Corporate Structure

The Infigen Energy Group (the Group) consists of the following entities:

- Infigen Energy Limited (IEL), a public company incorporated in Australia;
- Infigen Energy Trust (IET), a managed investment scheme registered in Australia;
- Infigen Energy (Bermuda) Limited (IEBL), a company incorporated in Bermuda; and
- the subsidiary entities of each of IEL and IET.

One share in each of IEL and IEBL and one unit in IET have been stapled together to form a single stapled security (IFN security).

Infigen Energy RE Limited (IERL) is the Responsible Entity of IET.

The current stapled structure of the Infigen Energy Group was established immediately prior to listing on the Australian Securities Exchange in 2005 and currently cannot be materially simplified due to the Group's corporate debt facility (Global Facility). IEBL was established and included in the Group's stapled structure in 2005 to provide flexibility regarding potential investment ownership structures. IEBL has not been utilised for that purpose since it was established and the Group aims to wind-up this entity when it is feasible to do so.

The following diagram represents the structure of the Infigen Energy Group, including identifying the entities and assets within the Global Facility borrower group.

Entities and assets within the Global Facility borrower group.

1. The wholly-owned subsidiaries of Infigen Energy Limited (IEL) that are Class B members in the US institutional equity partnerships (IEPs) and entitled to returns, including cash distributions, from the IEPs, are included within the Global Facility borrower group. The IEPs, which are not wholly owned, are not members of that group.
2. Through its subsidiaries, Infigen Energy Holdings Pty Limited (IEH) has provided funding to certain wholly-owned subsidiaries of IEL which in turn acquired Class A interests in relation to nine of IEL's US operating wind farms. Like IEH, those subsidiaries of IEL are owned by a member of the Global Facility borrower group but are 'Excluded Companies' for the purposes of the Global Facility.

As permitted by Class Order 05/642, issued by the Australian Securities and Investments Commission, these Financial Statements are combined financial statements that present the consolidated financial statements and accompanying notes of both the Infigen Energy Group and IET.

Directors' Report

The Directors of Infigen Energy Limited (IEL) and the Directors of Infigen Energy RE Limited (IERL), the Responsible Entity of Infigen Energy Trust (IET), present their report together with the Interim Financial Report of the Group and the Trust (refer below) for the half year ended 31 December 2014.

The Interim Financial Report of IEL comprises the consolidated Interim Financial Report of IEL and its controlled entities, including IET and its controlled entities and Infigen (Bermuda) Limited (IEBL), (the Infigen Energy Group or the Group).

The Interim Financial Report of IET comprises the consolidated Interim Financial Report of IET and its controlled entities (the Infigen Energy Trust Group or the Trust).

The following people were Directors of IEL and IERL during the half year and up to the date of this report, unless otherwise indicated:

- Michael Hutchinson
- Miles George
- Philip Green
- Fiona Harris
- Ross Rolfe AO

Review of Operations

Infigen Energy Group

Infigen Energy reported a Statutory Profit for the six months to 31 December 2014 of \$1.6 million. This was a favourable movement of \$16.9 million compared with a Statutory Loss of \$15.3 million in the prior corresponding period.

The major factor contributing to the movement was the non-recurrence of interest rate swap termination expenses. Higher revenue from US solar photovoltaic (PV) activities, higher net income from US Institutional Equity Partnerships (IEPs), and a greater cash distribution from Infigen Energy's US Class A cash flow interests for a full six-month period were offset by lower revenue in Australia due to poor wind conditions.

Further details are provided in the Management Discussion and Analysis of Financial and Operational Performance Report for the six months ended 31 December 2014.

Infigen Energy Trust

The net loss attributable to the unit holders of IET for the half year ended 31 December 2014 amounted to \$349,000 (half year ended 31 December 2013: \$325,000 loss).

Changes in State of Affairs

Work continued on the solar PV development pipeline including securing power purchase agreements for the Rio Bravo I & II (20 MW each) and Wildwood II (15 MW) projects in the US during the period.

