)	(130,325)
Net foreign currency exchange differences	–	(399,541)	(399,541)
Closing net book value	96,332	2,363,780	2,460,112
At 30 June 2011			
Cost or fair value	96,332	2,772,542	2,868,874
Accumulated depreciation	–	(408,762)	(408,762)
Net book value	96,332	2,363,780	2,460,112

Assets under construction are deemed to be qualifying assets. Borrowing costs that are directly attributable to the construction of a qualifying asset are capitalised as part of the cost of that asset.

In year ended 30 June 2010 the Group had certain assets with net book value of \$39,742,000 which were accounted for under finance leases. In the year ended 30 June 2011 these were sold as part of the sale of the Group's German portfolio. Refer Notes 6 and 28.

Accumulated amortisation and impairment	–	–	(43,639)	(43,639)
Net book value	18,469	25,553	272,437	316,459

(i) Amortisation expense is included in the line item Depreciation and Amortisation Expense in the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

15. INTANGIBLE ASSETS CONTINUED

(a) Impairment tests for goodwill

Goodwill is allocated to the Group's cash-generating units (CGUs) identified according to country of operation.

A segment-level summary of the goodwill allocation is presented below.

	2011 \$'000	2010 \$'000
Australia	15,136	15,136
Germany	–	7,135
United States	3,333	4,186
	18,469	26,457

The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial projections approved by management covering the life of the wind farm.

(b) Key assumptions for value-in-use calculations

The Group makes assumptions in calculating the value-in-use of its CGUs including assumptions around expected wind resources, availability, prices and operating expenses. In performing these calculations for each CGU, the Group has applied pre-tax discount rates in the range of 9% – 11% (2010: 8% – 10%). The discount rates used reflect specific risks relating to the relevant countries in which they operate.

In determining future cash flows, the Group uses long-term mean energy production estimates to reflect the currently expected performance of the assets throughout the budget period. The long-term mean energy production is estimated by independent technical consultants on behalf of the Group for each wind farm.

For some wind farms with power purchase agreements, future growth rates are based on CPI in the relevant jurisdiction. For wind farms subject to market prices, future growth rates are based on long term industry price expectations.

(c) Project-related agreements and licences

Project-related agreements and licences include the following items:

- licences, permits and approvals to develop and operate a wind farm, including governmental authorisations, land rights and environmental consents;
- interconnection rights; and
- power purchase agreements.

Project-related agreements and licences are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method to allocate the cost of licences over their estimated useful lives, which are based on the lease term of the related wind farm.

(d) Development assets

Development assets represent the cost of licenses and wind farm development costs incurred prior to commencement of construction for wind farms. When a wind farm is constructed, the development assets relating to that wind farm are capitalised with the cost of constructing wind farms upon completion. Development assets are not amortised but are reclassified and depreciated over the effective life of the eventuating asset as property, plant and equipment when they become ready for use.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

16. TRADE AND OTHER PAYABLES

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Current		
Trade payables and accruals	26,661	33,224
Interest payable	1,433	102
Goods and services and other taxes payable	6,739	10,144
Deferred income	5,747	916
Other (i)	2,620	8,313
	43,200	52,699
Non-current		
Other	173	485
	173	485

(i) Includes employee benefits and an accrual for annual leave. The entire obligation for annual leave is presented as current because the Group does not have an unconditional right to defer payment. The prior year balance includes other non-recurring expenses related to the US transition process.

17. BORROWINGS

	2011 \$'000	2010 \$'000
Current		
Secured		
At amortised cost:		
Global Facility (i)	209,465	85,817
Finance lease liabilities (Note 28)	–	2,538
	209,465	88,355
Non-current		
Secured		
At amortised cost:		
Global Facility (i)	1,021,457	1,308,757
Project finance debt – Woodlawn (ii)	32,742	–
Capitalised loan costs	(11,247)	(11,676)
	1,042,952	1,297,081
Finance lease liabilities (Note 28)	–	37,204
	1,042,952	1,334,285

(a) Reconciliation of borrowings

Opening balance	1,422,640	1,649,104
Finance lease repayments	(3,709)	(2,580)
Finance leases disposed	(35,167)	–
Debt repayments	(41,094)	(151,026)
Draw down from project financing (ii)	32,742	–
Draw down from Global Facility	–	17,905
Other financing arrangements	–	2,620
Net loan costs capitalised	(1,312)	5,583
Net foreign currency exchange differences	(121,683)	(98,966)
Closing balance	1,252,417	1,422,640

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

17. BORROWINGS CONTINUED

(b) Capitalised borrowing costs

	2011 \$'000	2010 \$'000
Borrowing costs capitalised during the financial year	1,948	5,152
Weighted average capitalisation rate on funds borrowed	6.0%	6.6%

Where borrowing costs are directly attributable to the construction of a qualifying asset, they are capitalised as part of the cost of that asset.

(c) Borrowings by currency

The total value of funds that have been drawn down by currency, converted to AUD at the year end rate, are presented in the following table:

	Total Borrowings (Local curr '000)	Total Borrowings (AUD '000)
As at 30 June 2011		
Australian dollars	655,219	655,219
Euro – debt	133,175	180,454
Euro – finance lease	–	–
US dollars	458,281	427,991
Gross debt		1,263,664
Less capitalised loan costs		(11,247)
Total debt		1,252,417
As at 30 June 2010		
Australian dollars	649,048	649,048
Euro – debt	139,935	200,609
Euro – finance lease	27,722	39,742
US dollars	464,460	544,917
Gross debt		1,434,316
Less capitalised loan costs		(11,676)
Total debt		1,422,640

On 6 July 2011, the Group repaid \$154,264,000 of Global Facility debt in relation to the disposal of German assets.

A breakdown of the value of the Group's drawn down funds by currency prior to and following this repayment is presented in the following table:

	Opening balance 1 July 2011 (Local curr '000)	Repayments 6 July 2011 (Local curr '000)	Total Borrowings (Local curr '000)	Total Borrowings (AUD '000)
As at 6 July 2011				
Australian dollars	655,219	77,936	577,283	577,283
Euro	133,175	16,725	116,450	157,792

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

17. BORROWINGS CONTINUED

(i) Global Facility

The Group's corporate debt facility (the Global Facility) is a fully amortising, multi-currency facility that matures in 2022. The Global Facility is a syndicated facility among a group of Australian and international lenders.

The Global Facility delineates between those Infigen group entities that comprise the Global Facility borrower group (Borrower Group) and those Infigen group entities that are not within the Borrower Group. The latter are generally referred to as "Excluded Companies".

In broad terms, the Borrower Group comprises IEL and substantially all of its subsidiaries, with the exception that none of the following fall within the Borrower Group:

- IET or IEBL
- Infigen Energy Holdings Pty Limited and its subsidiaries, which primarily include the Group's Australian development pipeline project entities
- Woodlawn Wind Pty Limited (which owns Woodlawn wind farm)
- the US wind farm entities (which own the US wind farms) and the institutional equity partnerships which own the US wind farm entities

For clarity, the wholly-owned subsidiaries of IEL that are entitled to returns, including cash distributions, from the US wind farm entities, or institutional equity partnerships (refer Note 19), are included within the Borrower Group.

Excluded Companies

Excluded Companies are quarantined from the Global Facility. Excluded Companies:

- are not entitled to borrow under the Global Facility;
- must deal with companies within the Global Facility on arm's length terms; and,
- are not subject to, or the subject of, the representations, covenants or events of default applicable to the Borrower Group.

Amounts outstanding under the Global Facility

The amounts outstanding under the Global Facility are in Euro, United States dollars and Australian dollars. The base currency of the Global Facility is the Euro.

Principal repayments under the Global Facility

Subsequent to 30 June 2010 and for the remaining term of the Global Facility (expiring December 2022), all surplus cash flows of the Borrower Group, after taking account of working capital requirements, are used to make repayments under the Global Facility on a semi-annual basis (Cash Sweep). The net disposal proceeds of any disposals by Borrower Group entities must also be applied to make repayments under the Global Facility.

During the year ended 30 June 2011 repayments of \$41,094,000 were made. On 6 July 2011, \$154,264,000 of Global Facility debt was repaid following the disposal of the Group's German assets.

Interest payments

The Group pays interest each six months based on Euribor (Euro drawings), BBSY (Australian dollar) or LIBOR (United States dollar), plus a margin. It is the Group's policy and a requirement of the Global Facility to use financial instruments to fix the interest rate for a portion of the borrowings (refer Note 34).

Financial covenants

During the period of the Cash Sweep, the only financial covenant that applies under the Global Facility is a leverage ratio covenant. This covenant is based on the results of each twelve month period ending 30 June or 31 December and is as follows:

- Through to June 2016: not more than 8.5 times;
- July 2016 to June 2019: not more than 6.0 times;
- July 2019 to expiry of facility (December 2022): not more than 3.0 times.

The leverage ratio is determined by taking the quotient of Net Debt and EBITDA of entities that are within the Borrower Group. EBITDA represents the consolidated earnings of the Borrower Group entities before finance charges, unrealised gains or losses on financial instruments and material items of an unusual or non-recurring nature. In the US this is represented by the cash distributions to Infigen from the wind farm entities. Distributions to Infigen, from the wind farm entities, can vary materially from the US reported EBITDA as a result of Institutional Equity Partnerships (Refer to Note 19).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

17. BORROWINGS CONTINUED

Review events

A review event would occur if the shares of IEL were removed from the official list of the Australian Securities Exchange or were unstapled from units of IET and shares of IEBL. Such an event would require assessment of the effect on the Global Facility and, if necessary, agreement of an action plan.

Security

The Global Facility has no asset level security; however, each borrower under the Global Facility is a guarantor of the facilities. In addition, lenders have first ranking security over the issued share capital of, or other ownership interest in:

- the borrowers (other than Infigen Energy Limited); and
- the direct subsidiaries of the borrowers, which are holding entities of each operating wind farm in Infigen's portfolio (other than Woodlawn wind farm).

Global Facility lenders have no security over Excluded Companies.

(ii) Project finance facility – Woodlawn Wind Pty Ltd

Woodlawn Wind Pty Ltd, the Infigen entity which owns the Woodlawn Wind Farm, is the borrower under an AUD \$55 million project finance facility that matures in September 2014. The lender is Westpac Banking Corporation.

Amounts outstanding under the project finance facility

The amounts outstanding under the project finance facility are denominated in AUD to match the underlying currency of operations. The amounts outstanding during the construction phase represent a percentage of completion basis.

Principal repayments under the project finance facility

The borrower is required to make debt repayments on a quarterly basis.

Interest payments

Interest is payable quarterly based on BBSY (Australian dollar) plus a margin.

Interest obligations have been hedged at a fixed rate of 4.48% plus the margin for the period to maturity in September 2014.

Security

The lender under the Project finance facility have security over the shares in, and assets and undertaking, of Woodlawn Wind Pty Ltd.

18. PROVISIONS

	2011 \$'000	2010 \$'000
Current		
Employee benefits	3,422	2,627
	3,422	2,627
Non-current		
Employee benefits	290	239
	290	239

Employee benefits

The current provision for employee benefits includes provision for short term incentives and long service leave. For long service leave it covers all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

19. INSTITUTIONAL EQUITY PARTNERSHIPS CLASSIFIED AS LIABILITIES

Nature of institutional equity partnerships

Infigen is a Class B member in twelve (12) US limited liability companies (LLCs) that directly or indirectly own the US wind farms. The Group owns between 50% and 100% of the Class B membership interests in these LLCs. Each of these LLCs also has one or more Class A members (institutional investors), and where the Group does not own 100% of the Class B interests, one or more other Class B members. These LLCs are referred to as institutional equity partnerships (IEPs).

The Group's relationship with the Class A institutional investors and other Class B members is established through a LLC operating agreement. That operating agreement contains rules by which the cash flows and tax benefits, including Production Tax Credits (PTCs) and accelerated depreciation, generated by the wind farms are allocated between the Class A and Class B members during the life of the wind farms.

The Class A institutional investors purchase their partnership interests for an upfront cash payment. This payment is fixed so that the investors, from the date that they purchase their interest, anticipate earning an agreed targeted internal rate of return by the end of the ten-year period over which PTCs are generated. This anticipated return is computed based on the total anticipated benefit that the institutional investors will receive and includes the value of PTCs, allocated taxable income or loss and cash distributions.

Pursuant to the allocation rules specified in the LLC operating agreement, all operating cash flow is allocated to the Class B members until the earlier of a fixed date, or when the Class B members recover the amount of invested Class B capital. This is expected to occur between five to ten years from the initial closing date. Thereafter, all operating cash flow is allocated to the Class A institutional investors until they receive the targeted internal rate of return (the 'Reallocation Date').

Prior to the Reallocation Date, a significant part of the tax income and benefits generated by the partnerships are allocated to the Class A institutional investors, with any remaining benefits allocated to the Class B members.

After the Reallocation Date, the Class A institutional investors retain a non-controlling interest for the duration of their membership in the LLC. The Group also has an option to purchase the Class A institutional investors' residual interests at fair market value.

Recognition of institutional equity partnerships

The Group either controls or jointly controls the strategic and operating decisions of institutional equity partnerships. Notes 29 and 35 provide further details of controlled and jointly controlled partnerships.

Classification of institutional equity partnerships

Class A institutional investors' and Class B members' investments in institutional equity partnership structures are classified as liabilities in the financial statements of the Group as the partnerships have limited lives and the allocation of income earned is governed by contractual agreements over the life of the investment. The following should be noted:

- Should future operational revenues from the US wind farms be insufficient, there is no contractual obligation on the Group to repay the liabilities.
- Balances outstanding (Class A institutional investors and Class B non-controlling members) do not impact the Group's lending covenants.
- There is no exit mechanism by which investors can require repayment of their remaining capital and consequently there is no re-financing risk for the IEPs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

19. INSTITUTIONAL EQUITY PARTNERSHIPS CLASSIFIED AS LIABILITIES CONTINUED

The following table includes the components of institutional equity partnerships classified as liabilities: Class A member liabilities; non-controlling interests relating to Class B members and deferred revenue.

