INFIGEN ANNOUNCES MARCH 2019 MONTHLY PRODUCTION

Infigen Energy (ASX: IFN) today reported unaudited production for March 2019 as follows:

		March			YTD		
Wind Farm ¹	State	2019	2018	Variance	FY19	FY18	Variance
		(GWh)	(GWh)	(%)	(GWh)	(GWh)	(%)

Production purchased and Contracted Assets ³	9	-	n/m	64	-	n/m	

As electricity flows through the transmission and distribution networks, energy is lost due to electrical resistance and the heating of conductors. Revenue is subject to marginal loss factors that are fixed annually by the Australian Energy Market Operator to account for network losses.

Monthly Production Generated in prior Financial Years for Infigen's Owned Assets

Infigen notes that there is a risk that an El Niño weather pattern develops in FY19. The Bureau of Meteorology has recently increased its El Niño Outlook from "WATCH" to "ALERT", meaning there is approximately a 70% chance of an El Niño weather pattern developing during the southern hemisphere autumn or winter. El Niño periods can result in lower than average wind production, noting El Niño is not a precondition to such lower production, with Infigen having experienced lower than average wind production in periods experiencing an El Niño and in periods when one was not existing (refer FY17).

¹ Some totals may not add down the column or across the row (where applicable) due to rounding of individual components. Variance is reported as a percentage and is based on unrounded figures.

² Owned Assets refers to Infigen's 7 operating wind farms.

³ Contracted Assets refers to production acquired under run of plant PPAs where Infigen is the offtaker.

Further details in relation to Production Generated from Owned Assets is reported in Appendix 1. Further details in relation to Production Sold from Owned Assets is reported in Appendix 2.

About Infigen Energy

Infigen is a leading Australian Securities Exchange (ASX) listed energy market participant delivering energy solutions to Australian businesses and large retailers.

Infigen supplies Australian business customers clean energy from a combination of its own renewable energy generation assets, energy sourced under power purchase agreements, firming solutions from the broader energy market and the 25MW / 52MWh Battery currently under construction.

Infigen's wind generation assets are located in New South Wales, South Australia and Western Australia and it has power purchase agreements in Victoria. Infigen's energy retailing licences are held in the National Electricity Market (NEM) regions of Queensland, New South Wales (including the Australian Capital Territory), Victoria and South Australia.

Infigen is Australia's largest listed wind power generator by installed capacity with 670MW across Australia. It is also a proud and active supporter of the communities in which it operates.