Future Developments

The Group has initiated processes to assess the potential to unlock value from its portfolio. These processes have not yet been completed and it remains uncertain whether any transaction will eventuate.

In the US, we expect both full year production and average portfolio price to be in line with FY14, while in Australia, we expect both full year production and average portfolio price to be approximately 10% lower than in FY14.

Full year operating costs in the US are forecast to be at the upper end of the guidance range of between US\$76-78 million, and Australian operating costs are forecast to be near or below the lower end of the full year guidance range of \$35-37 million.

Subject to these operating conditions prevailing, the Group remains on track to achieve its previous guidance of approximately \$90 million of cash flow available to repay Global Facility borrowings and pay distributions to Class A members.

Directors' Report (continued)

Rounding

The Group is an entity of a kind referred to in Class order 09/0100, issued by the Australian Securities and Investments Commission, relating to the 'rounding off' of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest thousand dollars, unless otherwise indicated.

Auditor's Independence Declaration

The auditor's independence declaration is included on page 4.

Signed in accordance with a resolution of Directors.

On behalf of the Directors of IEL and IERL:

A handwritten signature in black ink, appearing to read "Miles George".

Auditor's Independence Declaration

As lead auditor for the review of Infigen Energy Group and Infigen Energy Trust Group for the half-year ended 31 December 2014, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- b) no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Infigen Energy Group and the entities it controlled during the period and Infigen Energy Trust Group and the entities it controlled during the period

A handwritten signature in black ink, appearing to read 'M Upcroft', is written over a light grey signature line.

Independent auditor's review reports to the stapled security holders of Infigen Energy Group and the unit holders of Infigen Energy Trust Group

Report on the Half-Year Financial Reports

We have reviewed the accompanying half-year financial reports of the Infigen Energy Group ('Infigen Energy Group') and Infigen Energy Trust Group ('Infigen Energy Trust Group') which comprises the consolidated statements of financial position as at 31 December 2014, the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration for Infigen Energy Group and Infigen Energy Trust Group. The Infigen Energy Group comprises Infigen Energy Limited and the entities it controlled during that half-year. The Infigen Energy Trust Group comprises the Infigen Energy Trust and the entities it controlled during that half-year.

Directors' responsibility for the half-year financial reports

The directors of Infigen Energy Limited and Infigen Energy Trust are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial reports based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial reports are not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Infigen Energy Group and Infigen Energy Trust Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

PricewaterhouseCoopers, ABN 52 780 433 757

Liability limited by a scheme approved under Professional Standards Legislation.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial reports of the Infigen Energy Group and Infigen Energy trust Group are not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of Infigen Energy Group and Infigen Energy Trust Group's financial position as at 31 December 2014 and of their performance for the half-year ended on that date;
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' Declaration

In the opinion of the Directors of Infigen Energy Limited (IEL) and the Directors of the Responsible Entity of Infigen Energy Trust (IET), Infigen Energy RE Limited (IERL) (collectively referred to as 'the Directors'):

- a) the financial statements and notes of IEL and its controlled entities, including IET and its controlled entities and Infigen Energy (Bermuda) Limited (the 'Infigen Energy Group') and IET and its controlled entities (the 'Infigen Energy Trust Group') set out on pages 8 to 29 are in accordance with the Corporations Act 2001, including:
 - (i) complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of Infigen Energy Group's and Infigen Energy Trust Group's financial position as at 31 December 2014 and of their performance for the half year ended on that date; and
- b) there are reasonable grounds to believe that both Infigen Energy Group and Infigen Energy Trust Group will be able to pay their debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

On behalf of the Directors of IEL and IERL:

A handwritten signature in black ink, appearing to read "Miles George", with a long, sweeping horizontal stroke extending to the right.

The above cash flow statements should be read in conjunction with the accompanying notes.