	Class A members		Class B members		Total

	2011 \$'000	2010 \$'000
Attributable to:		
Equity holders of the parent	2,305	2,305
Equity holders of the other stapled securities (non-controlling interests)	759,337	781,240
	761,642	783,545

Stapled securities entitle the holder to participate in dividends from IEL and IEBL and in distributions from IET. The holder is entitled to participate in the proceeds on winding up of the stapled entities in proportion to the number of and amounts paid on the securities held.

(i) Distribution reinvestment plan

On 14 June 2011, Infigen announced that it had suspended distributions for the years ending 30 June 2012 and 30 June 2013. The total distribution for the financial year ended 30 June 2011 was 1.0 cent per stapled security being the amount declared for the interim distribution and paid on 17 March 2011.

Prior to 14 June 2011, Infigen operated a distribution reinvestment plan (DRP) under which holders of stapled securities may have elected to have all or part of their distribution entitlements satisfied by the issue of new stapled securities rather than by being paid in cash. The stapled securities issued under the DRP were allotted based on the weighted average 'market price' for Infigen stapled securities sold on the ASX over the 10 trading days ending on the trading day which was three trading days before the date that the securities were to be allotted under the DRP (DRP Price).

(ii) On market security buy-back

Since 1 July 2010, there have been no security buy-backs.

On 5 May 2010, Infigen announced its intention to undertake a buy-back of up to 10% of its securities between the announcement date and 30 June 2010. No securityholder approval was required for the buy-back. As at 30 June 2010, Infigen had purchased and cancelled 47,803,000 stapled securities at an average price of \$0.88 per security under that buy-back program.

21. RESERVES

	2011 \$'000	2010 \$'000
Foreign currency translation	(60,994)	(15,477)
Hedging	(82,545)	(129,188)
Acquisition	(47,675)	(47,675)
Share-based payment	3,774	3,155
	(187,440)	(189,185)
Attributable to:		
Equity holders of the parent	(187,440)	(189,185)
Equity holders of the other stapled securities (non-controlling interests)	–	–
	(187,440)	(189,185)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

21. RESERVES CONTINUED

(a) Foreign currency translation reserve

	2011 \$'000	2010 \$'000
Balance at beginning of financial year	(15,477)	25,718
Movements increasing/(decreasing) recognised:		
Translation of foreign operations	(48,069)	(38,314)
Disposal of foreign operations	2,552	201
Forward exchange contracts	–	(3,438)
Deferred tax reversal	–	356
	(45,517)	(41,195)
Balance at end of financial year	(60,994)	(15,477)

Exchange differences arising on translation of foreign controlled entities are taken to the foreign currency translation reserve, as described in Note 1(m). The reserve is recognised in profit and loss when the net investment is disposed of.

(b) Hedging reserve

	2011 \$'000	2010 \$'000
Balance at beginning of financial year	(129,188)	(122,145)
Movement increasing/(decreasing) recognised:		
Interest rate swaps	58,552	(13,950)
Deferred tax arising on hedges	(11,909)	6,907
	46,643	(7,043)
Balance at end of financial year	(82,545)	(129,188)

The hedging reserve is used to record movements on a hedging instrument in a cash flow hedge that are recognised directly in equity, as described in Note 1(j). Amounts are recognised in profit and loss when the associated hedged transaction settles.

(c) Acquisition reserve

	2011 \$'000	2010 \$'000
Balance at beginning of financial year	(47,675)	(53,472)
Acquisition of non-controlling interest of subsidiary (i)	–	5,797
Balance at end of financial year	(47,675)	(47,675)

(i) These transactions are treated as transactions between owners of the Group. Additional goodwill is recognised only to the extent that it represents goodwill that was attributable to the minority interest at the acquisition date but is now attributable to the parent entity. No such goodwill was recognised in relation to the other non-controlling interest acquisitions.

The difference between the purchase consideration and the amount by which the non-controlling interest is adjusted has been recognised in the acquisition reserve. In relation to the various non-controlling interests that have been purchased during the year ended 30 June 2010 for \$2,257,000 (refer Note 33(b)) the amounts in the table above have been recognised in the acquisition reserve.

(d) Share-based payment reserve

	2011 \$'000	2010 \$'000
Balance at beginning of financial year	3,155	1,071
Share-based payments expense ¹	619	2,084
Balance at end of financial year	3,774	3,155

¹ The share-based payments reserve is used to recognise the fair value of performance rights and options issued to employees but not exercised. Refer Note 25 for further detail.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

22. RETAINED EARNINGS

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Balance at beginning of financial year	127,568	202,189
Net loss attributable to stapled security holders	(60,994)	(74,621)
Balance at end of financial year	66,574	127,568
Attributable to:		
Equity holders of the parent	87,020	147,110
Equity holders of the other stapled securities (non-controlling interests)	(20,446)	(19,542)
	66,574	127,568

23. EARNINGS PER SECURITY/SHARE

(a) Basic earnings per stapled security/parent entity share:

	2011 Cents per security	2010 Cents per security (Restated)
Parent entity share		
From continuing operations	(3.3)	(7.9)
From discontinued operations	(4.6)	(1.0)
Total basic earnings per share	(7.9)	(8.9)
Stapled security		
From continuing operations	(3.4)	(8.4)
From discontinued operations	(4.6)	(1.0)
Total basic earnings per security	(8.0)	(9.4)

(b) Diluted earnings per stapled security/parent entity share:

Parent entity share		
From continuing operations	(3.3)	(7.9)
From discontinued operations	(4.6)	(1.0)
Total diluted earnings per share	(7.9)	(8.9)
Stapled security		
From continuing operations	(3.4)	(8.4)
From discontinued operations	(4.6)	(1.0)
Total diluted earnings per security	(8.0)	(9.4)

(c) Reconciliation of earnings used in calculating earnings per security/share

The earnings and weighted average number of securities/shares used in the calculation of basic and diluted earnings per security/share are as follows:

	2011 \$'000	2010 \$'000 (Restated – refer Note 1(a))
Earnings attributable to the parent entity shareholders		
From continuing operations	(25,105)	(63,529)
From discontinued operations	(34,985)	(7,707)
Total earnings attributable to the parent entity shareholders	(60,090)	(71,236)
Earnings attributable to the stapled security holders		
From continuing operations	(26,009)	(66,914)
From discontinued operations	(34,985)	(7,707)
Total earnings attributable to the stapled security holders	(60,994)	(74,621)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

23. EARNINGS PER SECURITY/SHARE CONTINUED

(d) Weighted average number of shares used as the denominator

	2011 No. '000	2010 No. '000
Weighted average number of securities/ shares for the purposes of basic earnings per security/share	761,341	799,847

24. DISTRIBUTIONS PAID

	2011		2010	
	Cents per security	Total \$'000	Cents per security	Total \$'000
Recognised amounts				
Ordinary securities				
Final distribution in respect of 2010 year of 2.0 cents per stapled security (2009: 4.50 cents) paid in September 2010 (2009: September 2009), 100% tax deferred (2009: 100% tax deferred).	2.0	15,272	4.50	36,635
Interim distribution in respect of 2011 year of 1.0 cents (2010: nil cents) per stapled security paid in March 2011 (2010: N/A), 100% tax deferred. (2010: N/A)	1.0	7,612	-	-
		22,884		36,635
Distributions paid in cash or satisfied by the issue of new stapled securities under the Distribution Reinvestment Plan during the year ended 30 June 2011 and the year ended 30 June 2010 were as follows:				
Paid in cash		21,903		36,635
Satisfied by the issue of stapled securities		981		-
		22,884		36,635

On 14 June 2011, the Directors of Infigen declared the total distribution for the financial year ended 30 June 2011 to be 1.0 cent per stapled security being the amount declared for the interim distribution and paid on 17 March 2011 (2010: 2.0 cents and paid on 16 September 2010).

Of the \$15,272,000 final distribution in respect of 2010, \$627,000 (4.1%) of distributions were settled through the issue of stapled securities under the Distribution Reinvestment Plan. Of the \$7,612,000 interim distribution in respect of 2011, \$354,000 (4.65%) of distributions were settled through the issue of stapled securities under the Distribution Reinvestment Plan. No amounts in relation to the final distribution for 2009 of \$36,635,000 were settled through the issue of stapled securities.

The parent entity has franking credits of \$6,228,093 for the year ended 30 June 2011 (2010: \$4,408,323). The franking credits were acquired when Walkaway Windpower Pty Ltd joined the Group's tax consolidated group in June 2010.

On 14 June 2011, Infigen announced that it has suspended distributions for the years ending 30 June 2012 and 30 June 2013.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

25. SHARE-BASED PAYMENTS

(a) Employee performance rights, performance units and options plan

PR&O Plan arrangements for the FY09, FY10 and FY11 grants

In 2009 the Board determined that the most appropriate form of incentive arrangement for the Senior Managers was a long-term incentive arrangement. Senior Managers have received a long-term incentive award under the Performance Rights & Options Plan ('PR&O') that encompass:

- the Senior Manager's long-term incentive opportunity for FY09;
- the Senior Manager's long-term incentive award for FY10; and
- the Senior Manager's long-term incentive award for FY11.

Performance conditions of awards granted under the PR&O Plan

- The FY09 plan participants received 50% of their award in the form of performance rights and 50% in the form of options awarded to participants in two tranches of equal value (**Tranche 1** and **Tranche 2**).
- In FY10 and FY11 plan participants received 100% performance rights or units in two tranches of equal value (**Tranche 1** and **Tranche 2**).
- The measures used to determine performance and the subsequent vesting of performance rights and options are Total Shareholder Return (TSR) and a financial performance test. The vesting of Tranche 1 of the performance rights and Tranche 1 of the options is subject to the TSR condition, while Tranche 2 of the performance rights and Tranche 2 of the options is subject to an Operational Performance condition. The Operational Performance condition is determined by an earnings before interest, taxes, depreciation and amortisation (EBITDA) test.

		Performance rights	Performance units	Options	Period
2009	Tranche 1	TSR condition	N/A	TSR condition	01 January 2009 – 31 December 2011
	Tranche 2	Operational Performance condition	N/A	Operational Performance condition	1 July 2008 – 30 June 2011
2010	Tranche 1	TSR condition	N/A	N/A	30 September 2010 – 30 June 2012
	Tranche 2	Operational Performance condition	N/A	N/A	30 September 2010 – 30 June 2012
2011	Tranche 1	TSR condition	TSR condition	N/A	30 September 2010 – 30 June 2013
	Tranche 2	Operational Performance condition	Operational Performance condition	N/A	30 September 2010 – 30 June 2013

- TSR condition (applicable to Tranche 1 performance rights or units and Tranche 1 options): TSR measures the growth in the price of securities plus cash distributions notionally reinvested in securities. In order for the Tranche 1 performance rights and the Tranche 1 options to vest, the TSR of Infigen will be compared to companies in the S&P/ASX 200 (excluding financial services and the materials/resources sectors). For the purpose of calculating the TSR measurement, the security prices of each company in the S&P/ASX 200 (as modified above) and of Infigen will be averaged over the 30 trading days preceding the start and end date of the performance period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

25. SHARE-BASED PAYMENTS CONTINUED

The percentage of the Tranche 1 performance rights or units and Tranche 1 options that vest are as follows:

Infigen's TSR performance compared to the relevant peer group	Percentage of Tranche 1 performance rights and Tranche 1 options to vest
0 to 49th percentile	Nil
50th to 74th percentile	50% – 98% (ie. for every percentile increase between 50% and 74% an additional 2% of the TSR grant will vest)
75th to 100th percentile	100%

Operational Performance condition (applicable to Tranche 2 performance rights and Tranche 2 options): the vesting of the Tranche 2 performance rights or units and Tranche 2 options is subject to an Operational Performance condition.

The Operational Performance condition will test the multiple of EBITDA to Capital Base, with the annual target being a specified percentage increase in the multiple over the year. The Capital Base will be measured as equity (net assets) plus net debt. Both the EBITDA and Capital Base will be measured on a proportionately consolidated basis to reflect Infigen's economic interest in all investments.

Set out below are summaries of **performance rights** and **options** that have been granted under the plan:

Deemed grant date	Expiry date	Exercise price	Balance at start of the year Number	Granted during the year Number	Lapsed during the year Number	Balance at end of the year Number	Vested and exercisable at end of the year

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

25. SHARE-BASED PAYMENTS CONTINUED

Fair value of performance rights and options granted

		Grant date	Performance rights	Performance units	Options
2009	Tranche 1	27 March 2009	0.543	N/A	0.207
	Tranche 2	27 March 2009	0.708	N/A	0.211
2010	Tranche 1	30 September 2010	0.439	N/A	N/A
	Tranche 2	30 September 2010	0.696	N/A	N/A
2011	Tranche 1	30 September 2010	0.439	0.19	N/A
	Tranche 2	30 September 2010	0.696	0.23	N/A

The fair values of performance rights, performance units and options at grant date are determined using market prices and a model that takes into account the exercise price, the term of the performance right, unit or option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the performance right or option.

The model inputs for performance rights, performance units and options granted include:

- (a) Performance rights and options are granted for no consideration and vest in accordance with the TSR condition and the Operational Performance condition outlined above for Tranche 1 and Tranche 2, respectively. Performance rights have a nil exercise price and vest automatically as shares for rights and as cash for units. Vested options are exercisable until 31 December 2013.
- (b) Exercise price for options: \$0.897
- (c) Grant dates: 27 March 2009 (FY09 plan), 30 September 2010 (FY10 plan), 30 September 2010 (FY11 plan)
- (d) Expiry date of options: 31 December 2013
- (e) Share price at grant date: \$0.86 (FY09 plan), \$0.735 (FY10 plan), \$0.735 (FY11 rights plan), \$0.35 (FY11 unit plan)
- (f) Expected price volatility of the company's shares: 49% (FY09 plan), 42% (FY10 plan), 42% (FY11 plan)
- (g) Expected dividend yield: 8.6% (FY09 plan), 2.0% (FY10 plan), 2.0% (FY11 rights plan), 0% (FY11 unit plan)
- (h) Risk free interest rate: 3.96% (FY09 plan), 4.79% (FY10 plan), 4.79% (FY11 rights plan), 4.79% (FY11 units plan)

Where performance rights, performance units and options are issued to employees of subsidiaries within the Group, the expense in relation to these performance rights, performance units and options is recognised by the relevant entity with the corresponding increase in stapled securities.

