ARENA FUNDING FOR MANILDRA SOLAR FARM

Infigen Energy (ASX: IFN) is pleased to announce that the 42.5 MW Manildra solar photovoltaic (PV) development project has been successful in the Australian Renewable Energy Agency (ARENA) large-scale solar competitive round. ARENA has advised that it will be extending an offer to negotiate a Funding Agreement in relation to \$10.9 million of ARENA funding towards the project.

Infigen is collaborating with First Solar on the project. We look forward to advancing the project to the next stage. Located in regional NSW, construction of the project would provide significant economic and environmental benefits, in addition to creating jobs and developing skills in a growing industry, and supporting local businesses.

ENDS

About Infigen Energy

Infigen Energy (Infigen) is a developer, owner and operator of renewable energy generation assets in Australia. We own six wind farms and a solar farm with a combined installed capacity of 557 megawatts operating in New South Wales, South Australia and Western Australia.

We are a leading Australian renewable energy company supplying electricity that is commercially, socially and environmentally sustainable. We are passionate about meeting climate change commitments and delivering renewable energy targets.

Infigen's development pipeline comprises approximately 1,100 megawatts of large-scale wind and solar projects spread across five states in Australia. Infigen trades on the Australian Securities Exchange (ASX) under the code IFN.