1. Summary of accounting policies

The principal accounting policies adopted in the preparation of the consolidated financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. This interim financial report consists of separate consolidated interim financial statements for:

- Infigen Energy Group (the Group), being Infigen Energy Limited (IEL), Infigen Energy Trust (IET), Infigen Energy (Bermuda) Limited (IEBL) and the controlled entities of IEL and IET; and
- Infigen Energy Trust Group (the Trust), being Infigen Energy Trust (IET) and its controlled entities.

Stapled security

The shares of IEL and IEBL and the units of IET are combined and issued as stapled securities in Infigen Energy Group. The shares of IEL and IEBL and the units of IET cannot be traded separately and can only be traded as stapled securities.

(a) Basis of preparation of half year report

The consolidated interim financial report of the Group and the Trust for the half year reporting period ended 31 December 2014 have been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Act 2001.

These condensed consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2014 and any public announcements made by the Group during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The Group and the Trust has relied upon the relief available to stapled entities in ASIC Class Order 13/1050 as amended by Class 13/1644 to allow preparation of consolidated or combined financial statements. Under this approach, Infigen Energy Limited has been treated as the 'parent' of the stapled entity for the purposes of preparing consolidated financial statements, with the other stapled entities being presented as non-controlling interests.

As permitted by Class Order 05/642 issued by the Australian Securities and Investments Commission, these financial statements are combined financial statements that present the consolidated financial statements and accompanying notes of both the Group and the Trust.

Legislative and regulatory regime

These financial statements have been prepared on the basis of the legislative and regulatory regime that exists as at 31 December 2014 and at the date of this report.

Significant changes to the regulatory regime, including any changes to the legislated Renewable Energy Target (RET), would be likely to affect the carrying values of assets, (including Property, Plant and Equipment, Deferred Tax Assets and Intangible Assets) and future renewable energy project development.

Summary of accounting policies (continued)

The accounting policies adopted are consistent with those of the previous financial year end and corresponding interim period, except as described below.

(i) Critical accounting estimates and judgments

For several years the Infigen security price has traded at a very substantial discount to its reported book value per security. The directors consider the market discount reflects a number of factors including, but not limited to, regulatory uncertainty in relation to the Renewable Energy Target in Australia, the outlook for reinstatement of distributions by the Group, the Group's gearing, and the Group's capacity to remain compliant with the leverage ratio covenant associated with its Global Facility borrowings. A positive resolution to the regulatory uncertainty in Australia should result in better prices for LGCs and improved liquidity in the LGC market. Furthermore, Infigen continues to pursue initiatives aimed at improving its financial flexibility, including considering asset sales and financing options for its portfolio.

The Group has initiated processes to assess the potential to unlock value from its portfolio. These processes have not yet been completed and it remains uncertain whether any transaction will eventuate.

Any transaction will be considered in the context of the overall benefit to Infigen security holders. While the directors have assessed that the value of the Group's assets meets or exceeds their book value, in light of the prolonged market discount to this value it is possible that a strategic transaction at below book value might be undertaken in order to accelerate the realisation of value for securityholders.

Deferred tax assets recognised in relation to unused tax losses in Australia are considered recoverable given that tax losses are expected to offset future Australian taxable income within a reasonable time horizon. The sale of any Australian assets would likely result in a reduction in the Australian group's forecast taxable earnings which would affect the deferred tax asset currently recognised.

Infigen Energy Trust

The capital structure of the Group includes long term loan funding from IET to other Group entities. This is recorded as a related party receivable in IET. These loans are assessed as recoverable. The potential sale of cash generating assets may however affect the ability of IET to realise this receivable in full.

(ii) Changes in accounting policy

A number of new or amended standards became applicable for the current reporting period, however, the Group or the Trust did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

(iii) Impact of standards issued but not yet applied by the Group

AASB 9 *Financial Instruments* addresses the classification and measurement of financial assets and financial liabilities. The standard is not applicable until 1 January 2018 but is available for early adoption. When adopted, it is likely to affect the Group's accounting for its financial assets since AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading. Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in profit or loss. The Group has not yet decided whether to early adopt AASB 9 and has not assessed the effect.