(b) Expenses arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	2011 \$'000	2010 \$'000
Performance rights and options issued (net of lapsed awards) under the PR&O Plan	619	2,084
	619	2,084

26. COMMITMENTS FOR EXPENDITURE

(a) Capital expenditure commitments

	2011 \$'000	2010 \$'000
Not later than 1 year	21,569	69,769
Later than 1 year and not later than 5 years	–	–
	21,569	69,769

Capital expenditure commitments relate to the construction of wind farms.

(b) Lease commitments

Finance lease liabilities and non-cancellable operating lease commitments are disclosed in Note 28 and Note 26, respectively, to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

26. COMMITMENTS FOR EXPENDITURE CONTINUED

(c) Other expenditure commitments

	2011 \$'000	2010 \$'000
Not later than 1 year	10,057	12,650
Later than 1 year and not later than 5 years	11,402	28,498
Later than 5 years	118	41,861
	21,577	83,009

Other expenditure commitments include commitments relating to operations and maintenance arrangements and connection agreements.

27. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Contingent liabilities

	2011 \$'000	2010 \$'000
Letters of credit	49,789	66,074
	49,789	66,074

Letters of credit generally relate to wind farm construction, operations and decommissioning and represent the maximum exposure. No liability was recognised by the parent entity of the Group in relation to these letters of credit, as their combined fair value is immaterial.

Kumeyaay warranty claim

In December 2009, the Kumeyaay Wind Farm experienced unexpected damage during a storm event and a utility power outage. Following the storm, the initial review revealed that 45 blades on 23 of the 25 turbines were damaged, and that it was probable the remaining blades were also affected and would need to be replaced.

By April 2010, the turbine manufacturer had replaced all 75 blades and all 25 turbines were operating. The turbine manufacturer has not invoiced Kumeyaay Wind LLC, a Group subsidiary, for the costs of repair to the site or for the replacement of blades.

It is the Group's view that these costs are covered under either the manufacturer's warranty or insurance. Kumeyaay Wind LLC is also seeking to recover payment for lost production under the manufacturer's performance guarantee or insurance. The turbine manufacturer has not accepted this view and, at this time, an outcome is uncertain. Kumeyaay Wind LLC has engaged external technical advisors and legal counsel to represent it in the dispute resolution process, and, if required, through formal litigation. Discussions continue between the management of both organisations in accordance with an agreed resolution process.

German disposal – potential reimbursement obligation and funds in escrow

Under the terms of the sale of the Group's German assets during the year, the Group was required to place a cash sum of EUR 5.1m (or approx \$6.3m) in an escrow account as collateral for a potential reimbursement obligation. All or part of the escrowed funds may be retained by the Group depending upon the satisfaction of certain conditions.

As at the time of sale, certification of 3 wind farms as qualifying for certain additional tariff under the German Renewable Energy Act (as a result of technology upgrades underway at those sites) had not yet been received. If the relevant certification is not obtained by the German statutory deadline for qualifying for the additional tariff (currently 30 September 2011), then Infigen must reimburse the buyer of the applicable wind farm the following amount in respect of the failure to obtain that certification and hence additional tariff for that wind farm, being EUR 2.6m, EUR 1.3m and EUR 1.3m respectively (depending upon the wind farm in question).

The certification process for these 3 wind farms is progressing and it is currently expected that certification will be obtained for all 3 wind farms prior to 30 September 2011. The escrowed funds of approx \$6.3m are included as a component of Cash and Cash Equivalents in Infigen's statement of financial position as at 30 June 2011.

Disposal of businesses

Under the sale agreements relating to the disposal of the Group's previously owned Spanish, French and German assets, the Group has provided certain warranties and indemnities in favour of the buyers of those assets. No claims have been made by the relevant buyers under these warranties and indemnities.

Under the sale agreements relating to the disposal of the Group's interests in certain development projects and entities to National Power Partners ('NPP') in March 2011, the Group has provided certain warranties and indemnities in favour of the buyers of those assets. No claims have been made under these warranties and indemnities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

28. LEASES

Finance leases

Leasing arrangements

Finance leases related to wind turbine generators at the German Eifel Wind Farm and had a term of 14 years with an option to purchase at the end of the term. These leases remained with the Eifel Wind Farm entity that was sold as part of the Group's disposal of German entities.

Finance lease liabilities

	Minimum future lease payments	
	2011 \$'000	2010 \$'000
Commitments in relation to finance leases are payable as follows:		
Not later than 1 year	–	4,854
Later than 1 year and not later than 5 years	–	19,415
Later than five years	–	23,159
Minimum future lease payments ¹	–	47,428
Less future finance charges	–	(7,686)
Present value of minimum lease payments	–	39,742
Included in the financial statements as:		
Current borrowings (Note 17)	–	2,538
Non-current borrowings (Note 17)	–	37,204
	–	39,742

¹ Minimum future lease payments include the aggregate of all lease payments and any guaranteed residual.

Operating leases

The Group leases land for its wind farms under non-cancellable operating leases expiring within 20 to 55 years. The leases have varying terms, escalation clauses and renewal rights.

	2011 \$'000	2010 \$'000
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:		
Not later than 1 year	8,382	9,221
Later than 1 year and not later than 5 years	29,988	34,826
Later than 5 years	123,835	154,408
	162,205	198,455

30. ACQUISITION OF BUSINESSES

Year ended 30 June 2011

(i) Transaction with National Power Partners

In March 2011, the Group completed a transaction with renewable energy project developer National Power Partners (NPP) in relation to the ownership of certain wind farm development projects in its Australian wind energy development pipeline. Under the terms of the transaction, the Group acquired the remaining 50% interest in the Bodangora (NSW), Flyers Creek (NSW), Cherry Tree (VIC) and Woakwine (SA) development projects which it did not already own.

Each remaining 50% interest in the ordinary shares in the development entities was acquired at a nominal value which represented the fair value of the acquired entity's net assets.

In connection with the acquisition of the ordinary shares for nominal value, the Group acquired development rights of \$7,240,000 relating to Bodangora, Flyers Creek, Cherry Tree and Woakwine development projects, which was paid for by the assignment of receivables to NPP of \$450,000, offset of loans and payables by NPP to the Group of \$2,447,000, exchange of the Group's interests in the NPP Acquired Projects for \$1,389,000, disposal of development rights in the NPP Acquired Projects for \$1,851,000 and a cash payment of \$1,103,000.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

30. ACQUISITION OF BUSINESSES CONTINUED

Year ended 30 June 2010

(ii) Infigen Energy Markets Pty Limited

In March 2010, Infigen Energy Services Holdings Pty Limited, a subsidiary of IEL, purchased 100% of the share capital of Infigen Energy Markets Pty Limited (formerly Alinta Energy Markets Pty Ltd) which holds a licence to sell energy to a retail customer and trade in energy markets.

The purchase price was \$11,004,000 (including a component of contingent consideration). The fair values of the net assets acquired, \$11,004,000 is provided in the table below.

The acquired business contributed revenues of \$140,000 and net loss of \$15,000 to the Group for the period from acquisition to 30 June 2010. If the acquisition had occurred on 1 July 2009, revenue of \$558,000 and net loss of \$59,000 would have been contributed to the Group.

	Carrying value \$'000	Fair value \$'000
Purchase consideration		
Cash, including associated costs		9,640
Cash paid after the end of the financial year		303
Contingent consideration ¹		1,061
		11,004
Net assets/(liabilities) acquired		
Intangible assets		6,906
Cash	6,727	6,727
Trade debtors and receivables	1,627	1,627
Accrued revenue	1,577	1,577
Payables	(4,105)	(4,105)
Other liabilities	(1,728)	(1,728)
	4,098	11,004
Goodwill		-

¹ Contingent consideration represents the estimated amount payable to the vendor subsequent to acquisition. Contingent consideration is based upon the performance of Infigen Energy Markets Pty Limited over the period from acquisition to the end of the deferred consideration period on 31 December 2011.

During the year ended 30 June 2011, the contingent consideration has increased by \$631,000, in accordance with the share purchase agreement, resulting in an increase in intangible assets of \$631,000.

31. RELATED PARTY DISCLOSURES

(a) Equity interests in related parties

Details of the percentage ownership held in subsidiaries are disclosed in Note 29 to the financial statements.

(b) Key management personnel disclosures

Details of key management personnel remuneration are disclosed in Note 8 to the financial statements.

(c) Other related party transactions

At the year end the Group was owed an amount of \$1,218,000 (2010: \$1,499,000) from various associated entities.

The Group received interest income of \$7,936,000 (2010: \$8,314,000) from German entities which were disposed of on 29 June 2011.

(d) Parent entities

The parent entity in the Group is IEL.

The ultimate Australian parent entity is IEL.

The ultimate parent entity is IEL.

32. SUBSEQUENT EVENTS

On 6 July 2011, \$154,264,000 of Global Facility debt was repaid in relation to the disposal of the Group's German assets. Refer to Note 17(c) for further information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

33. NOTES TO THE CASH FLOW STATEMENT

(a) Reconciliation of cash and cash equivalents

	2011 \$'000	2010 \$'000
For the purposes of the cash flow statement, cash and cash equivalents includes cash on hand and in banks, net of outstanding bank overdrafts. Cash and cash equivalents at the end of the financial year as shown in the cash flow statement is reconciled to the related items in the balance sheet as follows:		
Cash and cash equivalents	304,875	219,891

(b) Businesses acquired

During the financial year, four (2010: one) businesses were acquired for a nominal value. Details of the acquisitions made in the prior comparative period are as follows:

Consideration		
Cash paid	–	9,640
Cash paid after the end of the financial year	–	303
Contingent consideration deferred	–	1,061
Cash and cash equivalents paid	–	11,004
Fair value of net assets acquired		
Cash	–	6,727
Receivables and other current assets	–	3,204
Intangibles	–	6,906
Payables	–	(4,105)
Other liabilities	–	(1,728)
Net assets acquired	–	11,004
Goodwill	–	–
Net cash outflow on acquisition		
Total consideration	–	11,004
Less: cash and cash equivalent balances acquired	–	(6,727)
Less: cash paid after the end of the financial year and deferred consideration	–	(1,364)
Add: payment for non-controlling interests (Note 21(c))	–	2,257
Cash paid for investments in controlled entities	–	5,170
(c) Non-cash financing and investing activities		
Distribution reinvestment plan (Note 24)	981	–
	981	–

(d) Restricted cash balances

As at 30 June 2011 \$23,755,291 (2010: \$15,951,800) of cash is held in escrow in relation to payments retained by the Group under turbine supply and wind farm construction contracts, as well as the decommissioning of certain sites.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

34. FINANCIAL RISK MANAGEMENT

The Group is exposed to a variety of financial risks: market risk (including currency risk, interest rate risk and electricity price risk), credit risk and liquidity risk.

The principal financial instruments that give rise to these risks comprise cash, receivables, payables and interest bearing debt.

Risk management is carried out by the Group's corporate treasury function under policies approved by the Board. The Group's treasury department identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

The Group's treasury policy provides a framework for managing the financial risks of the Group. The key philosophy of the Group's treasury policy is risk mitigation. The Group's treasury policy specifically does not authorise any form of speculation.

The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to manage potential adverse effects on the financial performance of the Group. The Group uses derivative financial instruments to hedge certain risk exposures. In line with the Group's treasury policy derivatives are exclusively used for risk management purposes, not as trading or other speculative instruments.

(a) Market risks

(i) Interest rate risks

The Group's income and operating cash flows are exposed to interest rate risk as it borrows funds at floating interest rates. The risk is managed by fixing a portion of the floating rate borrowings, by use of interest rate derivatives. During 2011 and 2010, the Group's borrowings at variable rates were denominated in Australian Dollars, US Dollars and Euros.

A high percentage of the face value of debt in each of the relevant currencies is hedged using interest rate derivatives. The table below shows a breakdown of the Group's interest rate debt and interest rate derivative positions.

In undertaking this strategy the Group is willing to forgo a percentage of the potential economic benefit that would arise in a falling interest rate environment, in order to partially protect against downside risks of increasing interest rates and to secure a greater level of predictability for cash flows.

Under interest rate derivative contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. The fair values of interest rate derivatives are based on market values of equivalent instruments at the reporting date and are disclosed below. The average interest rate is based on the outstanding balances at the start of the financial year.

The following tables detail the notional principal amounts and remaining terms of interest rate derivative contracts outstanding as at reporting date:

Outstanding pay fixed \ received floating interest rate swaps

	Average contracted fixed interest rate		Notional principal amount		Fair value	
	2011 %	2010 %	2011 \$'000	2010 \$'000	2011 \$'000	2010 \$'000
Fixed swap – Australia dollar	6.68	6.74	586,248	596,877	(31,895)	(44,503)
Fixed swap – Euro	4.87	4.87	142,432	189,212	(16,635)	(26,597)
Fixed swap – US dollar	5.28	5.28	346,480	516,220	(53,139)	(86,757)
			1,075,160	1,302,309	(101,669)	(157,857)

Bank debt as at balance date

The table below details the total amount of debt and breakdown of fixed and floating debt the Group held at 30 June 2011.

The Global Facility debt is denominated in AUD, USD and EUR and the debt is re-priced every 6 months.

AUD debt is priced using the 6 month BBSW rate plus the defined facility margin.

EUR debt is priced using the 6 month Euribor rate plus the defined facility margin.

USD debt is priced using the 6 month Libor rate plus the defined facility margin.

The Woodlawn Project finance debt is re-priced quarterly using the 3 month BBSY (AUD) rate plus the defined facility margin.

The current floating rate debt detailed in the table below is not inclusive of the facility margin. The current average interest rate, pre-margin across all facilities, is 5.61% (2010: 5.70%).

The current average margin across all facilities is 109 basis points (2010: 90 basis points).

The gain or loss from remeasuring the hedging instruments at fair value is deferred in equity in the hedging reserve, to the extent that the hedge is effective, and reclassified into profit and loss when the hedged interest expense is recognised. The ineffective portion is recognised in the income statement immediately. In the year ended 30 June 2011, a net gain of \$3,496,988 was recorded (2010: \$1,207,000 net loss) and included in finance costs.

