INFIGEN ANNOUNCES THIRD QUARTER FY16 PRODUCTION AND REVENUE

Infigen Energy (ASX: IFN) today reported unaudited production and revenue for the three months ended 31 March 2016 (Q3 FY16) as follows:

	Q3 FY16	Q3 FY15	% Change
Production (GWh)	309	346	(11)
Revenue (\$m)	39.8	34.2	16
Price¹ (\$/MWh)	113.5	98.7	15

Production of 309 GWh for Q3 FY16 was 11% or 37 GWh lower than the prior corresponding period (pcp) due to lower wind resource across the portfolio.

Revenue of \$39.8 million for Q3 FY16 was 16% or \$5.6 million higher than the pcp. This was due to compensated revenue receivable under a production hedge that matured on 31 March 2016 and higher Large-scale Generation Certificate (LGC) and electricity prices, partially offset by lower production.

The average bundled price for the sale of electricity and LGCs was \$113.5/MWh, up \$14.8/MWh or 15% on the pcp.

¹ Calculated price excludes compensated revenue.

About Infigen Energy

Infigen Energy (Infigen) is a developer, owner and operator of renewable energy generation in Australia. We own six wind farms and a solar farm with a combined installed capacity of 557 megawatts operating in New South Wales, South Australia and Western Australia.

Infigen's operating assets generate enough power to meet the needs of over 250,000 homes saving over a million tonnes of carbon dioxide emissions each year.

Infigen's development pipeline comprises approximately 1,100 megawatts of large-scale wind and solar projects spread across five states in Australia.

Infigen trades on the Australian Securities Exchange (ASX) under the code IFN.