(iv) Impact of standards issued but not yet available for early adoption

IFRS 15 Revenue from contracts with customers replaces IAS 18 which covers contracts for goods and services, and IAS 11, which covers construction contracts. The standard is applicable for the first interim period within the annual reporting periods beginning on or after 1 January 2017. This new standard redefines the recognition of revenue based on control of a good or service rather than the existing notion of risks and rewards. When adopted, it is likely to affect the Group's revenue as a result of changes to measurement and timing of revenue recognition. The Group has not yet assessed the effect.

2. Segment information

Segment information provided to the Board of Directors

The Group has determined the operating segments based on the reports reviewed by the Board of Directors of IEL that are used to make strategic decisions.

The Board of Directors considers the business primarily from a geographic perspective and has identified two reportable segments. The reporting segments consist of the wind farm and generation businesses held within each geographical area.

The Board of Directors assesses the performance of the operating segments based on a measure of EBITDA (Segment EBITDA).

This measurement basis (Segment EBITDA) excludes the effects of equity-settled share-based payments which are included in Corporate costs and unrealised gains/losses on financial instruments.

Segment EBITDA is calculated on an economic interest basis. The Group has joint control over interests in seven US LLCs in which it owns 50% to 59.3% of the Class B Interests. Under IFRS, these interests are included in the statutory results of the Group using the equity method. Under the economic interest basis, the equity accounted share of profits/losses from joint ventures, and investment in associates and joint ventures is grossed up to include the Group's share of the financials on a line by line basis.

The Group also has a controlling interest in two US LLCs in which it owns more than 50% but less than 100% of the Class B interests. Under IFRS, the Group fully consolidates the financial performance of these companies within its statutory results and recognises a minority interest. Under the economic interest basis, the minority interests are excluded from the Group's results on a line by line basis.

Interest income and expenditure are not allocated to segments, as this type of activity is driven by the corporate treasury function, which manages the cash position of the Group.

The Board of Directors reviews segment revenues on a proportional basis, reflective of the economic ownership held by the Group. The adjustments shown for the equity accounted associates, joint ventures and non-controlling interests relate solely to the US segment.

Notes to the Consolidated financial statements
For the half year ended 31 December 2014

Segment information (continued)

The segment information provided to the Board of Directors for the operating segments together with a reconciliation of segment EBITDA to operating loss before income tax for the half year ended 31 December 2014 is as follows:

	INFIGEN ENERGY GROUP

5. Expenses

	INFIGEN ENERGY GROUP	
	Half year ended 31 Dec 2014 \$'000	Half year ended 31 Dec 2013 \$'000
From continuing operations:		
Net loss before income tax has been arrived at after charging the following expenses:		
Other expenses:		
Development costs	2,778	3,036
Other expenses	604	-
	3,382	3,036
Depreciation and amortisation expense:		
Depreciation of property, plant & equipment	55,052	55,126
Amortisation of intangible assets	6,792	6,284
	61,844	61,410
Interest expense:		
Interest expense on borrowings	16,419	16,239
Interest expense on derivative financial instruments	18,225	18,900
	34,644	35,139
Finance costs relating to institutional equity partnerships:		
Allocation of return on outstanding Class A liability ¹	11,754	13,490
Movement in residual interest (Class A) ¹	(3,148)	(2,473)
Non-controlling interest (Class B) ¹	1,765	1,695
	10,371	12,712
Other finance costs:		
Fair value losses on financial instruments ²	577	17,548
Bank fees and loan amortisation costs	2,704	3,490
Foreign exchange losses	-	1,309
Recognition and unwinding of discount on decommissioning provisions	127	127
	3,408	22,474

¹ Refer Note 9 for further details.

² Fair value losses on financial instruments in the half year ended 31 December 2013 are realised losses of \$16,773,000 relating to termination of certain interest rate swaps as well as unrealised losses on FX Options and Electricity Options which do not qualify for hedge accounting.