34. FINANCIAL RISK MANAGEMENT CONTINUED

(i) Interest rate risks continued

Sensitivity

The sensitivity to interest rate movement of net result before tax and equity has been determined based on the exposure to interest rates at the reporting date. A sensitivity of 100 basis points has been selected across the 3 currencies to which the Group is exposed to floating rate debt: AUD, EUR, and USD. The 100 basis points sensitivity is reasonable as it is deemed to be flat across the yield curve.

	EUR	189,212	-	-	8,495	(8,495)	-
	USD	516,220	-	-	-	-	29,577
Total hedge reserve		1,302,309	30,215	(30,215)	8,495	(8,495)	29,577
Total effect on equity			35,763	(35,763)	8,417	(8,417)	29,632

The effect on the Group's net result is largely due to the Group's exposure to interest rates on its non-hedged variable rate borrowings. The effect on hedge reserve is due to the effective portion of the change in fair value of derivatives that are designated as cash flow hedges.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

34. FINANCIAL RISK MANAGEMENT CONTINUED

(ii) Foreign exchange risk

Operational FX risk

The Group has wind farm operations in Australia and the US.

The Group generates AUD and USD revenue from these operations. The Group is exposed to a decline in value of USD versus the AUD, decreasing the value of AUD equivalent revenue from its US wind farm operations.

Equity FX risk

The Group has an investment in its US wind farms that exceeds the value of its external USD debt. The Group is exposed to a decline in value of USD versus the AUD, decreasing the value of AUD equivalent value of its investment in the US wind farms.

Legacy EUR debt FX risk

The Group has a legacy EUR debt position from its previous investments in Spain, France and Germany. This legacy EUR debt is not offset with any operational EUR assets. The Group is exposed to a decline in value of AUD versus the EUR, increasing the AUD equivalent value of its EUR debt.

The Group has a multi-currency corporate debt facility and aims to ensure that the majority of its debt and expenses are denominated in the same currency as the associated revenues and investments. In the EUR legacy case, where this is not currently possible, the Group monitors and hedges foreign exchange exposure by other means.

The Group's balance sheet exposure to foreign currency risk at the reporting date is shown in the table below. This represents the EUR and USD assets and liabilities the Group holds in AUD functional currency entities.

Foreign currency (AUD'000)	2011		2010	
	EUR	USD	EUR	USD
Cash	39,669	56,654	147	1,256
Trade receivables	–	151	6,992	42
Short term intercompany loans	112,339	421	135,654	1,474
Net investment in foreign operations	14,595	214,835	15,441	304,057
Trade payables	(163)	(107)	(3,966)	(329)
Bank loans	(142,778)	(41,296)	(160,240)	(52,550)
Total exposure (foreign currency '000)	23,662	230,658	(5,972)	253,950

Sensitivity

The following table details the Group's pre-tax sensitivity to a 10 percent change in the AUD against the USD and the EUR, with all other variables held constant, as at the reporting date, for its unhedged foreign exchange exposure.

A sensitivity of 10 percent has been selected.

Consolidated AUD'000	AUD/EUR + 10%	AUD/EUR - 10%	AUD/USD + 10%	AUD/USD - 10%
2011				
Income statement	(907)	907	(1,582)	1,582

Foreign currency translation reserve	(1,544)	1,544	(30,406)	30,406

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

34. FINANCIAL RISK MANAGEMENT CONTINUED

(iii) Electricity and environment certificates (including REC) price risks

The Group has wind farm operations in Australia and the US and sells electricity and environmental certificates to utility companies, an industrial customer and to wholesale markets in the regions it operates.

The financial risk to the Group is that a decrease in the electricity or environmental certificate price reduces revenue earned.

To mitigate the financial risks of electricity and environmental certificate prices falling, the Group has entered into power purchase agreements and green product purchase agreements to partially contract the sale price of the electricity and environmental certificates it produces.

In undertaking this strategy of contracting a percentage of its electricity and environmental certificate sales, the Group is willing to forgo a percentage of the potential economic benefit that would arise in an increasing electricity and environmental certificate price environment, to protect against downside risks of decreasing electricity and environmental certificate prices; thereby securing a greater level of predictability of cash flows.

Sensitivity

The following table details the Group's pre-tax sensitivity to a 10 percent change in the electricity and environmental certificate price, with all other variables held constant as at the reporting date, for its exposure to the electricity market.

A sensitivity of 10 percent has been selected given the current level of electricity and environmental certificate prices and the volatility observed on an historic basis and market expectations for future movement.

Consolidated AUD \$'000	Electricity/ REC Price +10%	Electricity/ REC Price -10%
2011		
Income statement	3,735	(3,735)
2010		
Income statement	5,574	(5,574)

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks, as well as credit exposures to customers. The Group's exposure is continuously monitored and the aggregate value of transactions are spread among creditworthy counterparties.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Infigen as a wind generator generally sells electricity to large utility companies that operate in the regions Infigen has wind farms. The utility companies are situated in Australia and in many different states of US. No one utility company or other off take counterparty represents a significant portion of the total accounts receivable balance.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with credit ratings assigned by international credit-rating agencies at above investment grade. The carrying amount of financial assets, recorded in the financial statements, represents the Group's maximum exposure to credit risk.

Consolidated	Within credit terms \$'000	Past due but not impaired \$'000	Impaired \$'000	Description
2011				
Bank deposits	304,875		–	Minimum credit rating 'A' grade (S&P)
Trade receivables	31,094	2,812	–	Spread geographically generally with large utility companies
Other current receivables	2,856	–	–	Miscellaneous receivables
Amounts due from related parties (associates)	1,218	–	–	Loan to associated entities
2010				
Bank deposits	219,891		–	Minimum credit rating 'A' grade (S&P)
Trade receivables	30,392	2,033	–	Spread geographically generally with large utility companies
Other current receivables	4,223	–	–	Miscellaneous receivables
Amounts due from related parties (associates)	1,499	–	–	Loan to associated entities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

34. FINANCIAL RISK MANAGEMENT CONTINUED

(c) Liquidity risks

The Group manages liquidity risks by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The tables below set out the Group's financial assets and financial liabilities at balance sheet date and places them into relevant maturity groupings based on the remaining period at balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

The tables include forecast contractual repayments under the Global Facility and the Project Finance Facility. From 1 July 2010 the Global Facility terms provide that net cash flows from the companies included in the Global Facility borrower group be applied to repay amounts outstanding under the Global Facility. Woodlawn Wind Pty Ltd, an excluded company for the purposes of the Global Facility, is the holder of project finance debt.

For interest rate swaps and interest rate caps, the cash flows have been estimated using forward interest rates applicable at the reporting date.

	Up to 12 months \$'000	1 to 5 years \$'000	After 5 years \$'000	Total contractual cash flows \$'000
2011				
Global Facility debt	209,465	295,370	726,087	1,230,922
Project finance debt – Woodlawn	–	10,429	22,313	32,742

Gross finance lease	4,854	19,416	23,158	47,428
Interest rate swap payable	60,220	79,299	36,760	176,279
Current payables	52,699	–	–	52,699

(d) Fair value measurements

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

From 1 July 2009, the Group adopted the amendment to AASB 7 *Financial Instruments: Disclosures* which requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following tables present the Group's assets and liabilities measured and recognised at fair value at 30 June 2011.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
2011				
Assets				
Interest rate cap	–	1,595	–	1,595

Interest rate swaps	–	157,857	–	157,857
Total liabilities	–	157,857	–	157,857

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

34. FINANCIAL RISK MANAGEMENT CONTINUED

(e) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to generate value for securityholders and benefits for other stakeholders and to maintain an appropriate capital structure to minimise the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of distributions or dividends paid to securityholders, return capital to securityholders, buy back existing securities or issue new securities or sell assets.

The capital structure of the Group consists of debt finance facilities as listed in Note 17, and equity, comprising issued capital, reserves and retained earnings as listed in Notes 20, 21 and 22.

The Directors review the capital structure, and as part of this review, consider the cost of capital and the risks and rewards associated with each class of capital.

Through the year to 30 June 2011, the Group has had to maintain the following ratio in regard to compliance with its Global Facility:

Leverage ratio – Net Debt/EBITDA¹

At year end this ratio has been comfortably met.

¹ Refer to Note 17(i) – Financial Covenants.

35. INTEREST IN JOINT VENTURES

Interests in the following institutional equity partnerships in the US are accounted for in the consolidated financial statements as joint venture partnerships and are proportionately consolidated based on Infigen's Class B interest.

Institutional equity partnership	Related wind farms	Class B Interest held by Infigen (30 June 2010 and 2011)
Sweetwater Wind 1 LLC	Sweetwater 1	50%
Sweetwater Wind 2 LLC	Sweetwater 2	50%
Sweetwater Wind 3 LLC	Sweetwater 3	50%
Blue Canyon Windpower LLC	Blue Canyon	50%
Eurus Combine Hills 1 LLC	Combine Hills	50%
Sweetwater Wind 4-5 Holdings LLC	Sweetwater 4, Sweetwater 5	53%
JB Wind Holdings LLC	Jersey Atlantic, Bear Creek	59%

Further information relating to these institutional equity partnerships is set out below:

	2011 \$'000	2010 \$'000

Commitments	26,215	31,902
Contingent liabilities	–	1,090

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2011

36. PARENT ENTITY FINANCIAL INFORMATION

(a) Summary financial information

The individual financial statements for the parent entity show the following aggregate amounts:

	2011 \$'000	2010 \$'000
Current assets	807,410	777,756
Total assets	895,128	866,982
Current liabilities	882,116	881,474
Total liabilities	882,504	884,381
Shareholders' equity		
Issued capital	2,305	2,305
Retained earnings	10,319	(19,704)
	12,624	(17,399)¹
Profit or loss for the year	30,023	44,111
Total comprehensive income	30,023	41,845

¹ The separate financial statements for IEL as an individual entity present a net liability position in the year ended 30 June 2010. IEL is one component of a stapled entity that is in a net asset position.

(b) Guarantees entered into by the parent entity

IEL has provided a guarantee over a lease in favour of American Fund US Investments LP in relation to its Dallas office which was executed on 26 June 2009. A performance guarantee dated 31 March 2010 has also been provided by IEL in relation to a contract to supply energy.

(c) Contingent liabilities of the parent entity

German disposal – potential reimbursement obligation and funds in escrow

Under the terms of the sale of the Group's German assets during the year, the Group was required to place a cash sum of EUR 5.1m (or approx \$6.3m) in an escrow account as collateral for a potential reimbursement obligation. All or part of the escrowed funds may be retained by the Group depending upon the satisfaction of certain conditions.

As at the time of sale, certification of 3 wind farms as qualifying for certain additional tariff under the German Renewable Energy Act (as a result of technology upgrades underway at those sites) had not yet been received. If the relevant certification is not obtained by the German statutory deadline for qualifying for the additional tariff (currently 30 September 2011), then Infigen must reimburse the buyer of the applicable wind farm the following amount in respect of the failure to obtain that certification and hence additional tariff for that wind farm being EUR 2.6m, EUR 1.3m and EUR 1.3m respectively (depending upon the wind farm in question).

The certification process for these 3 wind farms is progressing and it is currently expected that certification will be obtained for all 3 wind farms prior to 30 September 2011.

Disposal of businesses

Under the sale agreements relating to the disposal of the Group's previously owned Spanish, Portuguese, French and German assets, the parent entity has provided certain warranties and indemnities in favour of the buyers of those assets. No claims have been made by the relevant buyers under these warranties and indemnities.

(d) Contractual commitments for the acquisition of property, plant or equipment

As at 30 June 2011, the parent entity had no contractual commitments for the acquisition of property, plant or equipment (30 June 2010 – \$nil).

DIRECTORS' DECLARATION

In the opinion of the Directors of Infigen Energy Limited ('IEL'):

- (a) the financial statements and notes set out on pages 59 to 122 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the financial year ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Note 1(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations by the Chief Executive Officer and the Chief Financial Officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the Directors pursuant to section 295(5) of the *Corporations Act 2001*.

On behalf of the Directors of IEL:

Douglas Clemson
Director

Miles George
Director

Sydney, 30 August 2011

INDEPENDENT AUDITOR'S REPORT

Independent auditor's report to the members of Infigen Energy Limited

Report on the financial report

We have audited the accompanying financial report of Infigen Energy Limited (the company), which comprises the statement of financial position as at 30 June 2011, and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration for the Infigen Energy Group (the consolidated entity). The consolidated entity comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

INDEPENDENT AUDITOR'S REPORT

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of Infigen Energy Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- (b) the financial report and notes also comply with International Financial Reporting Standards as disclosed in Note 1.

Report on the Remuneration Report

We have audited the remuneration report included in pages 47 to 57 of the directors' report for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion, the remuneration report of Infigen Energy Limited for the year ended 30 June 2011, complies with section 300A of the *Corporations Act 2001*.

ADDITIONAL INVESTOR INFORMATION

IMPORTANT ASPECTS OF THE US ASSETS

LLC Project Agreements – Change of Control Provisions

The limited liability company agreements (each a Project LLC Agreement) of the various Project LLCs for the US Assets provide for two levels of membership interests: Class A and Class B. The Class B Members serve as the managing members of the company.

The managing members have control over and manage the affairs of the Project LLC, but the consent of the Class A Members is required for certain material actions to be taken by the Project LLC (such as the incurrence of debt, sale of material assets, mergers, acquisitions, sale of the Project LLC or other similar actions). Transfers of membership interests are permitted subject to (a) a right of first bid procedure for the benefit of non-transferring members, (b) a prohibition against transfers to certain disqualified transferees (such as competitors of the Project LLC), (c) prior to the Reallocation Date, transfers of Class B interests require consent of a designated super-majority of the Class A interests, and (d) Class A interests may be transferred after ten years if the Reallocation Date has not been reached and distributions have failed to exceed the sum of the Class B Members' capital contributions.

