Under the terms of the mandate, the banks will provide full underwriting capacity for the facility which is approximately €1.0 billion. This is a significant transaction as it represents the first global wind farm portfolio financing. It involves wind farm assets across 3 continents and 5 countries. The financing facility, once implemented, will result in an improved cost of capital and additional funding capacity for BBW.

It is anticipated that further details in relation to the global financing will be made available in due course.