6. Investment in Associates and Joint Ventures

	INFIGEN ENERGY GROUP	
	Half year ended 31 Dec 2014	Year ended 30 June 2014
	\$'000	\$'000
a) Movements in carrying amounts		
Carrying amount at the beginning of the period	96,292	97,968
Share of profits after income tax	9,427	13,705
Distributions received	(6,009)	(13,649)
Effects of exchange rate changes	13,185	(1,732)
Carrying amount at the end of the period	112,895	96,292

b) Interest in associates and joint ventures

Set out below are the associates of the Group as at 31 December 2014. The interests listed below have share capital consisting solely of ordinary shares, which are held directly by the Group. The country of incorporation or registration is also their principal place of business.

	Place of business / country of incorporation	Ownership interest %		Nature of relationship	Measurement method
		30 December 2014	30 June 2014		
31 December 2014					
Sweetwater 1 LLC	US	50%	50%	Joint venture	Equity method
Sweetwater 2 LLC	US	50%	50%	Joint venture	Equity method
Blue Canyon 1 LLC	US	50%	50%	Joint venture	Equity method
Combine Hills 1 LLC	US	50%	50%	Joint venture	Equity method
Sweetwater 3 LLC	US	50%	50%	Joint venture	Equity method
Wind Park Jersey LLC	US	59.3%	59.3%	Joint venture	Equity method
Sweetwater 4-5 LLC	US	53%	53%	Joint venture	Equity method
Australian associate entities	Australia	32%-50%	32%-50%	Associate	Equity method

All US joint ventures held Class B interests in wind farm operating entities. The Australian associate entities held interests in renewable energy developments.

All associates and joint ventures are private entities and therefore no quoted security prices are available.

c) Contingent liabilities in respect of associates and joint ventures

	As at 31 Dec 2014 \$'000	As at 30 June 2014 \$'000
Letters of credit	1,655	1,358

Letters of credit generally relate to wind farm construction, operations and decommissioning and represent the maximum exposure. These are incurred jointly with other investors of the associate or joint venture.

Investments in Associates and Joint Ventures (continued)

d) Summarised financial information of associates and joint ventures

The Group's share of the results of its principal associates and joint ventures and its aggregated assets and liabilities are as follows:

	Company's share of:			
	Assets \$'000	Liabilities \$'000	Revenues \$'000	Profit \$'000
Half year ended 31 December 2014				
Sweetwater 1 LLC	17,011	12,640	1,049	38
Sweetwater 2 LLC	48,117	39,183	2,187	1,900

Australian associate entities	1,252	246	-	(85)
	443,896	347,604	47,657	13,705

7. Fair value hierarchy

a) Fair value measurements

The Group measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Derivative financial instruments
- Financial assets

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes by using the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following tables present the Group's financial assets and financial liabilities measured and recognised at fair value at 31 December 2014 and 30 June 2014.

As at 31 December 2014	INFIGEN ENERGY GROUP			
	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

Total liabilities	-	132,307	-	132,307

Effective 31 October 2013, a wholly-owned subsidiary of the Group acquired a financial asset for US\$79,163,500 (AUD\$84,894,000), being an investment in IJA Portfolio LLC, an unlisted entity which holds investments in Class A interests of Group-related US wind farm project entities. IJA Portfolio LLC is a private investing entity for which it is not possible to determine the fair value of this investment using quoted prices or observable market data. As such, the investment has been classified as level 3 for the purposes of the disclosure requirements of AASB113 *Fair Value Measurement*.

Effective 1 January 2014, a wholly-owned subsidiary of the Group acquired financial assets for US\$13,350,000 (AUD\$15,076,000), being an investment in Class A interests in two Group-related US wind farm projects entities. These investments are in private investing entities for which it is not possible to determine the fair value of these investments using quoted prices or observable market data. As such, the investment has been classified as level 3 for the purposes of the disclosure requirements of AASB113 *Fair Value Measurement*.