A change of control in a member of a Project LLC must comply with the foregoing transfer restrictions, except that an event causing a change of control of a member's ultimate parent company does not constitute a change of control. The relevant Project LLC Agreements provide that a change purported to be made in breach of these provisions is void and that specific performance in respect of those clauses can be sought. In addition, breach of these provisions may give rise to a claim of damages.

BACK TO BACK GUARANTEES REGARDING COVENANTS IN THE PROJECT LLC AGREEMENTS

In addition, each of IEL and, in certain instances, Infigen Energy RE Limited (IERL) in its capacity as Responsible Entity of IET (together, the Guarantors) have entered into guarantees (the Back-to-Back Guarantees) in favour of Babcock & Brown International Pty Ltd and/or Babcock & Brown LP (the Beneficiaries).

The Back-to-Back Guarantees support downstream guarantees which have been given by the Beneficiaries to support the obligations of the Investment LLCs which are Class B Members of Project LLCs (that own and operate wind farm projects in the United States) in favour of the Class A Members of those Project LLCs.

BERMUDA LAW ISSUES

Incorporation: Infigen Energy (Bermuda) Limited (IEBL) is incorporated in Bermuda.

Takeovers: Unlike IEL and IET, IEBL is not subject to the sections in Chapter 6 of the Corporations Act dealing with the acquisition of shares (including substantial holdings and takeovers). Bermuda company law does not have a takeover code which effectively means that a takeover of IEBL will be regulated under Australian takeover law. However, Section 103 of the Bermuda Companies Act provides that where an offer is made for shares of a company and, within four months of the offer the holders of not less than 90% of the shares which are the subject of such offer accept, the offeror may by notice require the non-tendering shareholders to transfer their shares on the terms of the offer. Dissenting shareholders may apply to the court within one month of the notice, objecting to the transfer. The test is one of fairness to the body of the shareholders and not to individuals, and the burden is on the dissentient shareholder to prove unfairness, not merely that the scheme is open to criticism.

STAPLED SECURITIES

Each Stapled Security is made up of one IEL share, one IET unit and one IEBL share which, under each of the Constitutions and Bye-Laws respectively, are stapled together and cannot be traded or dealt with separately. In accordance with its requirements in respect of listed stapled securities, ASX reserves the right to remove any or all of IEL, IEBL and IET from the Official List if, while the stapling arrangements apply, the securities in one of these entities ceases to be stapled to the securities in the other entities or one of these entities issues securities which are not then stapled to the relevant securities in the other entities.

FURTHER INVESTOR INFORMATION

Further information required by the Australian Securities Exchange and not shown elsewhere in this Report is as detailed below. The information is current as at 21 September 2011.

ADDITIONAL INVESTOR INFORMATION

NUMBER OF STAPLED SECURITIES AND HOLDERS

One share in each of IEL and IEBL, and one unit in IET, have been stapled together to form a single IFN stapled security. The total number of IFN stapled securities on issue as at 21 September 2011 is 762,265,972 and the number of holders of these stapled securities is 25,182.

SUBSTANTIAL SECURITYHOLDERS

The names of substantial IFN securityholders who have notified IFN in accordance with section 671B of the Corporations Act 2001 are set out below.

Substantial IFN Securityholder	IFN Stapled Securities		
	Date of Notice	Number	%
The Children's Investment Fund Management (UK) LLP	16 June 2011	201,210,373	26.40
Kairos Fund Limited	5 November 2009	56,000,000	6.98
Leo Fund Managers Limited	28 May 2010	40,045,240	5.07

VOTING RIGHTS

It is generally expected that General Meetings of shareholders of IEL, shareholders of IEBL, and unitholders of IET will be held concurrently where proposed resolutions relate to all three Infigen entities. At these General Meetings of IEL, IEBL and IET the voting rights outlined below will apply.

Voting rights in relation to General Meetings of IEL and IEBL:

- on a show of hands, each shareholder of IEL and IEBL who is present in person and each other person who is present as a proxy, attorney or duly appointed corporate representative of a shareholder has one vote; and
- on a poll, each shareholder of IEL and IEBL who is present in person has one vote for each share they hold. Also each person present as a proxy, attorney or duly appointed corporate representative of a shareholder, has one vote for each share held by the shareholder that the person represents.

Voting rights in relation to General Meetings of IET:

- on a show of hands, each unitholder who is present in person and each other person who is present as a proxy, attorney or duly appointed corporate representative of a unitholder has one vote; and
- on a poll, each unitholder who is present in person has one vote for each one dollar of the value of the units in IET held by the unitholder. Also, each person present as proxy, attorney or duly appointed corporate representative of a unitholder has one vote for each one dollar of the value of the units in IET held by the unitholder that the person represents.

STAPLED SECURITIES THAT ARE RESTRICTED OR SUBJECT TO VOLUNTARY ESCROW

There are currently no IFN stapled securities which are restricted or subject to voluntary escrow.

ON-MARKET SECURITY BUY-BACK

There is no current on-market buy-back of IFN Stapled Securities.

ADDITIONAL INVESTOR INFORMATION

DISTRIBUTION OF IFN STAPLED SECURITIES

The distribution of IFN stapled securities amongst IFN securityholders as at 21 September 2011 is set out below.

Category	Securityholders	Securities
1 – 1,000	10,189	4,841,827
1,001 – 5,000	10,332	26,528,089
5,001 – 10,000	2,217	16,616,728
10,001 – 100,000	2,251	58,619,678
100,001 – and over	193	655,659,650
Total	25,182	762,265,972

As at 21 September 2011, the number of securityholders holding less than a marketable parcel of IFN stapled securities was 15,016.

TWENTY LARGEST IFN SECURITYHOLDERS

The 20 largest IFN securityholders as at 21 September 2011 are set out below.

Rank	IFN Securityholder	IFN Stapled Securities Held	
		Number	Percentage
1	HSBC Custody Nominees (Australia) Limited	277,213,087	36.37%
2	HSBC Custody Nominees (Australia) Limited – A/C 3	58,566,533	7.68%
3	HSBC Custody Nominees (Australia) Limited – GSCO ECA	58,305,959	7.65%
4	National Nominees Limited	54,534,445	7.15%
5	Citicorp Nominees Pty Limited	39,032,094	5.12%
6	J P Morgan Nominees Australia Limited	35,564,299	4.67%

18/08/2011	FY11 Provisional Results
30/08/2011	FY11 Preliminary Final Report

The above list does not include all announcements made to the ASX. A comprehensive list and full details of all publications can be found on the Infigen website: www.infigenenergy.com, and the ASX website: www.asx.com.au.

GLOSSARY

ASX	Australian Securities Exchange Limited (ABN 98 008 624 691) or Australian Securities Exchange as the context requires
CAPACITY	The maximum power that a wind turbine can safely produce or handle
CAPACITY FACTOR	A measure of the productivity of a wind turbine, calculated by the amount of power that a wind turbine produces over a set time period, divided by the amount of power that would have been produced if the turbine had been running at full capacity during that same time interval
CARBON PRICE REGIME	Policy proposed by the Australian Government under the Clean Energy Future Climate Change Plan, which encompasses a carbon pricing mechanism of \$23 per tonne commencing on 1 July 2012
CCGT	Combined Cycle Gas Turbine
CLASS A MEMBERS	Holders of Class A membership interests in Institutional Equity Partnerships (IEPs) in relation to the US wind farms
CLASS A MEMBERSHIP INTERESTS	The interests held by Class A members which have varying economic entitlements (tax allocations and cash distributions) depending on the age of the US wind farms
CLASS B MEMBERS	Holders of Class B membership interests in Institutional Equity Partnerships (IEPs) in relation to the US wind farms
CLASS B MEMBERSHIP INTERESTS	The interests held by Class B members which have varying economic entitlements depending on the age of the US wind farms
CO ₂	Carbon dioxide
CO ₂ -e	Carbon dioxide equivalent
DISTRIBUTIONS	Distributions of cash made by Infigen to securityholders in respect of their stapled securities
DRP	Distribution Reinvestment Plan
EBITDA	Earnings before interest, taxes, depreciation and amortisation
FINANCIAL YEAR	A period of 12 months starting on 1 July and ending on 30 June in the next calendar year
GHG	Greenhouse gases
GRID	The network of power lines and associated equipment required to deliver electricity from generators to consumers, also termed 'transmission system'
GW	Gigawatt. One billion Watts of electricity
GWEC	Global Wind Energy Council
GWH	Gigawatt hour
HIN	Holder Identification Number
IEA	International Energy Agency
IEBL	Infigen Energy (Bermuda) Limited (ARBN 116 360 715)
IEL	Infigen Energy Limited (ABN 39 105 051 616)
IERL	Infigen Energy RE Limited (ACN 113 813 997) (AFSL 290 710), the responsible entity of IET
IET	Infigen Energy Trust (ARSN 116 244 118)
IFN	The code allocated by the ASX for the trading of listed IFN stapled securities on the ASX

GLOSSARY

INFIGEN	Infigen Energy, comprising IEL, IEBL, IET and their respective subsidiary entities from time to time
INFIGEN ASSET MANAGEMENT	Infigen's US asset management business
LGC	Large-scale Generation Certificate, also known as Large-scale REC. The certificates are created by renewable energy generators and represent 1 MWh of renewable generation
LLC	Limited liability companies formed under US law
LLC AGREEMENT	A limited liability company agreement between the members of an LLC
LONG TERM MEAN ELECTRICITY PRODUCTION	See P50
LRET	Large-scale Renewable Energy Target – which came into force on 1 January 2011. The rate of liability for LRET is established by the Renewable Power Percentage (RPP), which is used to determine how many LGCs need to be surrendered each year. The RPP for the 2011 calendar year is 5.62%. It is equivalent to 10.6 million LGCs and represents a proportion of total estimated Australian electricity consumption for the 2011 year.
MW	Megawatt. One million Watts of electricity
MWh	Megawatt hour
OCC	Operations Control Centre, a centrally located business function within Infigen that monitors and directs the operations of Infigen's wind farms
P50	The best estimate of electricity production in a year where there is a 50% probability that a given level of electricity production will be exceeded in any year. This may also be referred to as Long Term Mean Electricity Production
PPA	Power Purchase Agreement
PRACTICAL COMPLETION	The date on which construction has been completed in accordance with the respective delivery contract(s), typically including all regulatory requirements
PRE-COMMISSIONING	Operation of the wind farm prior to practical completion, during which all aspects are tested for performance against specified criteria
PTC	Production Tax Credit: the result of the US Energy Policy Act of 1992, a tax credit that applies to wholesale electrical generators of wind energy facilities based upon the amount of electricity generated in a year
REALLOCATION DATE	The date on which tax benefits and cash distributions are shared between the Class A Members and the Class B Members, being a date which occurs when the Class A Members' target return has been achieved
REC	Renewable Energy Certificate
RPP	Renewable Power Percentage, being an annual target set by the Office of Renewable Energy Regulator designed to achieve the target of 20% electricity consumption in Australia by 2020 from renewable sources
RPS	Renewable Portfolio Standards. These programs apply for 37 US states, and are based on a fixed quantity system whereby a renewable energy generator such as a wind farm is issued with renewable energy certificates which can be onsold to energy retailers who are required to surrender them to a state based regulator. For more information visit: www.epa.gov
SECURITYHOLDER	The registered holder of an IFN stapled security

GLOSSARY

SOLAR PV	Solar Photovoltaic
STAPLED SECURITY	One unit in IET, one ordinary share in IEL and one ordinary share in IEBL, stapled together to form an IFN stapled security such that the unit and those shares cannot be traded or dealt with separately
UNIT	An ordinary unit in IET
UNITHOLDER	The registered holder of a Unit
WTG	Wind turbine generator

Infigen Energy Notice of Annual General Meetings

Friday, 11 November 2011
Treasury Room, InterContinental Sydney Hotel,
117 Macquarie Street, Sydney

NOTICE OF ANNUAL GENERAL MEETINGS

Notice of

the Annual General Meeting of shareholders of Infigen Energy Limited (ABN 39 105 051 616) (**Company**)

and

the Annual General Meeting of shareholders of Infigen Energy (Bermuda) Limited (ARBN 116 360 715) (**Foreign Company**)

and

a meeting of unitholders of Infigen Energy Trust (ARSN 116 244 118) (**Trust**)

issued by the Company, the Foreign Company and Infigen Energy RE Limited (**Responsible Entity**) (ABN 61 113 813 997; AFSL 290 710) as Responsible Entity of the Trust

(together, the Company, the Foreign Company and the Trust, **Infigen Energy**).

Notice is given that the 2011 Annual General Meetings of the shareholders of the Company and the Foreign Company will be held concurrently with a meeting of unitholders of the Trust as follows:

Time: 11am (AEDT)

Date: Friday, 11 November 2011

Place: Treasury Room, InterContinental Sydney Hotel, 117 Macquarie Street, Sydney

NOTICE OF ANNUAL GENERAL MEETINGS

ITEMS OF BUSINESS

ORDINARY BUSINESS

Item 1: Financial Report – Company, Foreign Company and Trust

To receive and consider the combined consolidated financial report of Infigen Energy and the separate financial report of the Trust, as well as the respective reports of the Directors and Auditor for the year ended 30 June 2011.

There is no vote on this item.

Item 2: Remuneration Report – Company only

To adopt the Remuneration Report for the year ended 30 June 2011. The Remuneration Report is set out in the Directors' Report included within the Infigen Energy Annual Report 2011.

This is a non-binding advisory vote.

Item 3: Director Election – Company and Foreign Company only

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of the Company and Foreign Company:

That Philip Green, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers himself for election, is elected as a Director of the Company and Foreign Company.

Item 4: Director Election – Company and Foreign Company only

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of the Company and Foreign Company:

That Fiona Harris, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers herself for election, is elected as a Director of the Company and Foreign Company.

Item 5: Director Election – Company and Foreign Company only

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of the Company and Foreign Company:

That Ross Rolfe, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers himself for election, is elected as a Director of the Company and Foreign Company.

SPECIAL BUSINESS

Item 6: Approval of the Infigen Energy Equity Plan – Company, Foreign Company and Trust

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of each of the Company and the Foreign Company, and the unitholders of the Trust:

That approval is given for all purposes under the Corporations Act and the Listing Rules of the Australian Securities Exchange for:

- (a) the Infigen Energy Equity Plan (**Equity Plan**) and for the provision of incentives to senior executives that the Board of the Company determines to be eligible to participate in the Equity Plan (**Participants**);*
- (b) the grant of performance rights, options or security appreciation rights (**Awards**), and any subsequent issue or transfer of stapled securities or payments in respect of such Awards to Participants under the Equity Plan; and*
- (c) the provision of benefits to those Participants under the Equity Plan,*

as described in the Explanatory Notes accompanying this Notice.

Item 7: Participation in the Infigen Energy Equity Plan by Mr Miles George – Company, Foreign Company and Trust

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of each of the Company and the Foreign Company, and the unitholders of the Trust:

That approval is given for all purposes under the Corporations Act and the Listing Rules of the Australian Securities Exchange for:

- (a) the issue to Mr Miles George, Managing Director of the Company, of up to 917,374 performance rights under the Infigen Energy Equity Plan (**Equity Plan**); and*
- (b) the issue or transfer of, and acquisition accordingly by Mr George of, stapled securities in respect of those performance rights, all in accordance with the terms of the Equity Plan and on the basis described in the Explanatory Notes accompanying this Notice.*

NOTICE OF ANNUAL GENERAL MEETINGS

ITEMS OF BUSINESS

Item 8: Approval of benefits under the 2009 PR&O Plan – Company, Foreign Company and Trust

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of each of the Company and the Foreign Company, and the unitholders of the Trust:

That approval is given for the purposes of sections 200B and 200E of the Corporations Act for the giving of benefits under the 2009 Infigen Energy Performance Rights and Options Plan (PR&O Plan) to any current participant in the plan in connection with such person ceasing to hold office or a position of employment with the Infigen Energy Group as described in the Explanatory Notes accompanying this Notice.

Item 9: Re-appointment of Auditor – Foreign Company only

To consider and, if thought fit, to pass the following as an ordinary resolution of the shareholders of the Foreign Company:

That PricewaterhouseCoopers, being the current Auditor of the Foreign Company, be re-appointed as Auditor of the Foreign Company to hold office until the close of the next Annual General Meeting of the Foreign Company at a fee to be determined by the Directors.

NOTICE OF ANNUAL GENERAL MEETINGS

VOTING EXCLUSION STATEMENT

VOTING EXCLUSION STATEMENT

In accordance with section 253E of the Corporations Act, the Responsible Entity and its associates are not entitled to vote their interest on any resolution at a meeting of unitholders of the Trust if they have an interest in the resolution or matter other than as a member of the Trust.

Item 2

In relation to Item 2, a vote must not be cast (in any capacity) by or on behalf of key management personnel (including the Directors), details of whose remuneration are included in the Remuneration Report (**KMP**) or their closely related parties, whether as a Securityholder or as a proxy. However, a vote may be cast on Item 2 by a KMP, or a closely related party of a KMP, if the vote is cast as a proxy appointed in writing that specifies how the proxy is to vote on Item 2 and the vote is not cast on behalf of a KMP or a closely related party of a KMP.

If the Chairman of the Meetings is your proxy or is appointed your proxy by default, and you do not direct your proxy to vote "for", "against" or "abstain" on Item 2 on the proxy form, you are directing the Chairman of the Meetings to vote in favour of Item 2 even if that item is connected directly or indirectly with the remuneration of a member of the KMP.

Item 6 and Item 7

In relation to Item 6 and Item 7, the Company, the Foreign Company and the Responsible Entity will disregard any votes cast by:

- a director of the Company, the Foreign Company or the Responsible Entity (except one who is ineligible to participate in any employee incentive scheme in relation to the Company, the Foreign Company and the Responsible Entity); and
- an associate of a director of the Company, the Foreign Company or the Responsible Entity (except an associate of a director who is ineligible to participate in any employee incentive scheme in relation to the Company, the Foreign Company and the Responsible Entity).

Mr George is the only director of the Company, the Foreign Company or the Responsible Entity who is eligible to participate in any employee incentive scheme relating to such entities and whose vote is required to be disregarded in relation to Item 6 and Item 7.

However, the Company, the Foreign Company and the Responsible Entity need not disregard a vote if:

- it is cast by a person identified above as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form; or
- it is cast by the person chairing the meetings as proxy for a person who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

Further, a vote must not be cast on Item 6 and/or Item 7 by a KMP, or a closely related party of a KMP, acting as proxy, if their appointment does not specify the way the proxy is to vote on Item 6 and/or Item 7. However, this voting exclusion does not apply if the KMP is the Chairman of the Meetings acting as proxy and their appointment expressly authorises the Chairman of the Meetings to exercise the proxy even if that item is connected directly or indirectly with the remuneration of a member of the KMP.

If you appoint the Chairman of the Meetings as your proxy, and you do not direct your proxy how to vote in respect of Item 6 and/or Item 7 on the proxy form, you will be expressly authorising the Chairman of the Meetings to exercise your proxy even if Item 6 and/or Item 7 is connected directly or indirectly with the remuneration of a member of the KMP.

The Chairman of the Meetings intends to vote undirected proxies in favour of Item 6 and Item 7.

NOTICE OF ANNUAL GENERAL MEETINGS VOTING EXCLUSION STATEMENT

Item 8

In relation to Item 8, a vote must not be cast (in any capacity) by or on behalf of a current participant in the PR&O Plan, or their associates, whether as a Securityholder or as a proxy. However, a vote may be cast on Item 8 by a current participant, or their associate, if the vote is cast as a proxy appointed in writing that specifies how the proxy is to vote on Item 8 and the vote is not cast on behalf of the current participant or an associate of such participant.

Further, a vote must not be cast on Item 8 by a KMP, or a closely related party of a KMP, acting as proxy, if their appointment does not specify the way the proxy is to vote on Item 8. However, this voting exclusion does not apply if the KMP is the Chairman of the Meetings acting as proxy and their appointment expressly authorises the Chairman of the Meetings to exercise the proxy even if that item is connected directly or indirectly with the remuneration of a member of the KMP.

If you appoint the Chairman of the Meetings as your proxy, and you do not direct your proxy how to vote in respect of Item 8 on the proxy form, you will be expressly authorising the Chairman of the Meetings to exercise your proxy even if Item 8 is connected directly or indirectly with the remuneration of a member of the KMP.

The Chairman of the Meetings intends to vote undirected proxies in favour of Item 8.

By order of the Boards of Infigen Energy.

Dated: 1 October 2011

David Richardson

Company Secretary
Infigen Energy

NOTICE OF ANNUAL GENERAL MEETINGS NOTES

NOTES:

1. In this notice:
 - **Infigen Energy Group** means the Company and each of its body corporates that is a subsidiary of the Company, the Foreign Company and each controlled entity of the Foreign Company, and the Trust and each sub-trust of the Trust.
 - **Securityholders** means the shareholders of the Company and the Foreign Company and the unitholders of the Trust.
 2. On a show of hands, every person present and qualified to vote has one vote and if one proxy has been appointed, that proxy will have one vote on a show of hands. Under the Corporations Act, if a Securityholder appoints more than one proxy, neither proxy may vote on a show of hands, but both proxies will be entitled to vote on a poll.
 3. On a poll:
 - in the case of a resolution of the Company or the Foreign Company, each Securityholder present in person has one vote for each share they hold. Also each person present as a proxy, attorney or duly appointed corporate representative of a Securityholder, has one vote for each share held by the Securityholder that the person represents; and
 - in the case of a resolution of the Trust, each Securityholder present in person has one vote for each one dollar of the value of the units in the Trust held by the Securityholder. Also, each person present as a proxy, attorney or duly appointed corporate representative of a Securityholder has one vote for each one dollar of the value of the units in the Trust held by the Securityholder that the person represents.
 4. A Securityholder entitled to attend and vote is entitled to appoint not more than two proxies. If it is desired to appoint two proxies, then an additional proxy form can be obtained from Infigen Energy's security registry by telephoning +61 2 8280 7180.
 5. Where more than one proxy is appointed, each proxy may be appointed to represent a specified proportion or number of the Securityholder's voting rights.
 6. A proxy need not be a Securityholder and may be an individual or body corporate.
 7. Proxy forms (and if the appointment is signed by the appointor's attorney, the original authority under which the appointment was signed or a certified copy of the authority) must be received by Infigen Energy's security registry Link Market Services:
 - by mail to Locked Bag A14, Sydney South NSW 1235; or
 - by hand to Level 12, 680 George Street, Sydney NSW 2000; or
 - by fax to +61 2 9287 0309.Alternatively, if a proxy is not appointed under a power of attorney, proxy forms may also be lodged online at the Company's website www.infigenenergy.com in accordance with the instructions provided on the website. You will need your Holder Identification Number (HIN) or Security Reference Number (SRN), and your postcode, as shown on your proxy form. You will be taken to have signed the proxy form if you lodge it in accordance with the instructions provided on the website.
- All proxies must be received prior to 11am (AEDT) on Wednesday, 9 November 2011.**
8. The Board of the Company, the Board of the Foreign Company and the Board of the Responsible Entity of the Trust have determined that, for the purposes of the meetings, shares and units will be taken to be held by the persons who are registered as Securityholders as at 7pm (AEDT) on Wednesday, 9 November 2011. Accordingly, transfers of Stapled Securities registered after that time will be disregarded in determining entitlement to attend and vote at the meetings.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

EXPLANATORY NOTES

These explanatory notes are intended to provide Securityholders with information to assess the merits of the resolutions contained in the accompanying Notice of Meetings.

The Directors recommend that Securityholders read these explanatory notes in full before making any decision on how to vote on the resolutions.

A reference to a **Stapled Security** is a reference to one share in the Company, one share in the Foreign Company and one unit in the Trust that are stapled together to form a single security and must be traded and otherwise dealt with as a single security.

ORDINARY BUSINESS

Item 1: Financial Report – Company, Foreign Company and Trust

The Company has distributed both the Infigen Energy Annual Report 2011 and the Trust Annual Financial Report 2011 (**Annual Reports**) to Securityholders. The financial reports, as well as the Directors' and Auditor's reports, are included within these Annual Reports. The Annual Reports are both available at Infigen Energy's website: www.infigenenergy.com.

Securityholders do not vote on the financial reports and the Directors' and Auditor's reports. However, an opportunity for Securityholders to discuss the financial and other reports will be provided at the meetings.

Item 2: To adopt the Remuneration Report – Company only

Securityholders are asked to consider and adopt the Remuneration Report of the Company by way of a non-binding resolution. The Remuneration Report is set out in the Directors' Report included within the Infigen Energy Annual Report 2011 and is also available from the Company's website: www.infigenenergy.com.

Under recent changes to the Corporations Act, if at least 25% of the votes cast on the resolution at the AGM are against the adoption of the Remuneration Report, then:

- if comments are made on the report at the meeting, the Company's Remuneration Report for the financial year ending 30 June 2012 will be required to include an explanation of the Board of the Company's proposed action in response or, if no action is proposed, the Board of the Company's reasons for this; and
- if, at the Company's 2012 AGM, at least 25% of the votes cast on the resolution for adoption of the Remuneration Report for the financial year ending 30 June 2012 are against its adoption, the Company will be required to put to Securityholders a resolution proposing that a general meeting (**Spill Meeting**) be called to consider the election of directors of the Company (**Spill Resolution**). For any Spill Resolution to be passed, more than 50% of the votes cast on the resolution must be in favour of it. If a Spill Resolution is passed, all of the directors of the Company at the time the Remuneration Report was considered at the 2012 AGM (other than the Managing Director) will cease to hold office immediately before the end of the Spill Meeting unless re-elected at that meeting.

An opportunity to discuss the Remuneration Report will be provided at the meeting.

Since the internalisation of management of the Company and its transition to a standalone operating business, the directors of the Company have continued to align key executive and senior management (**senior management**) pay with Securityholder interests.

The alignment of senior management remuneration with Securityholder interests meant that there was again no vesting or payout during the year for any Long Term Incentives (**LTI**) granted under the Performance Rights and Options (PR&O) plan. Short Term Incentive (**STI**) payments have been reduced. Senior management base salaries were not increased in FY11. Non-Executive Directors' fees have been held constant. Senior management numbers were reduced.

Progress has been made towards embedding a performance-based culture. Performance reviews link incentives to key financial, strategic and operational performance indicators.

The Company believes that providing a material part of senior management remuneration with the potential to acquire Stapled Securities is appropriate. Securityholder and senior management interests are better aligned. But the Company is also mindful of dilution. Fewer equity-related awards were made in FY11 than in prior years.

Equity-related awards made to senior managers are reported as part of KMP remuneration, and expensed. The amount reported remains wholly at risk, is deferred for 3-4 years and has vesting dependent on the performance of the Infigen Energy Group. This statutory reporting means that KMP's reported remuneration will often significantly exceed what was actually received. Supplementary commentary and tables have been provided in this year's Remuneration Report to provide a clearer explanation of KMP's "take-home pay" in addition to the statutory disclosures.

The Board of the Company has resolved to change the variable pay components for FY12 with some rebalancing of long and short term incentive elements. In FY12 up to half of any senior management STI payment will be deferred and awarded as performance rights under the Equity Plan and will not vest for a 12 month period subject to the rules of the Equity Plan. This deferral and award as performance rights will provide further alignment between senior management remuneration and Securityholder interests.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

The FY11 STI payments that were awarded to KMP and senior managers prior to the Annual General Meeting are set out in the table below. These payments were awarded after the release of the Financial Report dated 30 August 2011 which contained details of the FY10 STI payments. Most FY11 STI payments were significantly less than the prior year payments.

Executive	Performance Year	STI Payment
M George	FY11	\$180,000
	FY10	\$224,180
G Dutailis	FY11	\$100,000
	FY10	\$148,185
D Richardson	FY11	\$62,826
	FY10	\$58,725
B Hopwood	FY11	\$67,000
	FY10	\$82,649
D Griffin	FY11	\$63,617
	FY10	\$81,091
C Baveystock	FY11	\$35,000
	FY10	na

The vote on the Remuneration Report is advisory only. The Directors will, however, take into account the discussion on this resolution at the AGM and the outcome of the vote when considering the future remuneration arrangements of Directors and senior management.