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels at the end of the reporting period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at 31 December 2014.

b) Valuation techniques used to derive level 2 and level 3 fair values

The fair value of derivative financial instruments not traded in an active market (for example, interest rate derivatives) is determined using valuation techniques. These valuation techniques utilise observable market data and do not rely upon entity specific estimates. If all significant inputs required to fair value derivative financial instruments are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for financial assets.

Financial assets represent an investment in a privately held joint arrangement that holds tax equity interests in US wind farm projects. The financial asset entitles the Group to specified cash flows and returns in accordance with the contractual arrangements.

Specific valuation techniques used to value derivative financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves

Fair value hierarchy (continued)

- The fair value of FX options is determined using forward exchange rates at the balance sheet date
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments. This includes the financial assets.

All of the resulting fair value estimates are included in level 2 except for the financial asset explained in (c) below.

The best evidence of fair value is current prices in an active market for similar financial assets. Where such information is not available the Directors consider information from a variety of sources including:

- Discounted cash flow projections based on reliable estimates of future cash flows
- Capitalisation rate derived from an analysis of market evidence

c) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in level 3 items for the half year ended 31 December 2014:

	Investment in financial assets IJA Portfolio LLC \$'000
Opening balance at 30 June 2014	
Acquisitions	86,384
Interest income on financial asset	4,771
Distributions received as return of investment	(6,172)
Net foreign currency exchange differences	12,526
Closing balance at 31 December 2014	97,509

There were no transfers between level 2 and level 3 financial instruments during the period.

(ii) Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements.

Description	Fair value at 31 December 2014 \$'000	Valuation techniques	Range of inputs (probability-weighted average)	Relationship to unobservable inputs to fair value
Financial assets	97,509	Discounted cash flows	Discount rates 5.7%-7.7%	An increase or decrease in discount rate of 100bps would change the fair value by approximately \$4,403,000

(iii) Valuation processes

The Group performs the valuations of level 3 financial instruments in-house for financial reporting purposes. These valuations are prepared half-yearly and reviewed by the finance teams, Chief Financial Officer and the Board Audit, Risk and Compliance Committee.

8. Borrowings

		INFIGEN ENERGY GROUP

At period end	414,971	384,047	65,373	55,327	480,344	439,374
Deferred revenue:						
At period beginning					333,251	356,817
Deferred benefits recognised in profit and loss during the period					(9,664)	(18,544)
Foreign exchange loss / (gain)					48,682	(5,022)
At period end					372,269	333,251
					852,613	772,625

10. Distributions paid

Distributions in respect of the half year ended 31 December 2014 were nil (half year ended 31 December 2013: nil).

11. Earnings per share / unit

	INFIGEN ENERGY GROUP		INFIGEN ENERGY TRUST GROUP	
	Half year ended 31 Dec 2014 cents per security	Half year ended 31 Dec 2013 cents per security	Half year ended 31 Dec 2014 cents per security	Half year ended 31 Dec 2013 cents per security
(b) Basic and diluted earnings per stapled security / parent entity share:				
<i>Parent entity share</i>				
From continuing operations attributable to the parent entity shareholders	0.26	(2.0)	-	-
Total basic and diluted earnings per share attributable to the parent entity shareholders¹	0.26	(2.0)	-	-
<i>Stapled security</i>				
From continuing operations attributable to the stapled security holders	0.20	(2.0)	(0.1)	0.0
Total basic and diluted earnings per security attributable to the stapled security holders¹	0.20	(2.0)	(0.1)	0.0

¹ The number of performance rights/units outstanding has not been included in the calculation of diluted EPS as they are anti-dilutive.