The Directors recommend the adoption of the Remuneration Report.

Item 3: Director Election – Company and Foreign Company only

Philip Green, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers himself for election.

Philip was originally appointed to the Board of the Company and the Board of the Foreign Company on 18 November 2010. Philip is a member of the Audit, Risk & Compliance Committee.

Philip is a Partner of The Children's Investment Fund Management (UK) LLP (TCI), a substantial Securityholder of the Infigen Energy Group. Philip joined TCI in 2007 and his responsibilities include TCI's global utility, renewable energy and infrastructure investments.

Prior to joining TCI, Philip led European Utilities equity research at Goldman Sachs, Merrill Lynch and Lehman Brothers over a 12 year period. Philip is a UK Chartered Accountant (ACA) and has a Bachelor of Science (Hons) in Geotechnical Engineering.

The Directors of the Boards of the Company and Foreign Company (with Philip Green abstaining) recommend that Securityholders vote in favour of electing Philip Green as a Director of the Company and Foreign Company.

Item 4: Director Election – Company and Foreign Company only

Fiona Harris, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers herself for election.

Fiona was originally appointed to the Board of the Company and the Board of the Foreign Company on 21 June 2011. Fiona is a member of both the Audit, Risk & Compliance Committee and the Nomination & Remuneration Committee.

Fiona is Chairman of Barrington Consulting Group and National Director of the Australian Institute of Company Directors. For the past sixteen years Fiona has been a professional non-executive director. Fiona is currently a Director of Altona Mining Limited, Aurora Oil & Gas Limited and Sundance Resources Limited.

Fiona holds a Bachelor of Commerce degree and is a Fellow of the Institute of Chartered Accountants in Australia and the Australian Institute of Company Directors.

The Directors of the Boards of the Company and Foreign Company (with Fiona Harris abstaining) recommend that Securityholders vote in favour of electing Fiona Harris as a Director of the Company and Foreign Company.

NOTICE OF ANNUAL GENERAL MEETINGS EXPLANATORY NOTES

Item 5: Director Election – Company and Foreign Company only

Ross Rolfe AO, who has been appointed by the Directors of the Company and the Foreign Company in accordance with article 10.8 of the Constitution of the Company and bye-law 12.8 of the Bye-Laws of the Foreign Company, and being eligible offers himself for election.

Ross was originally appointed to the Board of the Company and the Board of the Foreign Company on 9 September 2011. Ross has broad experience in the Australian energy and infrastructure sectors in senior management, government and strategic roles.

In August 2008 Ross was appointed to the position of Acting Chief Executive Officer of Babcock & Brown Power (renamed Alinta Energy in 2009) and subsequently appointed on a permanent basis to the position of Chief Executive Officer and Managing Director in December 2008. Alinta Energy had interests in ten power stations and served 600,000 retail gas and electricity customers in Victoria and Western Australia. Ross completed a capital restructuring of the business and stepped down from the CEO and MD role in April 2011.

Prior to that appointment, Ross held the positions of Director General (DG) – Department of the Premier and Cabinet, DG – Department of State Development and DG – Department of Environment & Heritage with the Queensland Government. Ross also held the position of Co-ordinator General in Queensland for six years. Ross was also the Chief Executive Officer of Stanwell Corporation, one of Queensland's largest energy generation companies from 2001 until 2005.

Ross is currently a Non-Executive Director of WDS Limited and Thiess Pty Ltd. Ross is the Deputy Chair of the Finance Committee of Infrastructure Australia and he is also a member of the Commonwealth Government's Energy White Paper Reference Group. Ross has had significant other Board experience including a Director of Infrastructure Australia, a Director of Infrastructure Partnerships Australia, the chairmanship of Queensland Manufacturing Institute and Construction Queensland, and directorships of the Queensland Low Emissions Technology Centre, Emu Downs Wind Farm, Queensland Resources Council and Southbank Corporation. Ross is also a former member of the University of Queensland Senate.

The Directors of the Boards of the Company and Foreign Company (with Ross Rolfe abstaining) recommend that Securityholders vote in favour of electing Ross Rolfe as a Director of the Company and Foreign Company.

SPECIAL BUSINESS

Item 6: Approval of the Infigen Energy Equity Plan – Company, Foreign Company and Trust

Requirement for approval

The primary reason for seeking Securityholder approval of the Equity Plan relates to the requirements of ASX Listing Rule 7.1 and the Corporations Act Part 2J.3 as described below.

ASX Listing Rule 7.1

Listing Rule 7.1 requires Securityholder approval for an issue of equity securities if, over a 12 month period, the amount of equity securities issued is more than 15% of the number of ordinary securities on issue at the start of that 12 month period. Listing Rule 7.2 exception 9 provides that an issue under an employee incentive scheme does not detract from the available 15% limit under Listing Rule 7.1 if Securityholders approved the issue of securities under an employee incentive scheme as an exception to Listing Rule 7.1 no more than three years before the date of issue.

The Infigen Energy Group last received approval for its equity plan (then called the PR&O Plan) in April 2009. Since this approval a total of 7,084,217 performance rights and 16,868,935 options have been granted under the PR&O Plan. None of these performance rights or options have vested.

If this resolution is passed, the issue of securities under the Equity Plan will not be taken into account when undertaking the calculation of the limit pursuant to Listing Rule 7.1. If this resolution is not passed, the issue of securities under the Equity Plan will be taken into account when determining the 15% limit on securities which may be issued without further Securityholder approval.

Corporations Act Part 2J.3 – Financial Assistance

Securityholder approval is also sought by the Company for the purposes of the provision of financial assistance to Equity Plan participants under section 260 of the Corporations Act.

In granting Awards to participants under the Equity Plan, the Company may be deemed to be providing financial assistance to participants or to the Equity Plan Trustee or a Equity Plan Company to acquire shares in the Company. Under section 260C(4) of the Corporations Act, the Company may provide such financial assistance under an employee share scheme approved by the Company and its relevant subsidiaries in a general meeting.

The Company therefore also seeks approval of the Equity Plan to ensure it may provide financial assistance to participants, an Equity Plan Trustee or Equity Plan Company under the Equity Plan.

The Directors of the Boards of the Company, the Foreign Company and the Responsible Entity (with Mr George abstaining) recommend that Securityholders vote in favour of this resolution.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

Infigen Energy Equity Plan

The Company has reviewed its remuneration policy with input from an independent remuneration adviser.

As a result the Company has amended the Performance Rights and Options Plan (**PR&O Plan**) previously approved by Securityholders in April 2009. The amendments will apply to any Awards made from and after 1 July 2011. The changes will further improve the effectiveness of long term incentive arrangements in aligning senior management remuneration with Securityholder interests. The amended plan is known as the Infigen Energy Equity Plan (**Equity Plan**).

A summary of the Equity Plan is set out in Annexure A to this Notice of General Meetings. That summary sets out the general terms of the Equity Plan. A grant of performance rights, options or security appreciation rights (**Awards**) under the Equity Plan is subject to the rules of the Equity Plan and the terms of the specific award.

The Equity Plan will allow the grant of Awards to senior management of the Infigen Energy Group. Any Awards granted to senior management under the Equity Plan are "at risk". They will only vest if the terms and conditions, including performance hurdles, set out in the relevant Award are satisfied, unless the Board exercises its discretion to accelerate vesting in certain limited circumstances. The circumstances in which the Board has discretion to accelerate vesting are set out in paragraph 12 of Annexure A to this Notice of General Meetings.

The granting of Awards under the Equity Plan will be conditional upon the Company obtaining relief from certain disclosure and licensing requirements under the Corporations Act from the Australian Securities and Investments Commission (ASIC). Such relief was previously provided for the PR&O Plan and the Company is applying for new relief given the amendments made to this plan.

Item 7: Participation in the Infigen Energy Equity Plan by Mr Miles George – Company, Foreign Company and Trust

Approval is sought for the grant of performance rights under the Equity Plan to the Managing Director, Mr George, as part of his FY12 remuneration package.

Level of participation in the Equity Plan

The level of participation offered to Mr George in respect of FY12 under the Equity Plan has been determined with reference to market practice, the Company's remuneration policy and his current employment contract.

Mr George will, subject to Securityholder approval, be eligible to receive an award under the Equity Plan that is on the same terms as LTI awards made to other senior managers for FY12.

Under the FY12 Equity Plan award, Mr George is eligible to receive a maximum of 917,374 performance rights, dependent upon the achievement of the TSR and Operational Performance conditions over the measurement period (see further discussion below). This award is for performance rights with a market value of \$293,000 as at 1 July 2011 assuming all performance conditions are ultimately satisfied and all 917,374 performance rights ultimately vest. This market value has been determined using the volume weighted average ASX market price of Stapled Securities in the last five trading days of the financial year ended 30 June 2011 of \$0.31939 multiplied by the 917,374 performance rights.

Current remuneration of Mr George

The table below sets out the estimated remuneration of Mr George for FY12 as set by the Nomination & Remuneration Committee. The estimated remuneration is based on information available to the Infigen Energy Group at the time of preparing the Notice of Meetings. The actual remuneration may differ based on achievement of Key Performance Indicators and other performance hurdles included within the STI and LTI plans, and will be reported in the Infigen Energy Group's subsequent Annual Reports.

Remuneration categories	FY12 remuneration
Fixed remuneration (inclusive of statutory superannuation)	\$585,000
Maximum short-term incentive opportunity (up to 50% of any STI award will be deferred under the rules of the Company's STI plan)	\$702,000
Long-term incentive opportunity	\$293,000

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

Performance conditions of proposed awards under the Equity Plan in respect of FY12

1. If the proposed award is approved by Securityholders, performance rights will be awarded to the Managing Director in two tranches of equal value (**Tranche 1** and **Tranche 2**).
2. The measures used to determine performance and the subsequent vesting of performance rights are Total Shareholder Return (**TSR**) and an operational performance condition involving earnings before interest, taxes, depreciation and amortisation (**EBITDA**). The vesting of Tranche 1 of the performance rights will be subject to the TSR condition, while Tranche 2 of the performance rights will be subject to the Operational Performance condition.
3. The performance period for both Tranche 1 (TSR condition) and Tranche 2 (Operational Performance condition) will be a 3 year period from 1 July 2011 to 30 June 2014.
4. **TSR condition** (applicable to Tranche 1 performance rights) – TSR measures the growth in the price of securities plus cash distributions notionally reinvested in securities. In order for any of the Tranche 1 performance rights to vest, the TSR of Stapled Securities must outperform that of the median company in the S&P/ASX 200 (excluding financial services and the materials/resources sector). The vesting scale that applies to FY12 Tranche 1 performance rights has been varied in comparison to previous awards so that fewer performance rights vest for achievement of the median TSR performance, and higher performance is required for 100% to vest.
5. For the purpose of calculating the TSR measurement, the security prices of each company in the S&P/ASX 200 (as modified above) and of the Infigen Energy Group will be averaged over the 30 trading days preceding the start and end date of the performance period. The percentage of the Tranche 1 performance rights that vest will be as follows:

IFN's TSR performance compared to the relevant peer group	Percentage of Tranche 1 performance rights that vest
0 to 49th percentile	Nil
50th percentile	25%
51st to 75th percentile	27% – 75% (i.e. for every percentile increase between 51% and 75% an additional 2% of the Tranche 1 award will vest)
76th to 95th percentile	76.25% – 100% (i.e. for every percentile increase between 76% and 95% an additional 1.25% of the Tranche 1 award will vest)

6. **Operational Performance condition** (applicable to Tranche 2 performance rights) – the vesting of the Tranche 2 performance rights will be subject to an Operational Performance condition set by the Board of the Company. An EBITDA growth requirement is to be established annually by the Board of the Company. This requirement will be a stretch goal. The EBITDA performance will be measured relative to the Infigen Energy Group's Capital Base. The annual EBITDA performance target will be a specified percentage increase in the ratio of EBITDA to the Infigen Energy Group's Capital Base over the year. The Capital Base will be measured as equity (net assets) plus net debt. Both the EBITDA and Capital Base will be measured on a proportionately consolidated basis to reflect the Infigen Energy Group's economic interest in all investments. Any shortfall or overachievement in each year of the three year performance period will be rolled over into the calculation of results for the next year. At the completion of the annual measurement periods the EBITDA requirement will provide a cumulative performance hurdle of which at least 90% must be achieved in order for any vesting of Tranche 2 performance rights to occur.

The annual EBITDA performance target for FY12 has been set to reflect the performance expectations of the group's business and prevailing market conditions. The annual target for each subsequent financial year will be established by the Board of the Company no later than the time of the release of the Infigen Energy Group's annual financial results for the preceding financial year.

The prospective targets remain confidential. However each year's target, and the performance against that target, will be disclosed retrospectively in the Remuneration Report.

The EBITDA/Capital Base performance condition rewards senior management for sustaining and delivering capital efficiency performance over an extended period.

The vesting scale for the FY12 Tranche 2 performance rights is set out in the table below:

IFN's EBITDA Performance	Percentage of Tranche 2 performance rights that vest
90% to 110% of the cumulative target	5% to 100% (i.e. for every 1% increase between 90 and 110% of target an additional 5% of the Tranche 2 award will vest)

This vesting scale has been varied in comparison to previous awards so that performance rights vest within a range of achievement against target compared to previous awards that were subject to cliff vesting on an all or nothing basis. The revised vesting scale reduces risk and ensures that pay is more variable and aligned with performance outcomes.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

7. Any performance rights that do not vest following the measurement of performance against the TSR and Operational Performance conditions described above will be subject to a single retest 4 years after the commencement of the relevant performance period (ie. after 30 June 2015). Any performance rights that do not vest in year 4 will then lapse.
8. The Board of the Company has discretion to accelerate the vesting of all or part of any unvested Award in the circumstances described in paragraph 12 of Annexure A to this Notice of General Meetings.
9. The rules of the Equity Plan relating to the lapse of unvested Awards and the circumstances in which a participant who ceases employment is entitled to retain their unvested Awards are summarised in paragraphs 13 and 14 respectively of Annexure A to this Notice of General Meetings.

Requirement for approval

Under Listing Rule 10.14, a director of a listed entity can only acquire securities under an employee incentive scheme with Securityholder approval. The proposed award to the Managing Director, Mr George, under the Equity Plan in respect of FY12, is part of the overall remuneration and benefits package offered to Mr George and is subject to Securityholder approval. In accordance with the requirements of the Listing Rules, the following information is provided to Securityholders:

1. At the conclusion of the performance period, each performance right that vests will translate into one Stapled Security. Accordingly, Securityholder approval under Item 7 is sought for the acquisition of a maximum of 917,374 Stapled Securities by Mr George.
2. Mr George will not be required to pay any amount on the grant or vesting of his performance rights.
3. Mr George will be prohibited from entering into hedging arrangements or transactions that will limit or reduce exposure to economic risk of holding unvested performance rights.
4. The proposed grant of performance rights to Mr George will be made as soon as practicable after Securityholder approval and the required relief from ASIC is obtained, and in any event no later than 12 months after this meeting.
5. No loan will be made by the Infigen Energy Group in connection with the potential grant of performance rights or Stapled Securities to Mr George.
6. Mr George is currently the only director of the Company, Foreign Company or Responsible Entity entitled to receive a grant of Awards under the Equity Plan.

The Directors of the Boards of the Company, the Foreign Company and the Responsible Entity (with Mr George abstaining) recommend that Securityholders vote in favour of this resolution.

Item 8: Approval of benefits under the Performance Rights and Options Plan – Company, Foreign Company and Trust

Why is approval being sought?

The PR&O Plan was previously approved by Securityholders at the General Meetings held on 29 April 2009. This included approval for potential retirement benefits under the PR&O Plan for the purposes of section 200B of the Corporations Act.

Given the amendments to the retirement benefit provisions of the Corporations Act in 2009, the Board of the Company considers it prudent to confirm the approval of retirement benefits potentially available to current participants in the PR&O Plan who hold a managerial or executive office in the Infigen Energy Group.

Section 200B of the Corporations Act prevents a company from giving a person a benefit in connection with a person ceasing to hold a "managerial or executive office" (as defined in the Corporations Act) in the company or its related bodies corporate unless securityholder approval is given or an exemption applies.

Section 200B and the other provisions of Part 2D.2.2 of the Corporations Act are commonly referred to as the "retirement benefit" provisions. The retirement benefit provisions were amended in 2009 to:

- reduce the maximum retirement benefits that can be given without prior Securityholder approval to "12 months base salary" (as defined in the Corporations Act), and
- expand the scope of the provisions so they apply to all persons whose remuneration is required to be disclosed in the Infigen Energy Group Remuneration Report (i.e. key management personnel).

Under the retirement benefits provisions of the Corporations Act, the term "benefit" has a wide operation and would include the exercise of discretion by the Board of the Company under the PR&O Plan in connection with a participant ceasing employment.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

What is approval sought for?

This approval only applies in respect of options and performance rights previously granted to senior managers of the Company as part of their remuneration in FY09, FY10 and FY11. There are currently ten employees (not all of which are senior managers) who received FY09, FY10 and FY11 awards. The Board of the Company does not propose to grant any further performance rights or options under the PR&O Plan. Any future awards will be made under the Equity Plan discussed in Item 6 above.

Under the PR&O Plan, the Board of the Company may accelerate the vesting of all or a portion of the unvested performance rights or options held by a participant upon cessation of a participant's employment or determine that a participant is entitled to retain their performance rights or options as if they were still an employee of the Infigen Energy Group.

As noted above, the exercise of this discretion in connection with a senior manager ceasing employment would constitute a "benefit" for the purpose of the retirement benefit provisions of the Corporations Act. This will require Securityholder approval where the discretion is being exercised in favour of a senior manager holding a managerial or executive office in the Infigen Energy Group where the value of the senior manager's termination benefits exceeds the statutory cap imposed by the Corporations Act.

Approval is sought to continue to permit the Board of the Company to exercise the above discretion under the PR&O Plan in connection with the cessation of employment of a participant who holds a managerial or executive office where the Board of the Company considers it reasonable and appropriate to do so.

The Board's intention is to only exercise its discretion where a participant ceases employment with the Infigen Energy Group without fault on the participant's part.

Approval is sought to assist the Infigen Energy Group to meet its existing obligations to its senior management and to provide the Infigen Energy Group with the flexibility to continue to remunerate employees fairly and responsibly.

The current market value of any potential retirement benefit arising from the FY09, FY10 and FY11 awards are illustrated in *Table 4 – Value of Remuneration That Vests in Future Years* within the FY11 Remuneration Report. The value of the benefit will ultimately depend on:

- the number of performance rights or options previously granted under the PR&O Plan;
- the number of performance rights or options held by the participant which the Board of the Company determine should vest (which may be a portion or all of the performance rights or options held); and
- the market price of Stapled Securities at the time such performance rights vest or options are exercised.

Key matters, events or circumstances which will, or are likely to affect the calculation of the value of the retirement benefit include:

- the financial performance of the Infigen Energy Group and the business or support area in which the participant works;
- the personal performance of the relevant participant;
- the seniority level and geographic location of the participant;
- the number of years of service with the Infigen Energy Group; and
- the circumstances in which the participant leaves the Infigen Energy Group.

Other than any entitlements arising under these past awards, it is the Company's current policy not to provide retirement benefits that would exceed 12 months fixed remuneration.

The Directors of the Boards of the Company, the Foreign Company and the Responsible Entity (with Mr George abstaining) recommend that Securityholders vote in favour of this resolution.

NOTICE OF ANNUAL GENERAL MEETINGS

EXPLANATORY NOTES

Item 9: Re-appointment of Auditor – Foreign Company only

Section 89 of the Companies Act 1981 (Bermuda) requires that the Auditor of the Foreign Company be appointed as Auditor by the shareholders of the Foreign Company at each Annual General Meeting of the Foreign Company. Upon appointment, the Auditor is to hold office until the close of the next Annual General Meeting. PricewaterhouseCoopers is the current Auditor of the Company, Foreign Company and Trust, and as such, PricewaterhouseCoopers is nominated for re-appointment as Auditor of the Foreign Company up until the close of the next Annual General Meeting.

Section 89 of the Companies Act 1981 (Bermuda) also provides that the Directors of the Foreign Company may approve the remuneration of the Auditor as authorised by the shareholders of the Foreign Company. Directors of the Company and the Responsible Entity of the Trust currently have authority to approve the remuneration of PricewaterhouseCoopers in its capacity as Auditor of both the Company and the Trust. Shareholders of the Foreign Company are therefore requested to provide the Directors of the Foreign Company with similar authority to approve the remuneration of PricewaterhouseCoopers in its capacity as Auditor of the Foreign Company. The remuneration paid to PricewaterhouseCoopers in their capacity as Auditor of the Company, the Trust and the Foreign Company during the 2011 financial year is shown in note 9 to the financial statements within the Infigen Energy Annual Report 2011.

The Directors of the Board of the Foreign Company recommend that shareholders of the Foreign Company approve the resolution to re-appoint PricewaterhouseCoopers as Auditor of the Foreign Company.

Securityholders are reminded that the Foreign Company is now a largely inoperative formal element of the Infigen Energy Group's historical structure that is maintained only because its removal could be complex and expensive under the terms of the stapling deed and various lender arrangements.

NOTICE OF ANNUAL GENERAL MEETINGS

ANNEXURE A

ANNEXURE A – OVERVIEW OF THE INFIGEN ENERGY EQUITY PLAN

1. The Board of the Company (“**Board**”) may in its absolute discretion determine which eligible persons will be offered the opportunity to participate in the Equity Plan.
2. Eligible persons may be invited to apply to be a participant in the Equity Plan.
3. Under the Equity Plan, the Company may grant performance rights, options or security appreciation rights (**Awards**).
4. The main difference between an option and a performance right is that an exercise price as determined by the Board is required to be paid by the participant to exercise a vested option, whereas a vested performance right has a nil exercise price (unless determined otherwise by the Board at the time of grant).

Security appreciation rights are the right to receive, upon vesting, a cash payment equal to the difference between the base price of the security appreciation right (set by the Board at the time of grant, having regard to the then market price of Stapled Securities) and the market price of Stapled Securities at the time when the security appreciation right vests. No amount is payable to a security appreciation right holder if the market price of Stapled Securities at the time of vesting is less than the original base price.

5. The grant of an Award is subject to the rules of the Equity Plan and the terms of the specific award as determined by the Board.
6. The Board is responsible for administering the Equity Plan in accordance with the rules of the Equity Plan and the terms and conditions of specific grants of an Award to participants in the Equity Plan.
7. An application to participate in the Equity Plan will not be accepted if, at the time of the application, the applicant:
 - (a) is not an employee of an Infigen Energy Group entity;
 - (b) has given notice of his or her resignation as an employee; or
 - (c) has been given notice of termination of his or her employment.
8. The Board may impose performance conditions on any awards under the Equity Plan to reflect the group’s business plans, budgets and performance objectives. Awards will not vest unless these vesting conditions are satisfied or accelerated vesting occurs in accordance with paragraph 12 below.
9. Awards will not attract dividends, distributions or voting rights until they vest (and in the case of options, are exercised) and Stapled Securities are allocated (whether or not the Stapled Securities are then subject to non-disposal restrictions).
10. On the vesting of an Award, the Company must cause to be issued, transferred or paid (as applicable) to the participant:
 - (a) in respect of vested options which are exercised by the option holder, the number of Stapled Securities (expressed to one decimal place) the subject of each vested option multiplied by the number of vested options exercised by the participant, rounded down to the nearest whole number of Stapled Securities;
 - (b) in respect of vested performance rights, in the absolute discretion of the Board, either:
 - (i) the number of Stapled Securities (expressed to one decimal place) the subject of each vested performance right multiplied by the number of vested performance rights held by that participant, rounded down to the nearest whole number of Stapled Securities; or
 - (ii) a cash amount equivalent to the Market Price of a Stapled Security on the vesting date multiplied by the number of Stapled Securities contemplated under paragraph 10(b)(i) above. The Market Price means an amount equal to the volume weighted average of the selling price of a Stapled Security recorded on the ASX over the 5 ASX trading days immediately preceding the vesting date or if no sale occurred during such period the last sale price of a Stapled Security recorded on the ASX; or
 - (c) in respect of vested security appreciation rights, a cash amount (rounded to the nearest whole dollar) calculated by multiplying the number of Stapled Securities to which those security appreciation rights relate by an amount equal to the amount by which the Market Price of a Stapled Security on the vesting date of the security appreciation right exceeds the base price of that security appreciation right.

As stated in paragraph 4 above, no amount is payable where that Market Price does not exceed that base price.
11. No amount is payable for the grant of an Award.

NOTICE OF ANNUAL GENERAL MEETINGS

ANNEXURE A

12. The Board may, in its absolute discretion, accelerate the vesting of all or part of any unvested Award, in the following circumstances:
- (a) a takeover bid is made to holders of Stapled Securities which the Board resolves has a reasonable prospect of success;
 - (b) a court orders that a meeting be held to consider a scheme involving a proposed arrangement for the merger or acquisition of the Infigen Energy Group;
 - (c) if Stapled Securities cease to be quoted on any securities exchange;
 - (d) the winding up of the Company, Foreign Company or Trust; or
 - (e) a participant's employment ceases due to death or total and permanent disability.
- The Equity Plan contains rules regulating the exercise of the Board's discretion in these circumstances.
13. An unvested Award held by a plan participant will lapse on the earlier of:
- (a) the expiry date applicable to that option, performance right or security appreciation right; or
 - (b) that participant becoming bankrupt or committing an act of bankruptcy; or
 - (c) the Board determining that the participant:
 - (i) has committed (or it is evident that the participant intends to commit) any act (whether by omission or commission) which amounts or would amount to any of dishonesty, fraud, wilful misconduct, wilful breach of duty, serious and wilful negligence or incompetence in the performance of the participant's duties;
 - (ii) is convicted of a criminal offence (other than minor/trivial offences) or is guilty of wilful or recklessly indifferent conduct which may injure the reputation or business of an Infigen Energy Group member; or
 - (iii) has failed to comply with a non-compete or confidentiality condition contained in their employment contract with an Infigen Energy Group member;
 - (d) that participant ceasing to be an employee due to reasons other than death, total and permanent disablement, redundancy or retirement (unless the Board of the Company determines otherwise in its absolute discretion); or
 - (e) subject to certain exceptions, the compulsory or voluntary winding up of the Company, Foreign Company or Trust as detailed in the Equity Plan.
14. If a participant's employment ceases due to death, total and permanent disablement, redundancy or retirement, or for any other reason approved by the Board in its absolute discretion, then his or her unvested Awards will be retained by the participant after his or her employment ceases and will vest or lapse in accordance with the terms of the grant of the Award and the Equity Plan rules.
15. The Equity Plan provides for the acquisition, by issue or transfer, of fully paid Stapled Securities by the plan entity appointed by the Company. Stapled Securities may then be transferred from the plan entity to a participant upon the relevant performance conditions being satisfied. Any Stapled Securities issued under the Equity Plan will rank equally with those traded on the ASX at the time of issue.
16. A participant may not sell, assign, transfer or otherwise deal with, or grant a security interest over, an Award. An Award lapses immediately on any purported sale, assignment, transfer, dealing or grant of security interest unless the Board in its absolute discretion approves the dealing or transfer or transmission is effected by force of law on death or legal incapacity to the participant's legal representative.
17. In the event of any capital reorganisation of the Company (or certain other matters affecting the Company's capital structure including any bonus issues and rights issues), the participant's Award will be adjusted, as set out in the Equity Plan and otherwise in accordance with the ASX Listing Rules. In general, it is intended that the participant will not receive any advantage or disadvantage from any such adjustment relative to holders of Stapled Securities.
18. The Board may impose restrictions on the disposal of Stapled Securities acquired by a participant under the Equity Plan and implement such arrangements (including a holding lock) as it determines are necessary to enforce this restriction. Once any restriction is removed, and subject to the Company's Securities Trading Policy, Stapled Securities acquired under the Equity Plan may be dealt with freely by the participant.