(c) Reconciliation of earnings used in calculating earnings per share / unit

The earnings and weighted average number of shares / units used in the calculation of basic and diluted earnings per share / unit are as follows:

	INFIGEN ENERGY GROUP		INFIGEN ENERGY TRUST GROUP	
	Half year ended 31 Dec 2014 \$'000	Half year ended 31 Dec 2013 \$'000	Half year ended 31 Dec 2014 \$'000	Half year ended 31 Dec 2013 \$'000
Earnings attributable to the parent entity shareholders				
From continuing operations	1,957	(14,963)	-	-
Total earnings attributable to the parent entity shareholders	1,957	(14,963)	-	-
Earnings attributable to the stapled security holders				
From continuing operations	1,554	(15,333)	(349)	(325)
Total earnings attributable to the stapled security holders	1,554	(15,333)	(349)	(325)

(d) Weighted average number of shares used as the denominator

	INFIGEN ENERGY GROUP		INFIGEN ENERGY TRUST GROUP	
	Half year ended	Half year ended	Half year ended	Half year ended
	31 Dec 2014	31 Dec 2013	31 Dec 2014	31 Dec 2013
	No.'000	No.'000	No.'000	No.'000
Weighted average number of shares for the purposes of basic and diluted earnings per share	766,975	764,134	766,975	763,116

12. Contingent liabilities

	INFIGEN ENERGY GROUP	
	As at	As at
	31 Dec 2014	30 June 2014
	\$'000	\$'000
Letters of credit	52,623	45,135

Letters of credit generally relate to wind farm construction, operations and decommissioning and represent the maximum exposure. No liability was recognised by the parent entity of the Group in relation to these letters of credit, as their combined fair value is immaterial.

Deed of Cross Guarantee

Under the terms of ASIC Class Order 98/1418 (as amended by Class Order 98/2017) certain wholly-owned controlled entities have been granted relief from the requirement to prepare audited financial reports. Infigen Energy Limited has entered into an approved deed of indemnity for the cross-guarantee of liabilities with those controlled entities.

Acquisition of Class A Interests in US wind farms

During the year ended 30 June 2014, the Group acquired a share of various Class A interests in Group-related US wind farms. The acquisitions resulted in a put option being held by the seller, whereby the Group may be required to acquire the residual interests held by the seller after December 2018. The exercise of this option is at the discretion of the seller and is only likely to be exercised if certain performance outcomes are achieved. At this point in time, it cannot be determined whether it is probable that the option will be exercised. The maximum exposure to the Group under the option is capped at US\$3.5 million, (AUD\$3.9m). As such, no liability has been recognised for the option as at 31 December 2014.

13. Contributed equity

	INFIGEN ENERGY GROUP		INFIGEN ENERGY TRUST GROUP	
	Half year ended 31 Dec 2014 \$'000	Half year ended 31 Dec 2013 \$'000	Half year ended 31 Dec 2014 \$'000	Half year ended 31 Dec 2013 \$'000
Fully paid stapled securities				
Balance as at 1 July	762,460	761,642	753,894	753,076
Issue of securities	709 ¹	818 ²	709 ¹	818 ²
Balance as at 31 December	763,169	762,460	754,603	753,894
Attributable to:				
Equity holders of the parent	2,305	2,305		
Equity holders of the other stapled entities (minority interests)	760,864	760,155		
	763,169	762,460

	Half year ended 31 Dec 2014 No.'000	Half year ended 31 Dec 2013 No.'000	Half year ended 31 Dec 2014 No.'000	Half year ended 31 Dec 2013 No.'000
Number of fully paid stapled securities				
Balance as at 1 July	764,993	762,266	764,993	762,266
Issue of securities	2,895	2,727	2,895	2,727
Balance as at 31 December	767,888	764,993	767,888	764,993

¹ 2,894,147 stapled securities at 24.5 cents each

² 2,727,462 stapled securities at 30 cents each

Stapled securities entitle the holder to participate in dividends from IEL and IEBL and in distributions from IET. The holder is entitled to participate in the proceeds on winding up of the stapled entities in proportion to the number of and amounts paid on the securities held.

14. Subsequent events

Since the end of the half year, in the opinion of directors of IEL and IERL, there have not been any transactions or events of a material or unusual nature likely to affect significantly the operations or affairs of IEL and IET in future financial periods.
